

## Summary of Staff Recommendations for 6-Parnassus:

- Would be extended to West Portal Station on 14th Ave. and Taraval St. (would require extension of overhead wires)
- Would be rerouted via Stanyan between Haight and Parnassus to consolidate the 7-Haight and 6-Parnassus into one route; segment in Ashbury Heights would be discontinued to conserve resources
- Shown with two-way service on lower Haight St. (further study needed)
- Combined with 71L, would provide local and limited-stop service on the full length of Haight St. every 5 min daytime and 10 min evening
- Modified by SFMTA Board Ad Hoc TEP Review Committee to study both the proposed and existing route alignments in Ashbury Heights during environmental assessment
- Proposed frequencies – 10 min daytime; 20 min evening

## Line 6 - Parnassus Recommended Route Alignment

\*Only the showcased route and related routes are shown in color. The rest of the recommended network is shown in gray.
