Demand-responsive parking pricing

SFMTA Board of Directors

December 5, 2017

Project goals

- Make parking easier to find
- Reduce circling for parking
- Make it easier to access neighborhood commercial districts
- Provide more and better data about parking availability and pricing
- Build on the success of the *SFpark* pilot

SF *park* pilot

SF *park* pilot

SF *park* pilot

- Demand-responsive to find lowest possible prices
- Gradual and periodic changes: \$0.25 up or down (or no change) every quarter
- Time of day pricing (vary by block + weekday/weekend)

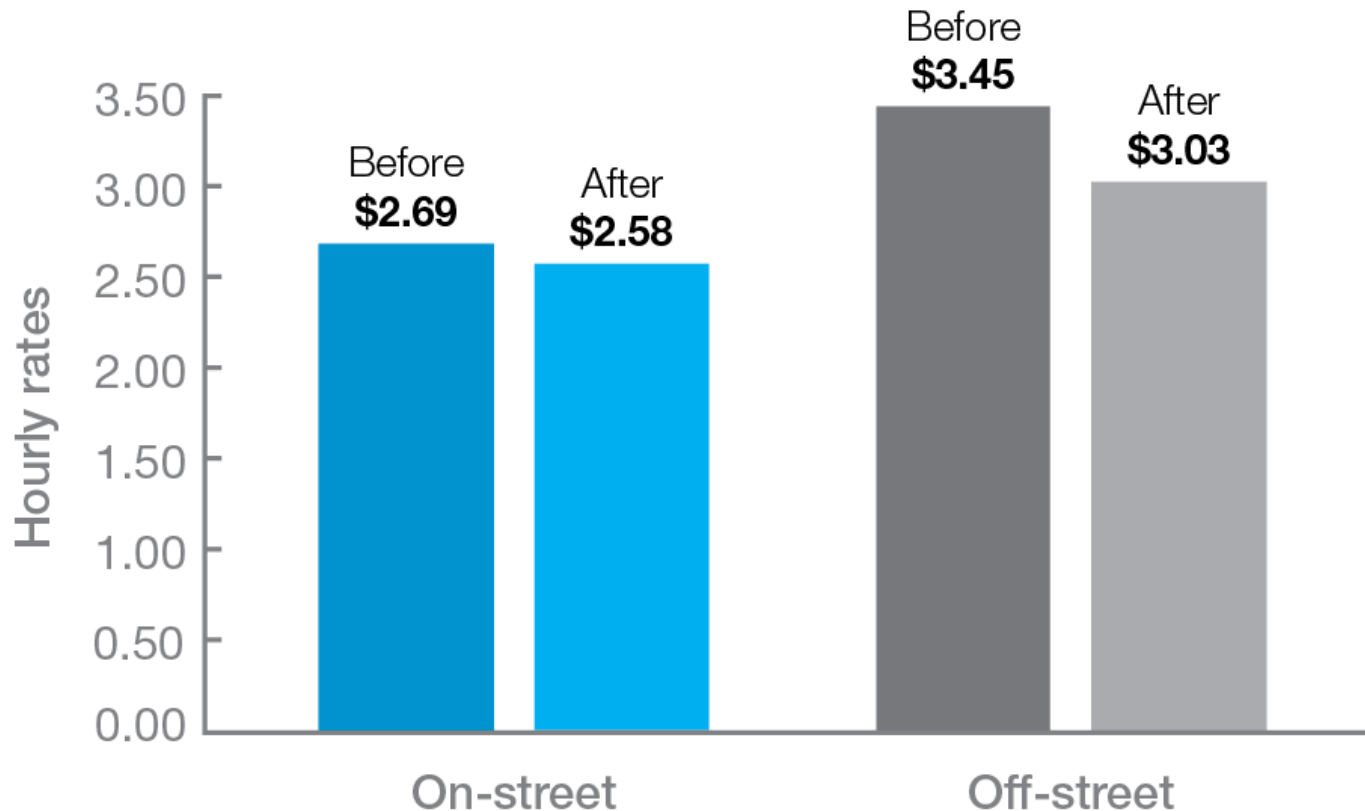

SFpark pilot evaluation

Hourly parking rates in SFpark areas

Before vs. after (10 rate changes)

