### **CONSTRUCTION WORK AND OTHER UPDATES**

#### **UPDATE: Van Ness Improvement Project**

The Van Ness Improvement Project is a civic improvement project that will bring San Francisco's first Bus Rapid Transit system. To maximize the benefits of construction, the City will also be replacing major utilities including water, sewer and emergency firefighting water systems. Work will also be done to repave Van Ness Avenue, enhance streetlights and landscaping, and install new sidewalk lighting and rain gardens.

Traffic lanes on Van Ness Avenue have been shifted to create two construction zones for upcoming utility work. Because some of this work requires reducing Van Ness Avenue to one lane in each direction, some work is limited to nighttime hours.

#### **Friday, August 10, between the hours of 8 p.m. and 7 a.m.:**

- **From Washington to Bush streets:** Crews are scheduled to pothole to confirm underground utilities for upcoming sewer work.
- **From Post to Geary streets:** Crews are scheduled to pothole for upcoming work.
- **On Turk Street:** Crews are scheduled to work on updating the emergency firefighting water system. Disruptive noise is expected.
- **On McAllister Street:** Crews are scheduled to perform water work.
- **From McAllister to Market streets:** Crews are scheduled to work on the overhead contact system.

#### **Sunday, August 12, between the hours of 8 p.m. and 7 a.m.:**

- **From Jackson to Sutter streets:** Crews are scheduled to prepare the area for upcoming sewer work.

### **ONGOING: Twin Peaks Tunnel Improvements Project**

**Since Monday, June 25**, the Twin Peaks Tunnel is closed for approximately two months. With 100 years of service under its belt, the Twin Peaks Tunnel is in need of extensive interior work to continue to operate safely and reliably for years to come.

The vital part of our transit system connects Castro Station to West Portal Station and serves 80,000 K Ingleside, L Taraval and M Ocean View customers every day.

The tunnel's infrastructure, including the tracks, walls and drainage systems, must be maintained in a timely manner to keep up with the demands of the Muni system. Twin Peaks Tunnel is currently under a speed restriction, which slows down trains as they travel through. Replacing the tracks will lift the tunnel's speed restriction and keep trains running reliably through the system. Seismic reinforcements will better protect the tunnel's overall structure and stability.

Construction started on Monday, June 25 with a continuous closure of the tunnel for approximately two months. Work is taking place 24 hours a day, 7 days a week. During the closure, Forest Hill and West Portal stations are closed. The K Ingleside travels on a shortened route and the bus service runs for the L Taraval and M Ocean View lines. **Nx bus service has been temporarily suspended during the closure**, there is additional train service on N Judah line.

Below are details of transit changes:

- The Twin Peaks Tunnel, West Portal Station and Forest Hill Station are closed.
- K trains run a shortened route between Sloat/St. Francis and Balboa Park. Once K Ingleside trains reach Balboa Park, they continue downtown as J Church trains.
- L buses run instead of trains between the SF Zoo and Church Station.
- M buses run instead of trains between Balboa Park and Church Station.

***more – more - more***

## CONSTRUCTION WORK AND OTHER UPDATES *continued*

### ONGOING: Twin Peaks Tunnel Improvements Project *continued*

- L and M Buses stop at both Castro and Church stations where customers can transfer to and from Muni Metro underground.
- M and K customers going downtown are encouraged to transfer to BART at Balboa Park. Free BART tickets to Embarcadero will be available Monday through Friday, from 6 to 10 a.m.
- Forest Hill Shuttle connects Forest Hill to West Portal.
- For Forest Hill Station, use L bus or Forest Hill Shuttle only.
- For West Portal Station, use M bus or Forest Hill Shuttle only.

### **ONGOING: UCSF Mission Bay Arena Platform Project**

In anticipation of the new Golden State Warriors' Chase Center and growth in the Mission Bay, the SFMTA is constructing a new center platform along 3<sup>rd</sup> Street between South and 16<sup>th</sup> streets. This new, larger platform will service both the inbound and outbound trains and greatly expand transit capacity in preparation for large crowds.

Construction work is ongoing, with decommission of the Muni platform planned for as early as November and a new platform anticipated to be completed and in service in early summer of 2019. Bus substitutions will serve the T-Third line during parts of construction.

<https://www.sfmta.com/projects/ucsf-mission-bay-arena-platform-upgrade>.

## CONSTRUCTION WORK AND OTHER UPDATES *continued*

### **ONGOING: Central Subway Project**

Construction of the 4<sup>th</sup> and Brannan streets surface station platform is ongoing. Until further notice, traffic reroutes will remain in effect.

Sewer replacement work continues Monday through Friday, from 8 p.m. to 5 a.m. at 4<sup>th</sup> and Howard streets. Two through lanes are in place southbound on 4<sup>th</sup> Street. Westbound traffic on Howard Street may be impacted. Utility work on Folsom Street between 4<sup>th</sup> and 5<sup>th</sup> streets may occur between 9 p.m. and 5 a.m., reducing Folsom Street to two lanes on this block.

One lane on the south side of Ellis Street is open at all times for eastbound traffic. The parking garage between Ellis and O'Farrell is accessible on the north side of Ellis Street. Street restoration work is continuing on the north side of the intersection of Ellis and Stockton streets.

Washington Street between Stockton Street and Trenton Alley is under a long-term temporary closure to vehicular traffic as station construction continues. Pedestrian access to Washington Street between Stockton Street and Trenton Alley remains open. The pedestrian walkway scaffolding along the west side of Stockton Street south of Washington Street may be disassembled in the coming weeks. Pedestrian access through this area will be temporarily rerouted.

The Central Subway project is the first underground line to link the north and south corridors of the city, and will provide a direct connection to major retail, sporting and cultural venues while efficiently transporting people to jobs, educational opportunities and other amenities throughout San Francisco.

For project updates, please visit: <https://www.sfmta.com/projects-planning/projects/central-subway-project>.

### **ONGOING: Construction of Mission Bay Loop**

The SFMTA has resumed construction on 18<sup>th</sup>, 19<sup>th</sup> and Illinois streets, the project is expected to be completed in late 2018.

***more – more - more***

## CONSTRUCTION WORK AND OTHER UPDATES *continued*

### ONGOING: Construction of Mission Bay Loop *continued*

The Mission Bay Loop is a key component for San Francisco's T Third rail line and is critical to operating the T Third Central Subway service plan. The loop provides turn-around capabilities for the T Third Street light rail line via a connection of trackway from 3<sup>rd</sup> Street to 18<sup>th</sup>, Illinois and 19<sup>th</sup> streets, which will allow the SFMTA to operate the necessary service levels needed to support current and planned growth within the eastern portion of San Francisco.

Traffic, including travelling by bike, may be affected by the construction work. All work areas will be clearly marked and there will be flaggers to help direct traffic.

In order to conduct the work, parking on both sides including along the historical Crane Cove Park fence (east side of Illinois Street) will be removed 24 hours, 7 days a week from 18<sup>th</sup> to 19<sup>th</sup> and Illinois streets for the duration of the project.

Traffic lanes traveling both north and south will remain open and there will be flaggers posted to help direct traffic. The northbound bike lane will be converted to a shared roadway. Expect minor delays when traveling around and through the construction area.

Local access to properties along the project site will be maintained. Sewer work is scheduled to be completed by summer 2018.
