

CABRILLO STREET

between 45th Avenue and 25th Avenue

District: 2

Length: 2.58 mi

Meets Vehicle Volume Target: Yes

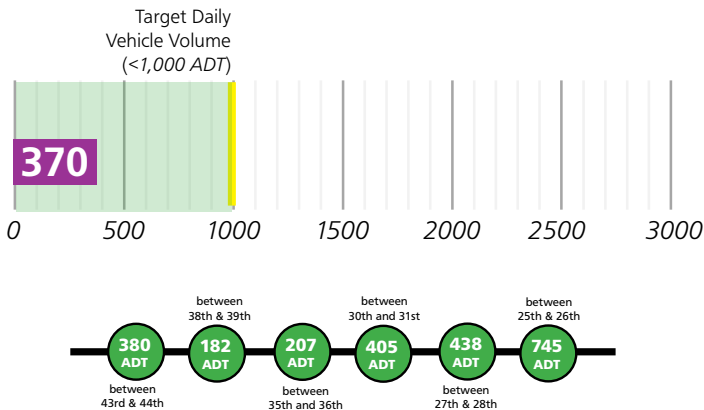

Meets Vehicle Speed Target: No

"It is much safer to walk and bike on, and cars on intersecting streets are much more aware of pedestrians and bikers. It is also a great venue for recreation, and I've seen so many families out for walks or using chalk to decorate the roads now that it has a slow street designation. I really hope we're able to keep that source of community-building, safe outdoor space moving forward."

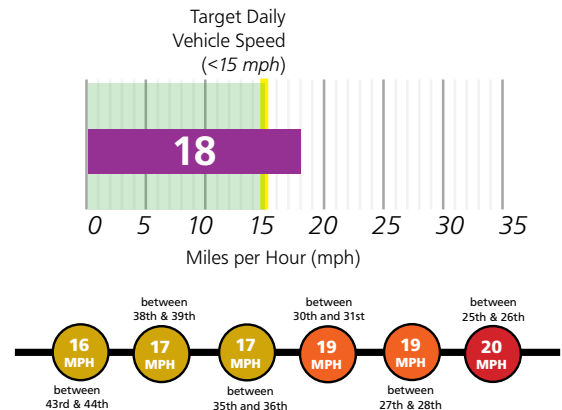

- Community member in the Richmond neighborhood