On- and off-street rates

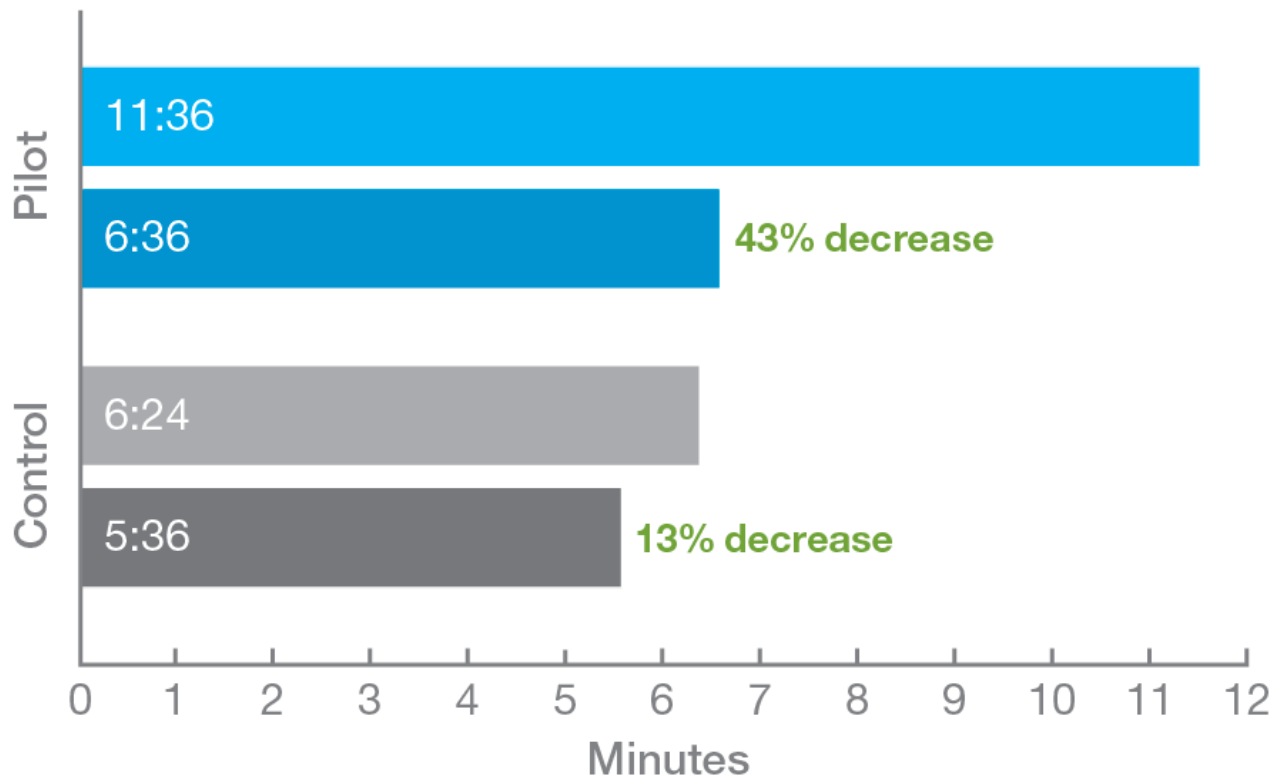

SFpark pilot evaluation

Parking search time (minutes)

