### **PURPOSE**

To approve various routine parking and traffic modifications.

### **STRATEGIC PLAN GOALS AND TRANSIT FIRST POLICY PRINCIPLES:**

4. Make streets safer for everyone.
5. Deliver reliable and equitable transportation services.
6. Eliminate pollution and greenhouse gas emissions by increasing use of transit, walking, and bicycling.

This action supports the following SFMTA Transit First Policy Principles:

1. To ensure quality of life and economic health in San Francisco, the primary objective of the transportation system must be the safe and efficient movement of people and goods.
2. Public transit, including taxis and vanpools, is an economically and environmentally sound alternative to transportation by individual automobiles. Within San Francisco, travel by public transit, by bicycle and on foot must be an attractive alternative to travel by private automobile.
3. Decisions regarding the use of limited public street and sidewalk space shall encourage the use of public rights of way by pedestrians, bicyclists, and public transit, and shall strive to reduce traffic and improve public health and safety.
