**The San Francisco Conservatory of Music** is committed to advancing the next generation of music. As one of the top professional music schools in the country, SFCM is a forward-thinking hub of music learning where 450 students from more than 30 countries work to become change-makers.

At SFCM, we give students the framework and foundation to succeed throughout their studies and careers, creating a path of lifelong learning. More than any other world-class conservatory, we focus on educating the whole person with an interconnected curriculum that breaks down barriers between the intellectual, artist, professional, and individual. Our faculty, facilities, and position at the heart of the San Francisco music scene have helped SFCM seize a leading role in helping students launch their careers.

SFCM was founded by two women as a piano school in 1917 with only 40 students. Today it has two campus buildings, state-of-the-art technology, and a professional collaboration with leading artist management company Opus 3 Artists.

From the children in our Pre-College Academy to our graduate students mastering their crafts in classical, jazz, and technology, our students are composing and defining what it means to be a 21st-century artist.
