Federal Law Requires Face Masks on Muni

To help stop the spread of COVID-19, [federal law requires wearing a mask](https://www.fda.gov/covid19/face-masks) in Muni stations, when purchasing a ticket and while waiting for, boarding, riding or exiting transit. Masks are also required on paratransit and in taxis. Violations can result in denial of boarding or removal from Muni and may carry federal penalties. Masks do not include face shields and should be a solid piece of material without slits, exhalation valves, or punctures. Face coverings like scarves and bandanas do not meet this requirement. **For more information, please visit sfmta.com/COVID.**

ONGOING: Geary Rapid Project *continued*

From Saturday, Feb. 20 through Saturday, March 13, between 8 a.m. and 6 p.m. (on Saturdays only):

In preparation for the installation of conduits for future fiber-optic cables, crews will perform “potholing” – digging small exploratory holes to verify the locations of existing underground utilities in order to minimize potential conflicts.

There may be partial lane closures and temporary parking restrictions as a result of this work.

ONGOING: 19th Avenue (CA Route 1) Combined City Project

San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19th Avenue between Holloway Avenue and Lincoln Way.

Construction work for the first segment of this project along 19th Avenue between Lincoln Way and Noriega Street has begun.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along the route of the 28 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers’ experiences—on and off the bus.

To improve safety along 19th Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.
