### **UPDATE: L Taraval Improvement Project—Segment B**

The L Taraval Improvement project continues construction along Segment B replacing and repairing the infrastructure along the L Taraval line between Sunset Boulevard and 15th Avenue, and on Ulloa Street near West Portal.

The project is a comprehensive infrastructure rehabilitation of sewer and water lines and streetscape project. The project will address safety concerns for customers boarding Muni, address the much-needed rehabilitation of aging sewer and water lines while bringing streetscape improvements to the Taraval corridor for added vibrancy.

Work continues on water lines, as well as on the overhead contact system (OCS) that powers the trains. OCS work has transitioned to underground conduit work to support power to the trains and the new and existing streetlights. Curb ramp work has started with demolition and grading areas in preparation for construction of the new boarding ramps and to upgrade existing boarding ramps. Track work is expected to begin over the next few weeks.

The rail tracks west of the intersection of Ulloa and Madrone streets have been taken offline to facilitate the reconstruction of the water and sewer mains as well as replace the tracks and overhead lines. The upgraded sewer and water lines, permanent boarding islands and increased accessibility will make riding safer and more reliable.

The L Bus now runs between West Portal and the SF Zoo. Customer can transfer to a train at West Portal Station to travel downtown.

**The inbound stop at Taraval Street and 15<sup>th</sup> Avenue has been relocated across the intersection until fall 2024.**

The relocation will be until the end of construction after the new tracks are laid and the L Taraval rail service is reactivated.

Construction is scheduled to take place from 8 a.m. to 5 p.m., Monday through Friday. Extreme weather conditions may impact the construction schedule.

For additional project details, visit [SFMTA.com/LTaraval Project](https://www.sfmta.com/LTaravalProject). For project updates of work from Monday, May 8 through Saturday, May 20, visit [Project Update](#).

### **ONGOING: 19th Avenue (CA Route 1) Combined City Project**

**San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19<sup>th</sup> Avenue between Holloway Avenue and Lincoln Way.**

Construction work for the first and second segment of this project along 19th Avenue between Lincoln Way and Taraval streets was completed. Construction work for bulbouts in the third and fourth segment along 19<sup>th</sup> Avenue between Taraval Street and Holloway Avenue is ongoing.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

***more – more - more***

### ONGOING: 19th Avenue (CA Route 1) Combined City Project *continued*

To improve safety along 19<sup>th</sup> Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue last October. **The following Muni routes have been affected with the stop removal:**

- **28 19th Avenue**
- **91 3rd Street/19th Avenue Owl**
