The Geary Rapid project aims to improve Muni's 38 Geary and 38R Geary Rapid bus service and address traffic safety. After receiving initial approvals last year, we are seeking feedback on the project's near-final design.

Drop in at one of two Open Houses to provide your feedback to project staff. Attendees will be able to:

- Review updated detailed designs. Learn about improvements proposed along Geary and portions of O'Farrell between Market and Stanyan streets, including dedicated bus lanes, bus stop changes and safety treatments.
- Visit project information stations hosted by project staff who can answer your questions.
- Complete and submit project feedback to project staff. The SFMTA Board will consider this feedback when evaluating the final design later this summer.
