Masks are also required on paratransit and in taxis. Violations can result in denial of boarding or removal from Muni and may carry federal penalties. Street Closures

To accommodate events that will take place at the arena, the following street closures will be enforced:

- Two and a half hours before the opening pitch, the SFMTA will close eastbound King Street between 3rd and 2nd streets to vehicle traffic. This change is to accommodate social distancing for fans entering the ballpark. King Street will reopen after first pitch until the seventh inning.
- From the seventh inning until post-game traffic dies down, the SFMTA will again close eastbound King Street between 3rd and 2nd streets to vehicle traffic in order to reduce congestion on city streets.
- Additionally, the northbound portion of the 4th Street Bridge (Peter R. Maloney Bridge) will be closed to all traffic except Muni, taxis and bicycles during the post-game period.

Taxi Stands

- 2nd Street, west side, between Brannan and King Streets
- 2nd Street, east side, between Townsend and King Streets
- 3rd Street, east side, north of King Street

Special Event Parking Rates

During baseball games and other major events with more than 10,000 expected attendees at the Oracle Park, parking meters close to the ballpark will charge a special event rate of \$8 per hour. These rates help make more parking spots available in South Beach and Mission Bay and help reduce congestion by discouraging circling for free or cheap parking near the ballpark.

Parking meters in the Special Event Zone will operate with a \$8 per hour Special Event rate during baseball games, and meters near the ballpark will be enforced in evenings, and on Sunday during games. Start times for the Special Event rate vary based on game start time. More information on special event parking regulations can be found on www.sfmta.com/special-event-parking.

For additional details and about transportation to ballpark, visit www.sfmta.com/oracle-park. For more event details, visit <http://sanfrancisco.giants.mlb.com>.

Ongoing until late this summer, streetscape and landscape work is taking place with minimal public impacts. For project details, visit [SFMTA.com/LTaraval Project](https://www.sfmta.com/LTaravalProject).

To minimize the inconvenience for the neighbors and drivers, the SFMTA is starting to shrink the footprint of the staging area on Lower Great Highway. Following the opening of the block between Santiago and Taraval streets in May, we are cleaning up and demobilizing the next block between Taraval and Ulloa streets. On Friday, June 11, the northbound lane of Lower Great Highway will be fully open to vehicular traffic.

ONGOING: L Taraval Improvement Project *continued*

With the reopening of all Muni Metro subway stations with rail service on the [N Judah](#) and [KT Ingleside-Third](#), the L Bus will continue serving the L stops between Embarcadero and the SF Zoo. While the KT trains are running in the subway, customers have an option of transferring between the L Bus and KT train at West Portal Station. As the L bus is not serving Forest Hill Station anymore, customers can transfer to 44 O'Shaughnessy to access that station.

ONGOING: 19th Avenue (CA Route 1) Combined City Project

San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19th Avenue between Holloway Avenue and Lincoln Way.

Construction work for the first segment of this project along 19th Avenue between Lincoln Way and Noriega Street has begun.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along the route of the 28 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19th Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue on Oct. 17, 2020. **The following Muni routes have been affected with the stop removal:**

- **28 19th Avenue**
- **91 3rd Street/19th Avenue Owl**

To find additional information about the transit reliability and pedestrian safety components, visit sfmta.com/28Rapid. For overall project information, visit sfpublicworks.org/19th-Avenue.
