### EMSC Motion 151118.01

Whereas, San Francisco's rapid growth, worsening congestion and slow transit speeds impede the city's goal of increasing transit's share of trips within the city; and

Whereas, San Francisco's "four corridors plan," included in city policy in 1989 and approved twice by the voters is in need of being updated and expanded; and

Whereas, BART is developing the concept of "urban metro service" that could make BART an effective component of an intra-city rapid transit system; and

Whereas, other potential rapid transit corridors have been proposed or are under consideration by public and private agencies;

Now, therefore, be it resolved that the City prepare a comprehensive long-range plan for urban rapid transit within the city, including (i) expansion of the Muni Metro system, (ii) integration of BART service and possible BART expansion into the system, and (iii) improvements and enhancements of the existing BART and Muni Metro systems to complement the overall system. This plan should be created with full participation by representatives of users, neighborhoods, and other interested parties and should have a time horizon for implementation of 30 years, with recommended timing and prioritization of projects.

12. Committee Members' requests for information. (For discussion only)

13. Schedule upcoming calendar items. (For discussion only)
