# A road diet & separated bikeway will be built on Bay Street in Spring 2015!

The San Francisco Municipal Transportation Agency (SFMTA) has been working to improve the safety and comfort of walking and bicycling and to encourage motorists to travel more slowly on Bay Street.

Along with narrowing Bay Street to one lane in each direction between Laguna and Fillmore streets, "back-in" angled parking will be added next to a buffered bike way on the park side of the street. The diagram to the right shows how to correctly use the new parking spaces.

Construction is expected to start in early 2015.
