UPDATE: L Taraval Improvement Project

Since Thursday, August 15, 2019, traffic pattern on lower Great Highway between Ulloa and Santiago streets has been changed. Work hours are from 7 a.m. to 5 p.m., Monday through Friday. Some parking spaces are temporarily restricted in the construction zones and traffic lanes have been modified in the northbound lane during active work.

Since Monday, January 24 and continuing through Friday, February 21, the outbound L Taraval stop at 44th Avenue is temporarily relocated from the near side of the intersection to the far side, Monday to Friday from 7:30 a.m. until 4:30 p.m.

UPDATE: Third Street Transit and Safety Project *continued*

UPDATE: Townsend Corridor Improvement Project

Muni customers, pedestrians, people on bicycles, drivers and other road users should be mindful of the construction activity that is occurring along the south side of Townsend Street, particularly near the Caltrain station. Construction crews are currently strengthening the street closest to the bus boarding island on Townsend Street between 4th and 5th streets.

As a result, loading for Muni routes **10 Townsend, 47 Van Ness and 83X Mid-Market Express** on Townsend Street between 4th and 5th streets will be shifted at times in order to facilitate this final phase of construction which requires seven to ten days for each new section of the surface to fully harden.

During the hours of 9 a.m. to 4 p.m., eastbound Townsend Street between 4th and 5th streets will at times be reduced from two lanes to one lane to accommodate construction work. Westbound Townsend Street will not be affected.

Please follow posted signs as the construction zone will move as progress continues. For more information about this project, visit: www.sfmta.com/townsend.

UPDATE: Jefferson Streetscape Improvement Project

Since October 2019 and continuing for the next 12 months, the E Embarcadero and F Market & Wharves streetcars will turn back at Pier 39 due to construction on the Jefferson Streetscape Improvement Project. The last inbound stop is on The Embarcadero at Pier 39.

Customers wishing to ride to further destinations may board a bus shuttle at that stop, which operates in a loop to serve the missed E Embarcadero and F Market & Wharves stops along Fisherman's Wharf.

Riders wishing to return to downtown locations on the E Embarcadero and F Market & Wharves lines must board across Stockton Street on Beach Street in front of the parking lot at the Academy of Art University.

UPDATE: Jefferson Streetscape Improvement Project *continued*

Since October 2019 and continuing to early March 2020, due to construction on Jefferson Street between Taylor and Jones streets, bus shuttles will not serve the stop at Jones and Beach streets. Customers should use alternate stops, at Jones and Taylor streets or at Beach and Mason streets.

For more information about Phase Two of the Jefferson Streetscape Improvement Project, visit <http://www.sfpublicworks.org/jefferson>.

UPDATE: Third Street Bridge Rehabilitation Project

Nighttime construction work will continue to take place between the hours of 8 p.m. and 7 a.m. and is anticipated to continue periodically through February 2020.

Since July 2019, crews have begun phase two of the rehabilitation work. Phase two construction work involves travel lane shifts and other adjustments to the roadway and work area. Vehicle and bicycle access via travel lanes across the bridge continue to be available in each direction, northbound and southbound (**except during periods of full temporary bridge closures when the pending scope of work restricts access across the bridge for all vehicle, bicycle and pedestrian traffic**). Pedestrian access is available via the sidewalk along the eastern side of the bridge. People on bike may also choose to walk their bicycle along the pedestrian sidewalk as an alternative to riding across the bridge via the travel lane. Pedestrian access via the sidewalk along the western side of the bridge may be unavailable during different phases of upcoming work.

Third Street Bridge is open and access across the bridge is available.

Construction scheduling is subject to change due to rain or other weather delays, equipment breakdown, and/or unforeseen field conditions. Additional periods of short closures may be possible, if necessary, to complete remaining rehabilitation work. Information will be shared closer to that period should additional closures seem necessary and details are finalized. Updates will be posted to the project webpage. For details about the project, the latest construction updates and suggested detour routes for pedestrians, bicyclists and vehicles, visit: www.sfpublicworks.org/thirdstreetbridge.