Reported search times, before vs. after

Pilot vs. control areas | Weekdays 9am to 6pm

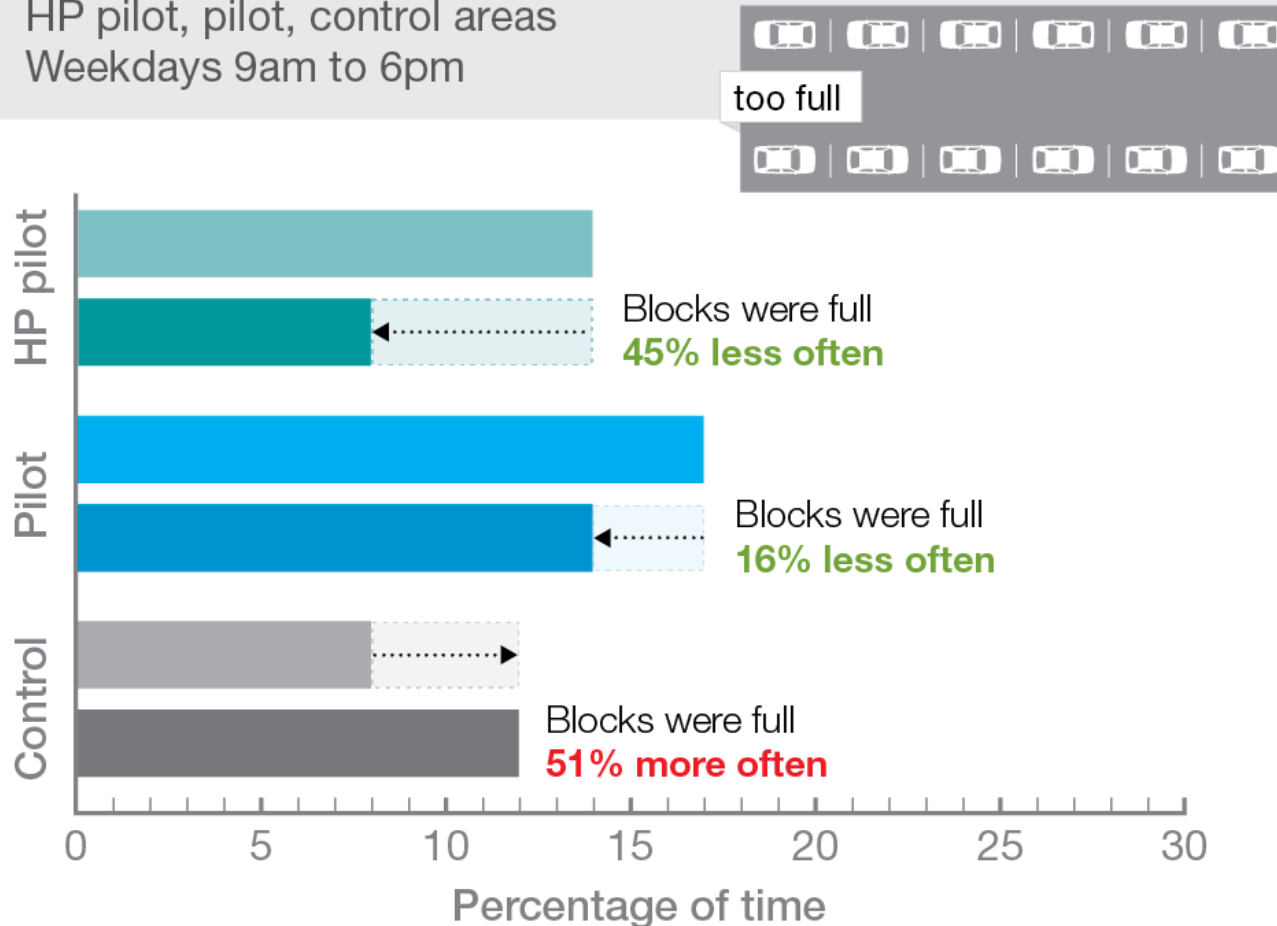

SFpark pilot evaluation

How often are blocks too full?

