# Ocean Avenue Safety Project

Improving safety and access for people walking and biking on Ocean Avenue from Frida Kahlo Way / Geneva Ave to San Jose Ave

## PROJECT OVERVIEW

This project is aimed at improving safety, accessibility, and comfort for people traveling on Ocean Avenue between Geneva Avenue / Frida Kahlo Way (Phelan Avenue) and San Jose Avenue. The Project will take the recommendations from the SF Planning Department's *Ocean Avenue Corridor Design* as a starting point for discussion and to respect the community input that went into that past planning effort.

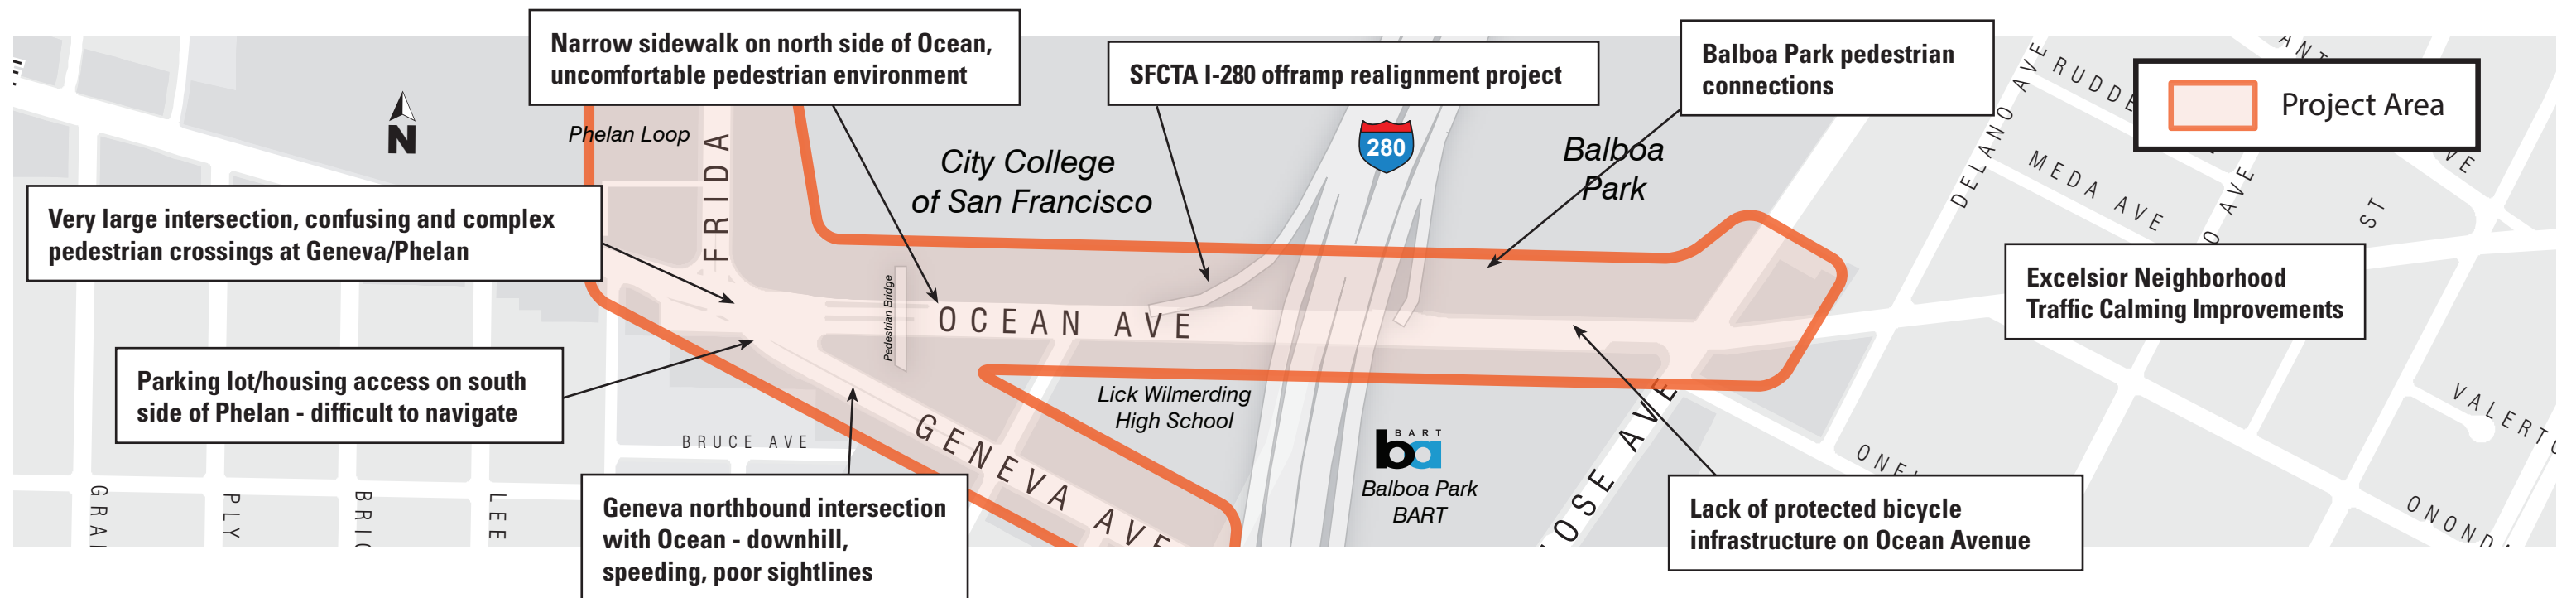

The project will focus on a variety of traffic safety improvements – ranging from nearer-term changes that can be implemented with inexpensive 'paint and posts' to larger infrastructure changes that would necessitate significant capital changes to right-of-way.

## GOALS

- Improve safety for people biking and walking on Ocean Avenue from Geneva / Frida Kahlo (Phelan) to San Jose
- Improve safety for all roadway users at the intersections of Ocean & San Jose and Ocean & Geneva / Frida Kahlo
- Work with the community to identify priorities, design, and construct immediate near-term improvements for safety on Ocean, Geneva, and Frida Kahlo
- Coordinate with ongoing SFCTA, City College, Balboa Reservoir project team, and others to design and approve a long-term vision for a safer Ocean Avenue

## SCHEDULE

- **Spring 2019:** Project development and fund request
- **Summer 2019:** Planning and conceptual design; Stakeholder meetings; Coordination with CCSF
- **Winter-Spring 2020:** Engineering survey for Ocean; Feasibility studies; Traffic data collection, Outreach
- **Summer 2020:** Public open house and walking tour; Outreach continues
- **Late 2020:** Final planning report with recommended near-term, medium-term, and long-term improvements

We welcome your input. Please email the Project Manager with your comments on safety and comfort traveling on Ocean Avenue.
