### **PURPOSE**

To approve various routine parking and traffic modifications.

### **STRATEGIC PLAN GOALS AND TRANSIT FIRST POLICY PRINCIPLES:**

- Goal 1: Create a safer transportation experience for everyone
- Objective 1.1: Achieve Vision Zero by eliminating all traffic deaths.
  - Objective 1.2: Improve the safety of the Transit System.
- Goal 2: Make transit and other sustainable modes of transportation the most attractive and preferred means of travel
- Objective 2.1: Improve transit service.
  - Objective 2.2: Enhance and expand use of the city's sustainable modes of transportation.
  - Objective 2.3: Manage congestion and parking demand to support the Transit First Policy.

This action supports the following SFMTA Transit First Policy Principles:

1. To ensure quality of life and economic health in San Francisco, the primary objective of the transportation system must be the safe and efficient movement of people and goods.
2. Public transit, including taxis and vanpools, is an economically and environmentally sound alternative to transportation by individual automobiles. Within San Francisco, travel by public transit, by bicycle and on foot must be an attractive alternative to travel by private automobile.
3. Decisions regarding the use of limited public street and sidewalk space shall encourage the use of public rights of way by pedestrians, bicyclists, and public transit, and shall strive to reduce traffic and improve public health and safety.
