**Federal Law Requires Face Masks on Muni**

To help stop the spread of COVID-19, **federal law requires wearing a mask** in Muni stations, when purchasing a ticket and while waiting for, boarding, riding or exiting transit. Masks are also required on paratransit and in taxis. Violations can result in denial of boarding or removal from Muni and may carry federal penalties. Masks do not include face shields and should be a solid piece of material without slits, exhalation valves, or punctures. Face coverings like scarves and bandanas do not meet this requirement. **For more information, please visit [sfmta.com/COVID](https://sfmta.com/COVID).**

**ONGOING: Geary Rapid Project**

As part of Verizon's private facility expansion, excavation is planned within the project limits of the City's [Geary Rapid Project](#), which includes water main replacement and surface transportation improvements such as sidewalk extensions at intersection corners.

The following construction forecast is subject to change due to weather delays or unexpected field conditions:

**From Saturday, Feb. 20 through Saturday, March 13, between 8 a.m. and 6 p.m. (on Saturdays only):**

In preparation for the installation of conduits for future fiber-optic cables, crews will perform "potholing" – digging small exploratory holes to verify the locations of existing underground utilities in order to minimize potential conflicts.

There may be partial lane closures and temporary parking restrictions as a result of this work.

**ONGOING: L Taraval Improvement Project**

**Since Friday, Jan. 22**, track replacement work started on Taraval Street between 40<sup>th</sup> and 41<sup>st</sup> avenues. For track replacement work, traffic is being detoured at the intersections of 40<sup>th</sup> and 41<sup>st</sup> avenues at all times of the day until track replacement work along these segments are complete. During active construction hours, parking on both sides of the blocks will be temporarily restricted to give the crew the safety clearance they need to demo and replace the aged tracks in the center of the road and allow eastbound/westbound vehicular traffic. Parking will be returned at the end of each workday along the impacted blocks.

ONGOING: L Taraval Improvement Project *continued*

**Since Aug. 2019**, the traffic pattern on lower Great Highway between Ulloa and Santiago streets has been changed. The northbound travel lane on lower Great Highway has been rerouted to 48th Avenue for two blocks between Ulloa and Santiago streets. The southbound travel lane will continue on lower Great Highway as usual. This will be in effect until project completion in fall 2021. For project details, visit [SFMTA.com/LTaraval Project](https://www.sfmta.com/LTaravalProject).

**ONGOING: 19th Avenue (CA Route 1) Combined City Project**

**San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19<sup>th</sup> Avenue between Holloway Avenue and Lincoln Way.**

Construction work for the first segment of this project along 19th Avenue between Lincoln Way and Noriega Street has begun.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along the route of the 28 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19<sup>th</sup> Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.
