Masks Recommended

Following the latest guidance from the [California Department of Public Health](#) (CDPH), San Francisco Department of Public Health (SFDPH) and the Federal Transit Administration (FTA), masks are strongly recommended but no longer required in any SFMTA facilities, transit hubs or on vehicles including Muni buses, streetcars, light rail vehicles or cable cars or in taxis or on paratransit.

Asia-Pacific Economic Cooperation (APEC) conference

Saturday, Nov. 11 through Sunday, November 19: San Francisco is hosting the **Asia-Pacific Economic Cooperation (APEC) conference from Nov. 11 to 17**, one of the largest gatherings of global leaders. Most APEC activities take place in the South of Market and Nob Hill

neighborhoods. Due to the scale of the gathering, APEC will have some impacts on travel in other areas of San Francisco as well. **The bulk of the travel and transit impacts will take place through Sunday, Nov. 19.** For more information visit our [travel and transit page](#) (SFMTA.com/APEC). [Visit the APEC website](#) (APEC2023SF.org) for further information about the conference.

Street closures are expected through Sunday, Nov. 19. These closures will result in significant traffic impacts:

- **People should expect a range of street impacts in and around the U.S. Secret Service security zones (Vehicle Exclusion Zones).** People will be allowed into these zones to access their homes, work, make deliveries and shop, with appropriate screening.
- People traveling in San Francisco should **expect congestion downtown, traffic delays, transit reroutes, delays and crowding** on Muni and SF Paratransit during APEC. Additional events may arise with little notice and may impact Muni routes, traffic, vehicle and pedestrian access.

Muni Service During APEC

Some Muni lines are being rerouted around the security zones in SoMa and Nob Hill. Reroutes depend on many factors, including when security-related street impacts go into effect. Most Muni began Monday, Nov. 13.

The SFMTA developed reroutes to maintain as many connections as possible. Customers should be prepared to adjust travel, allow more travel time and be prepared for delays. Predictions and third-party navigation apps may not display information properly during this period.

CONSTRUCTION WORK AND OTHER UPDATES

UPDATE: 16th Street Improvement Project

As part of the Muni Forward Program and to improve reliability, speed and increase overall system effectiveness for the key 22 Fillmore route, the 16th Street Improvement Project is part of a larger network of proposed or planned improvements to the Muni system.

There is no active construction scheduled for this weekend.

UPDATE: L Taraval Improvement Project—Segment B

The L Taraval Improvement project continues construction along Segment B replacing and repairing the infrastructure along the L Taraval line between Sunset Boulevard and 15th Avenue, and on Ulloa Street near West Portal.

The project is a comprehensive infrastructure rehabilitation of sewer and water lines and streetscape project. The project will address safety concerns for customers boarding Muni, address the much-needed rehabilitation of aging sewer and water lines while bringing streetscape improvements to the Taraval corridor for added vibrancy.

Work continues on water lines, as well as on the overhead contact system (OCS) that powers the trains. OCS work has transitioned to underground conduit work to support power to the trains and the new and existing streetlights. Curb ramp work has started with demolition and grading areas in preparation for construction of the new boarding ramps and to upgrade existing boarding ramps. Track work is expected to begin over the next few weeks.

The rail tracks west of the intersection of Ulloa and Madrone streets have been taken offline to facilitate the reconstruction of the water and sewer mains as well as replace the tracks and overhead lines. The upgraded sewer and water lines, permanent boarding islands and increased accessibility will make riding safer and more reliable.

The L Bus now runs between West Portal and the SF Zoo. Customers can transfer to a train at West Portal Station to travel downtown.

ONGOING: 19th Avenue (CA Route 1) Combined City Project

San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19th Avenue between Holloway Avenue and Lincoln Way.

Construction work for the first and second segment of this project along 19th Avenue between Lincoln Way and Taraval streets was completed. Construction work for bulbouts in the third and fourth segment along 19th Avenue between Taraval Street and Holloway Avenue is ongoing.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19th Avenue, the SFMTA will: 1) install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; 2) modify traffic and pedestrian signals to give people who walk more time to cross the street; and 3) extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue last October. The following Muni routes have been affected with the stop removal:

- 28 19th Avenue
- 91 3rd Street/19th Avenue Owl

To find additional information about the transit reliability and pedestrian safety components, visit sfmta.com/28Rapid. For overall project information, visit sfpublicworks.org/19th-Avenue.
