Key to Changes

Continental Crosswalks

These upgraded crosswalks use a ladder design proven to increase pedestrian visibility while crossing.

Transit Bulbs

Transit bulbs reduce delays by eliminating the need for buses to merge in and out of traffic at transit stops. The bulbs make it easier for everyone to get on and off the bus by aligning the steps line with the curb. In addition, bulbs provide additional space for people walking along Columbus or waiting for the bus, and they make crossing the street easier by reducing the distance between curbs.
