For the track replacement work, the intersection of 46th Avenue and Taraval Street is closed to vehicular traffic at all hours until the work is complete, ~~a~~ approximately for one month. Signage is in place to alert drivers to detour before they approach the intersection.

Since Aug. 2019, the traffic pattern on lower Great Highway between Ulloa and Santiago streets has been changed. The northbound travel lane on lower Great Highway has been rerouted to 48th Avenue for two blocks between Ulloa and Santiago streets. The southbound travel lane will continue on lower Great Highway as usual. This will be in effect until project completion in fall 2021. San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19th Avenue between Holloway Avenue and Lincoln Way.

In the end of this month, construction work for the first segment of this project along 19th Avenue between Lincoln Way and Noriega Street will begin. There will be no impact on Muni bus stops.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along the route of the 28 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

ONGOING: 19th Avenue (CA Route 1) Combined City Project *continued*

To improve safety along 19th Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue on Oct. 17. **The following Muni routes have been affected with the stop removal:**

- **28 19th Avenue**
- **91 3rd Street/19th Avenue Owl**

To find additional information about the transit reliability and pedestrian safety components, visit sfmta.com/28Rapid. For overall project information, visit sfpublicworks.org/19th-Avenue.

ONGOING: Parking Meters Pilot

Beginning Monday, Nov. 9, the SFMTA will test a pay-by-license-plate system at existing parking meters on Indiana Street in the Dogpatch area. Drivers who pay at the meter will enter their license plate number instead of their parking space number. This system allows drivers to pay at any meter on the block, even if it is across the street. It is hoped that the new system can allow the City to save money by streamlining enforcement and reducing the amount of infrastructure needed on the streets. For additional program details visit www.sfmta.com/dogpatch-parking-meter.

ONGOING: Shared Spaces Program

The city's multi-agency [Shared Spaces](#) program opened some parts of streets in San Francisco to create public space for outdoor dining, retail and physical distancing. The program allows the use of sidewalks, full or partial streets, or other nearby public spaces like parks and plazas for restaurant pick-up and other neighborhood retail activity, as allowed by San Francisco's Public Health Order. For details, locations and updates on street closures related to Shared Spaces visit SFMTA.com/SharedSpaces.
