Street Closures

To accommodate events that will take place at the ballpark, the following street closures will be enforced:

- Two and a half hours before the opening pitch, the SFMTA will close eastbound King Street between 3rd and 2nd streets to vehicle traffic. King Street will reopen after first pitch until the seventh inning.
- From the seventh inning until post-game traffic dies down, the SFMTA will again close eastbound King Street between 3rd and 2nd streets to vehicle traffic in order to reduce congestion on city streets.
- Additionally, the northbound portion of the 4th Street Bridge (Peter R. Maloney Bridge) will be closed to all traffic except Muni, taxis and bicycles during the post-game period.

Taxi Stands

- 2nd Street, west side, between Brannan and King Streets
- 2nd Street, east side, between Townsend and King Streets
- 3rd Street, east side, north of King Street

Special Event Parking Rates

During baseball games and other major events with more than 10,000 expected attendees at the ballpark, **parking meters close to the ballpark will charge a special event rate of \$9 per hour.** These rates help reduce congestion and keep parking spots available in the neighborhoods near the ballpark, discouraging circling for free or cheap parking. Start times for special event rates vary based on the start time of the event. More information on special event parking regulations can be found on www.sfmta.com/special-event-parking.

CONSTRUCTION WORK AND OTHER UPDATES

UPDATE: 16th Street Improvement Project

As part of the Muni Forward Program and to improve reliability, speed and increase overall system effectiveness for the key 22 Fillmore route, the 16th Street Improvement Project is part of a larger network of proposed or planned improvements to the Muni system.

There is no active construction scheduled for this weekend.

For more project details and the latest construction updates, visit www.sfmta.com/16thStreet.

UPDATE: L Taraval Improvement Project—Segment B

The L Taraval Improvement project continues construction along Segment B replacing and repairing the infrastructure along the L Taraval line between Sunset Boulevard and 15th Avenue, and on Ulloa Street near West Portal.

The project is a comprehensive infrastructure rehabilitation of sewer and water lines and streetscape project. The project will address safety concerns for customers boarding Muni, address the much-needed rehabilitation of aging sewer and water lines while bringing streetscape improvements to the Taraval corridor for added vibrancy.

Work continues on water lines, as well as on the overhead contact system (OCS) that powers the trains. OCS work has transitioned to underground conduit work to support power to the trains and the new and existing streetlights. Curb ramp work has started with demolition and grading areas in preparation for construction of the new boarding ramps and to upgrade existing boarding ramps. Track work is expected to begin over the next few weeks.

UPDATE: L Taraval Improvement Project—Segment B *continued*

The rail tracks west of the intersection of Ulloa and Madrone streets have been taken offline to facilitate the reconstruction of the water and sewer mains as well as replace the tracks and overhead lines. The upgraded sewer and water lines, permanent boarding islands and increased accessibility will make riding safer and more reliable.

The L Bus now runs between West Portal and the SF Zoo. Customer can transfer to a train at West Portal Station to travel downtown.

The inbound stop at Taraval Street and 15th Avenue has been relocated across the intersection until fall 2024.

The relocation will be until the end of construction after the new tracks are laid and the L Taraval rail service is reactivated.

The tracks along Taraval Street are being prepared for the initial removal and installation of new rails. Rail work was temporarily paused upon discovery of a shallow PG&E line. The construction team inspected the area and lowered multiple gas lines. Construction resumed on Wednesday, June 28.

During construction, there are impacts when traveling along Taraval Street:

Traveling by car:

- Taraval Street is open to through traffic for traveling eastbound and westbound.
- To access Taraval Street from 29th, 30th, and 31st avenues, vehicles can only make a right turn to continue travel on Taraval Street.
- To allow large machinery to perform compaction work to support rail installation, temporary closure of one block at a time may be required at times.

Traveling by bus:

The L Bus will be rerouted around the construction area. No bus stop relocations are planned at this time.

Traveling on foot:

Pedestrians can cross Taraval Street in the construction area at 30th Avenue via a pedestrian access during non-construction hours and weekends.

- Taraval Street at 15th, 16th and 18th avenues
- Taraval Street between 22nd and 25th avenues
- 15th Avenue and Ulloa Street

Construction is scheduled to take place from 8 a.m. to 5 p.m., Monday through Friday. Extreme weather conditions may impact the construction schedule.

ONGOING: 19th Avenue (CA Route 1) Combined City Project *continued*

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19th Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue last October. **The following Muni routes have been affected with the stop removal:**

- **28 19th Avenue**
- **91 3rd Street/19th Avenue Owl**

To find additional information about the transit reliability and pedestrian safety components, visit sfmta.com/28Rapid. For overall project information, visit sfpublicworks.org/19th-Avenue.