Before vs. after, 90–100% occupancy, hourly frequency

HP pilot, pilot, control areas

Weekdays 9am to 6pm

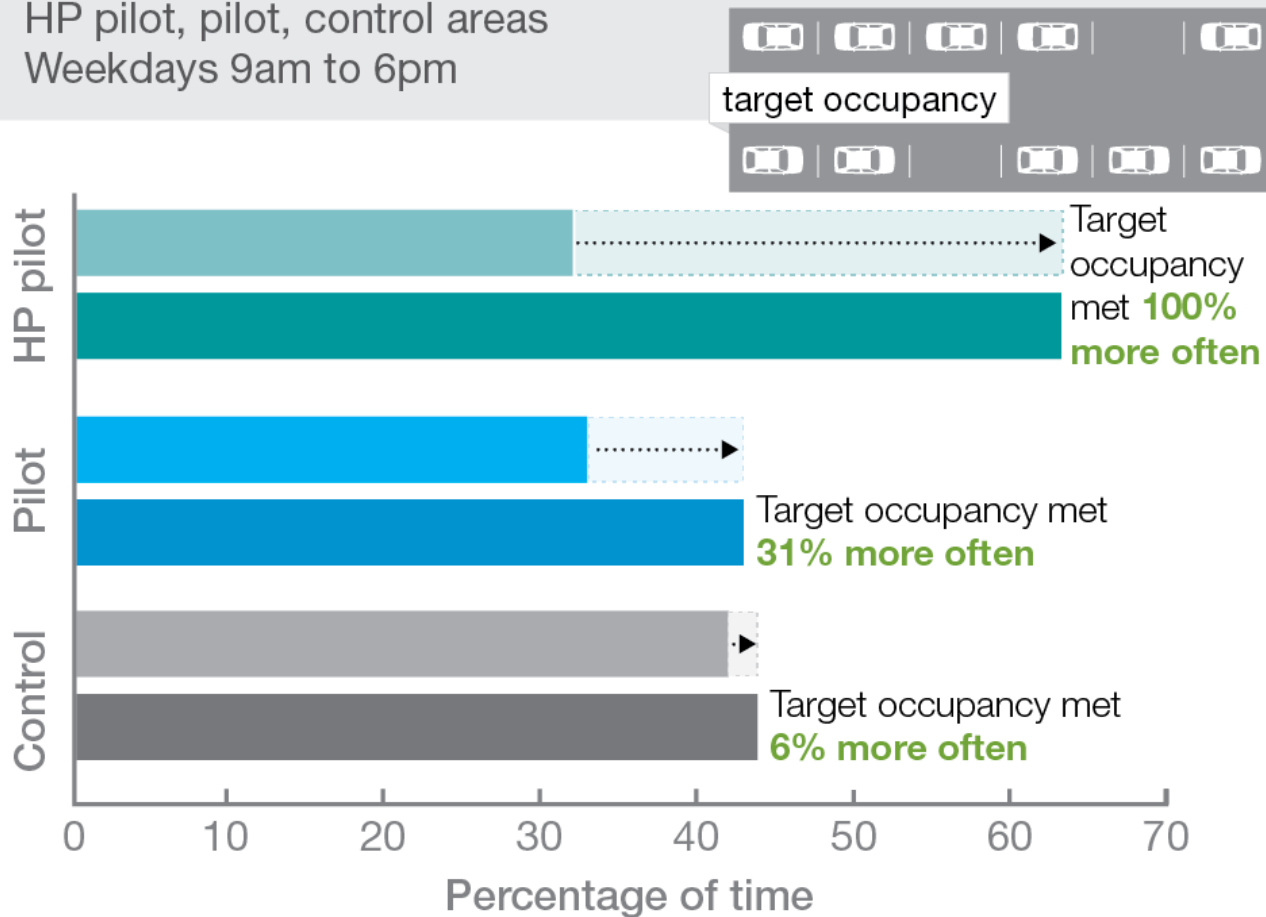

SFpark pilot evaluation

How often do blocks meet target occupancy?

Before vs. after, 60–80% occupancy, hourly frequency

HP pilot, pilot, control areas

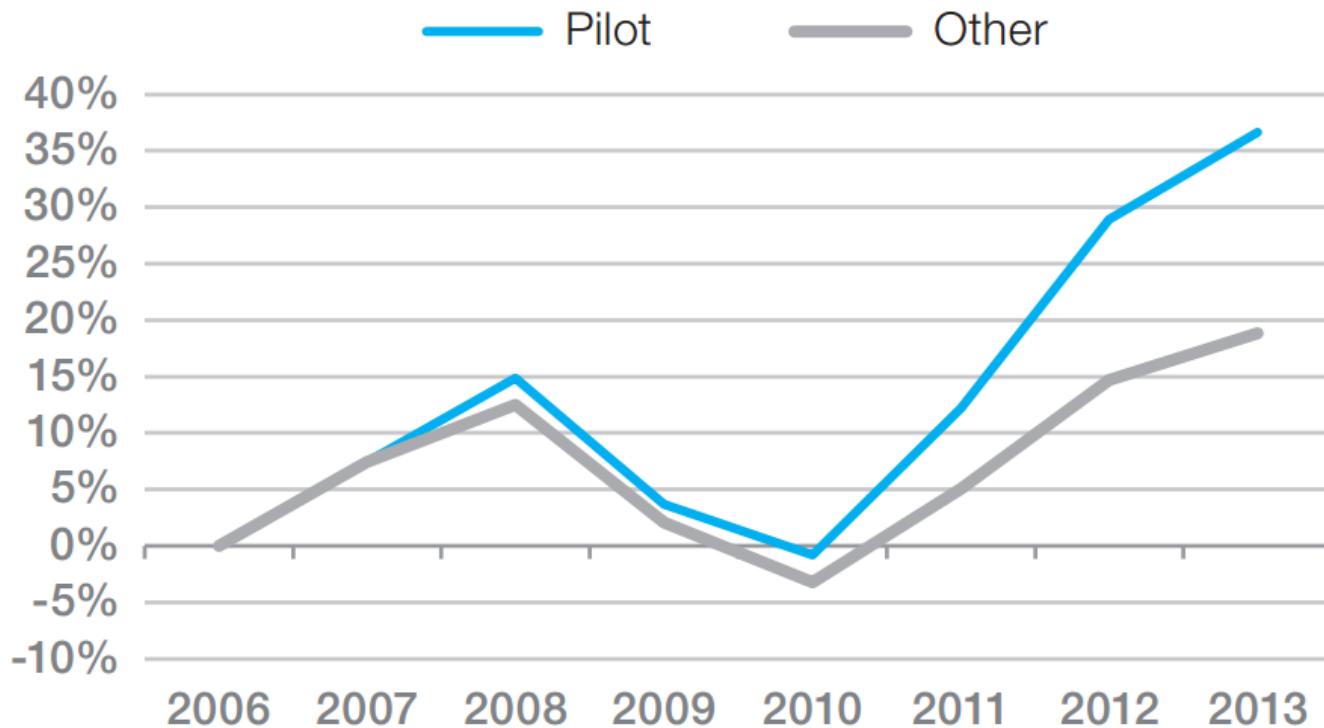

Weekdays 9am to 6pm

SF *park* pilot evaluation

Change in sales tax revenue, FY2006–2013

Food product, general retail and miscellaneous;
chain stores excluded

SFpark pilot evaluation

Daily greenhouse gas emissions (metric tons)

Before vs. after

Pilot vs. control areas | Weekdays 9am to 6pm

Pilot

30% decrease

Control

before: 2.7

6% decrease

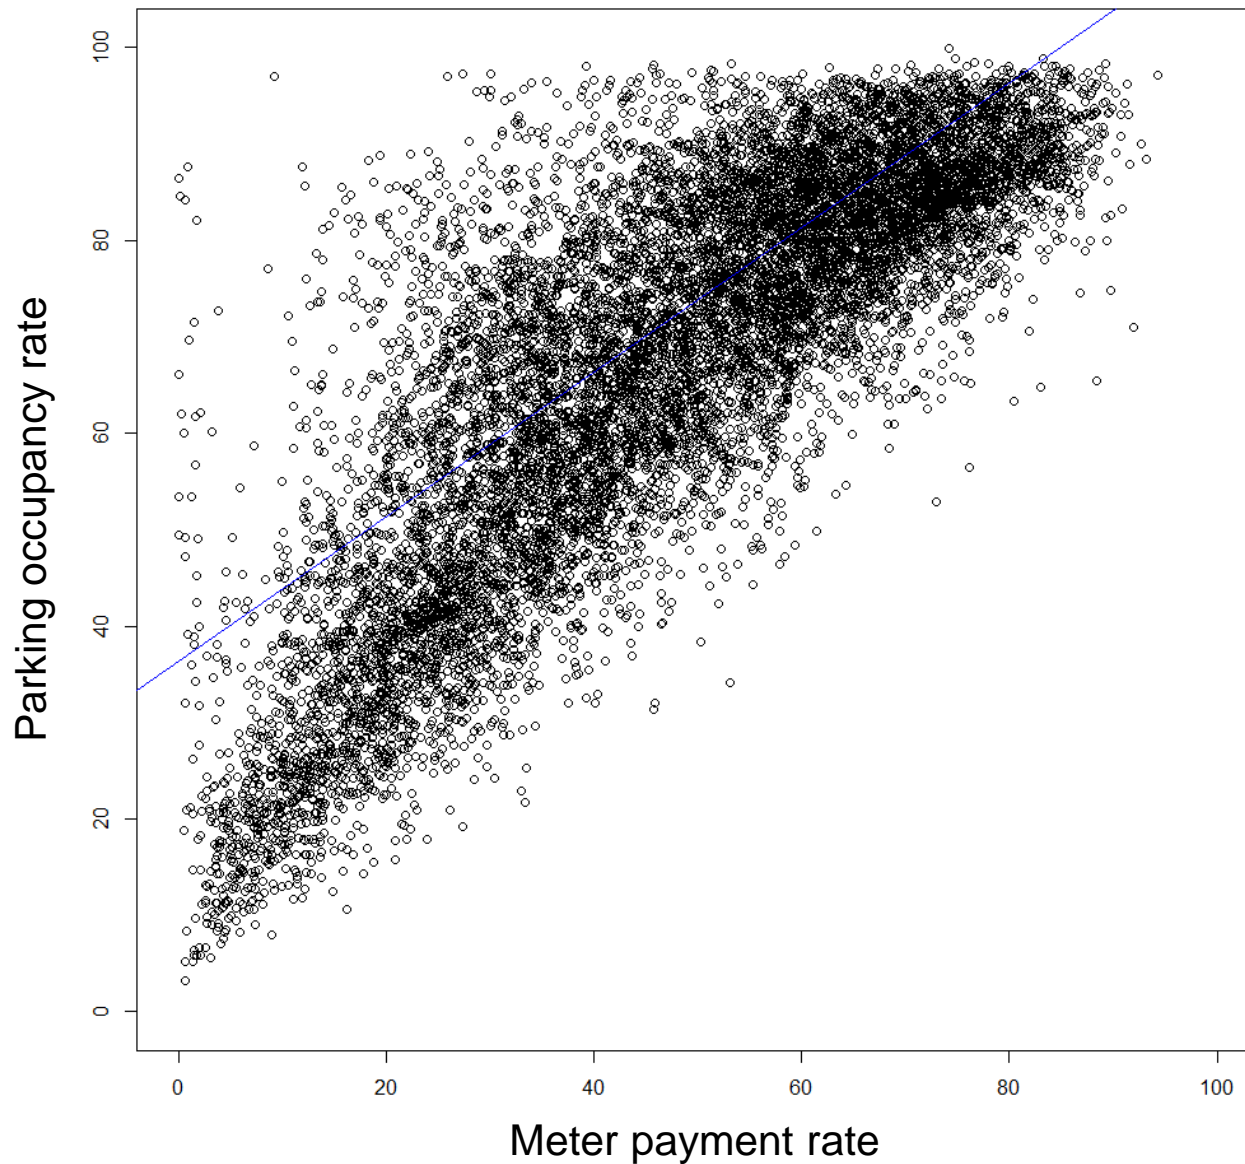

after: 2.5

Demand-responsive parking pricing

Demand-responsive parking pricing

Meter payment and parking occupancy

Demand-responsive parking pricing

- Test of citywide rate adjustment:
 - Small overall average reduction in rates
 - Similar trends to *SFpark* pilot
 - Overall reduction in rates
 - More walkable streets more popular for parking

Outreach

- Conducting outreach for past 18 months
- Briefings offered to all Supervisors and Mayor's Office
- Offered information and presentations to nearly 60 merchant/business groups, CBDs, advocacy organizations across the City
- Presentations/meetings with 13 separate groups
- Presentation to SFMTA CAC

Next steps

- Phased rollout
 - Approximately six-week rollout period
 - Lots adjust with meters in the neighborhood
 - Garages as new PARCS systems installed
- Rollout likely complete by early 2018
- Many will not notice
 - Most block-time-bands see no rate change
 - Small rate adjustments: \$0.25/hour
- If rollout is smooth, future rate adjustments will apply to entire City at the same time

Thank you

Hank Willson

Parking Policy Manager, SFMTA
