Northeast Mission Parking Turnover

August 2018

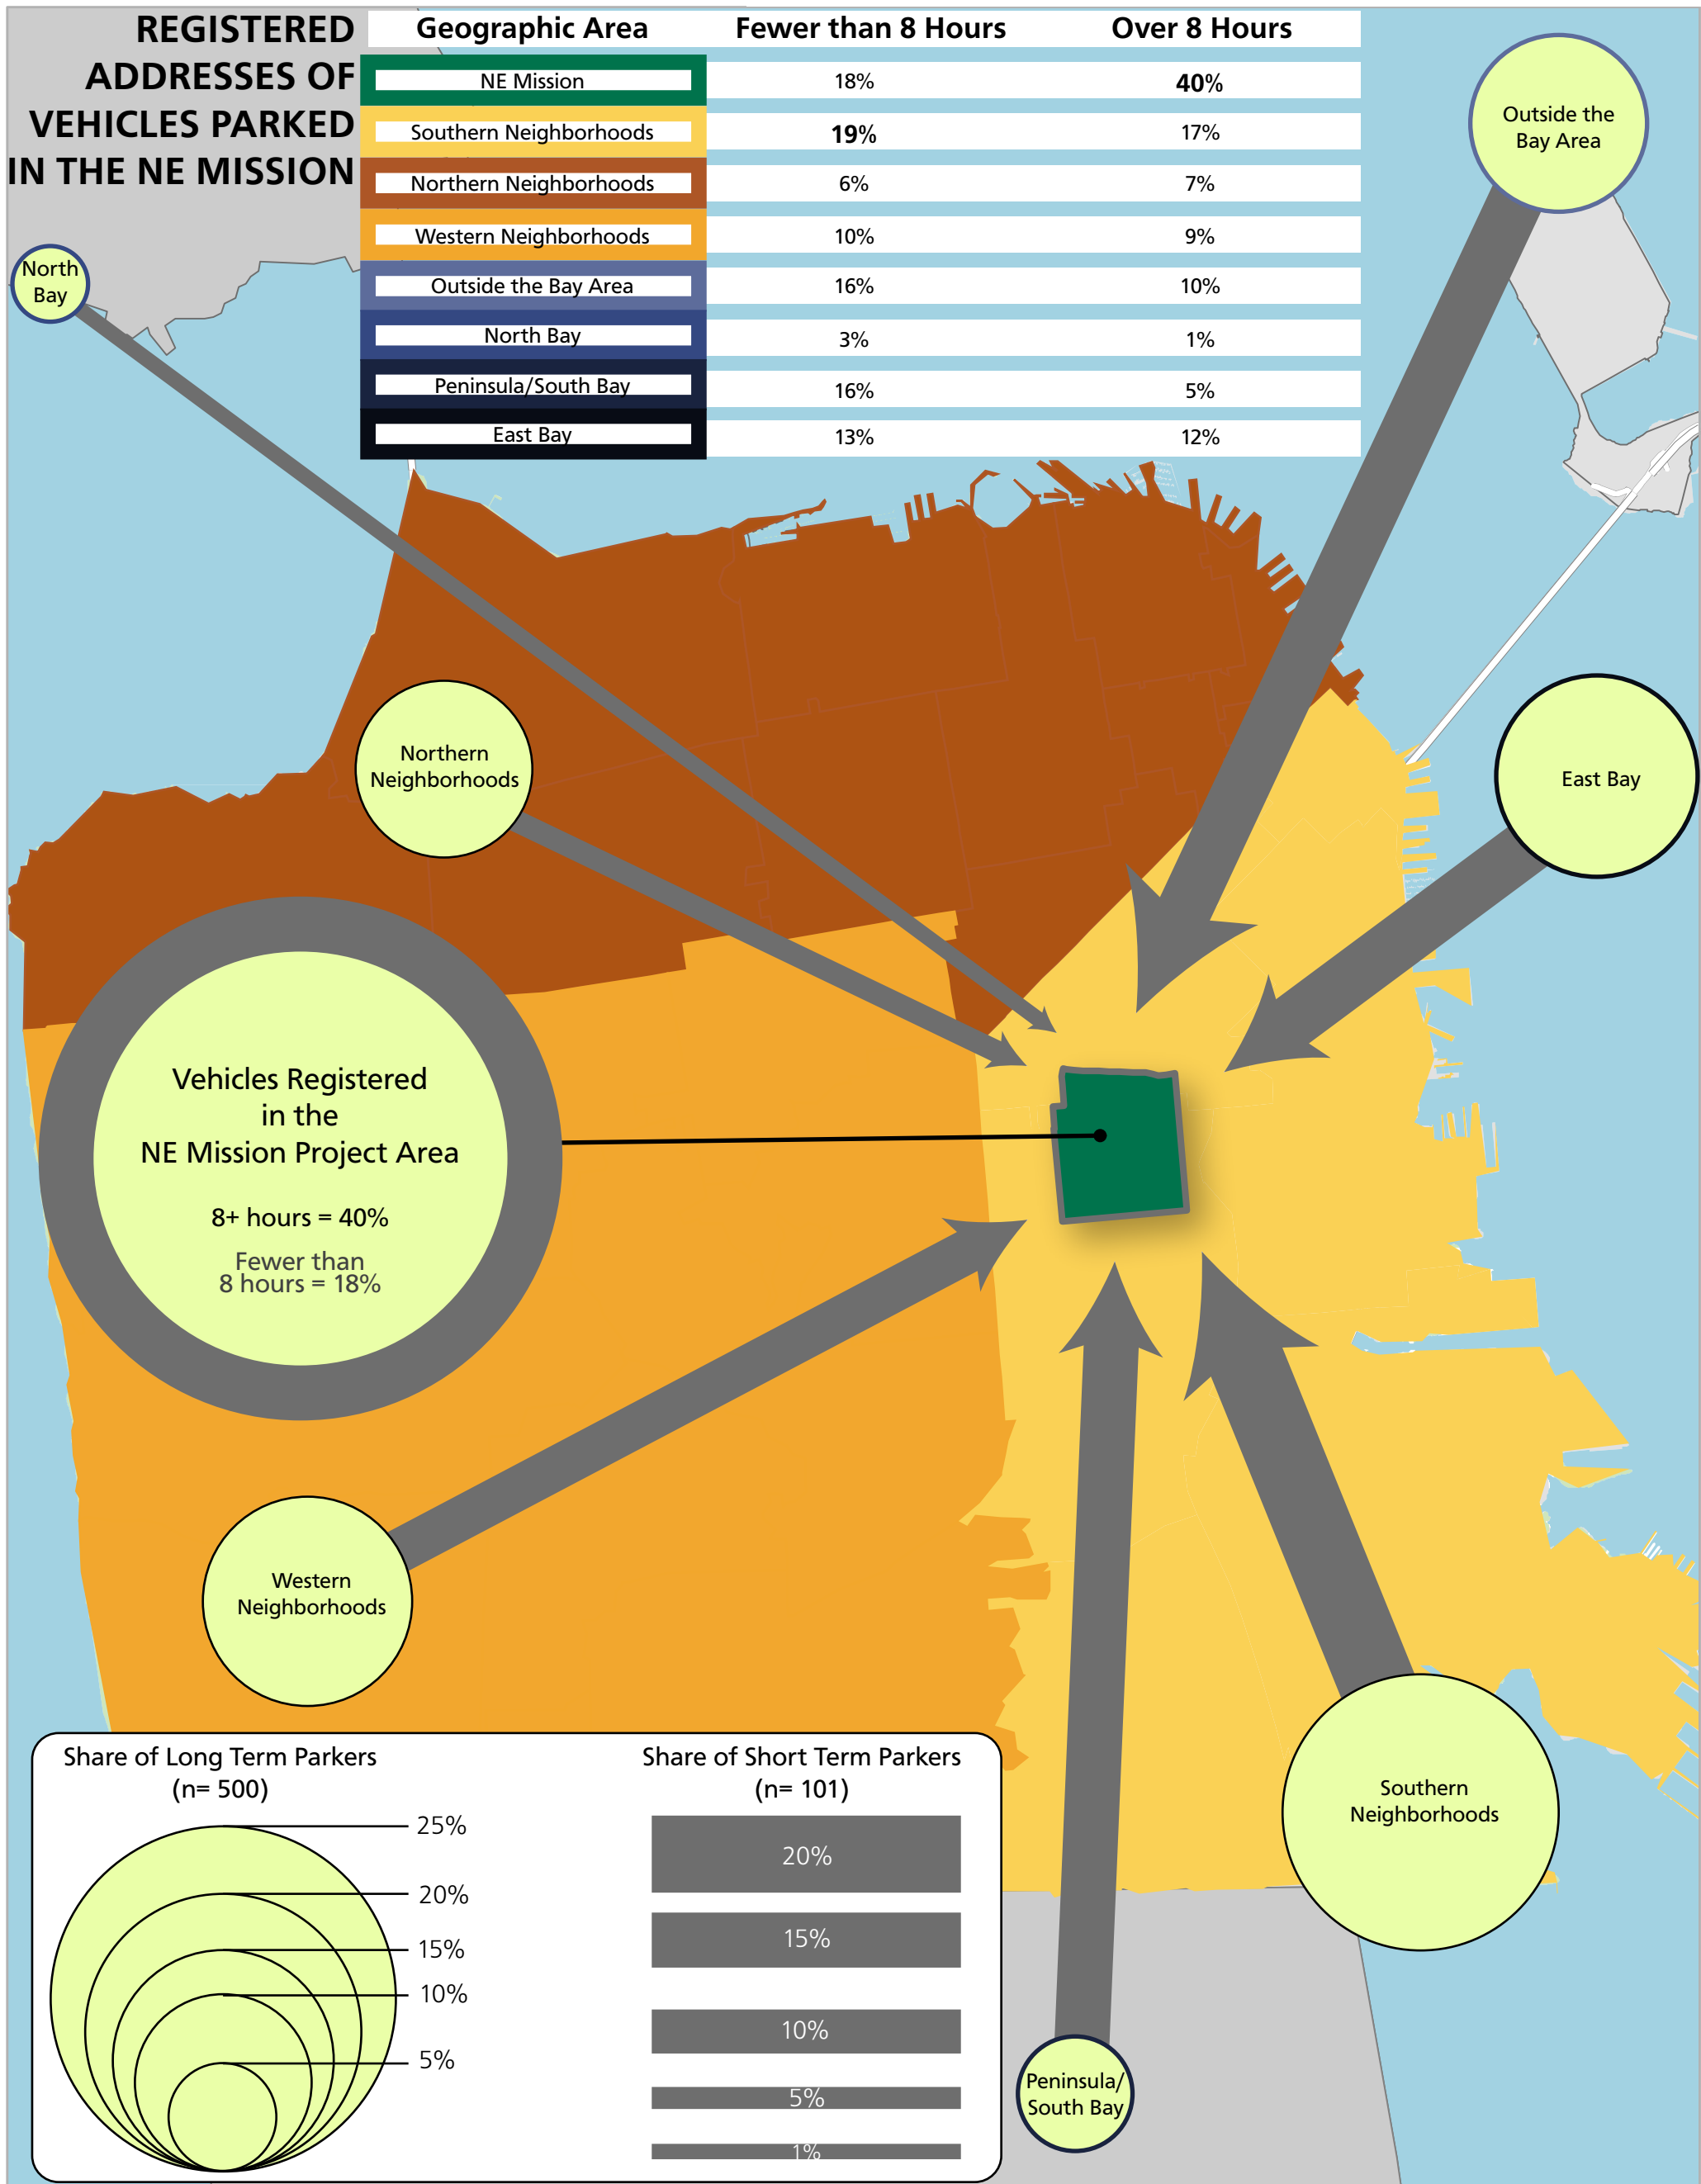

0.08 miles

Scale 1:4,208

Date Saved: 5/22/2019

Average Share of All-Day Parkers by Regulation

No Regulation	Least Turnover (18%)
Residential Parking Permit	13%
Time Limited	7%
Paid	Most Turnover (1%)

NE Mission

Share of All-Day and Short-Term Parkers by Vehicle Registration

August 2018

License plate data was collected on April 17th and 24th at 9:00AM, noon, and 8PM for cars parked on select blocks in the NE Mission.

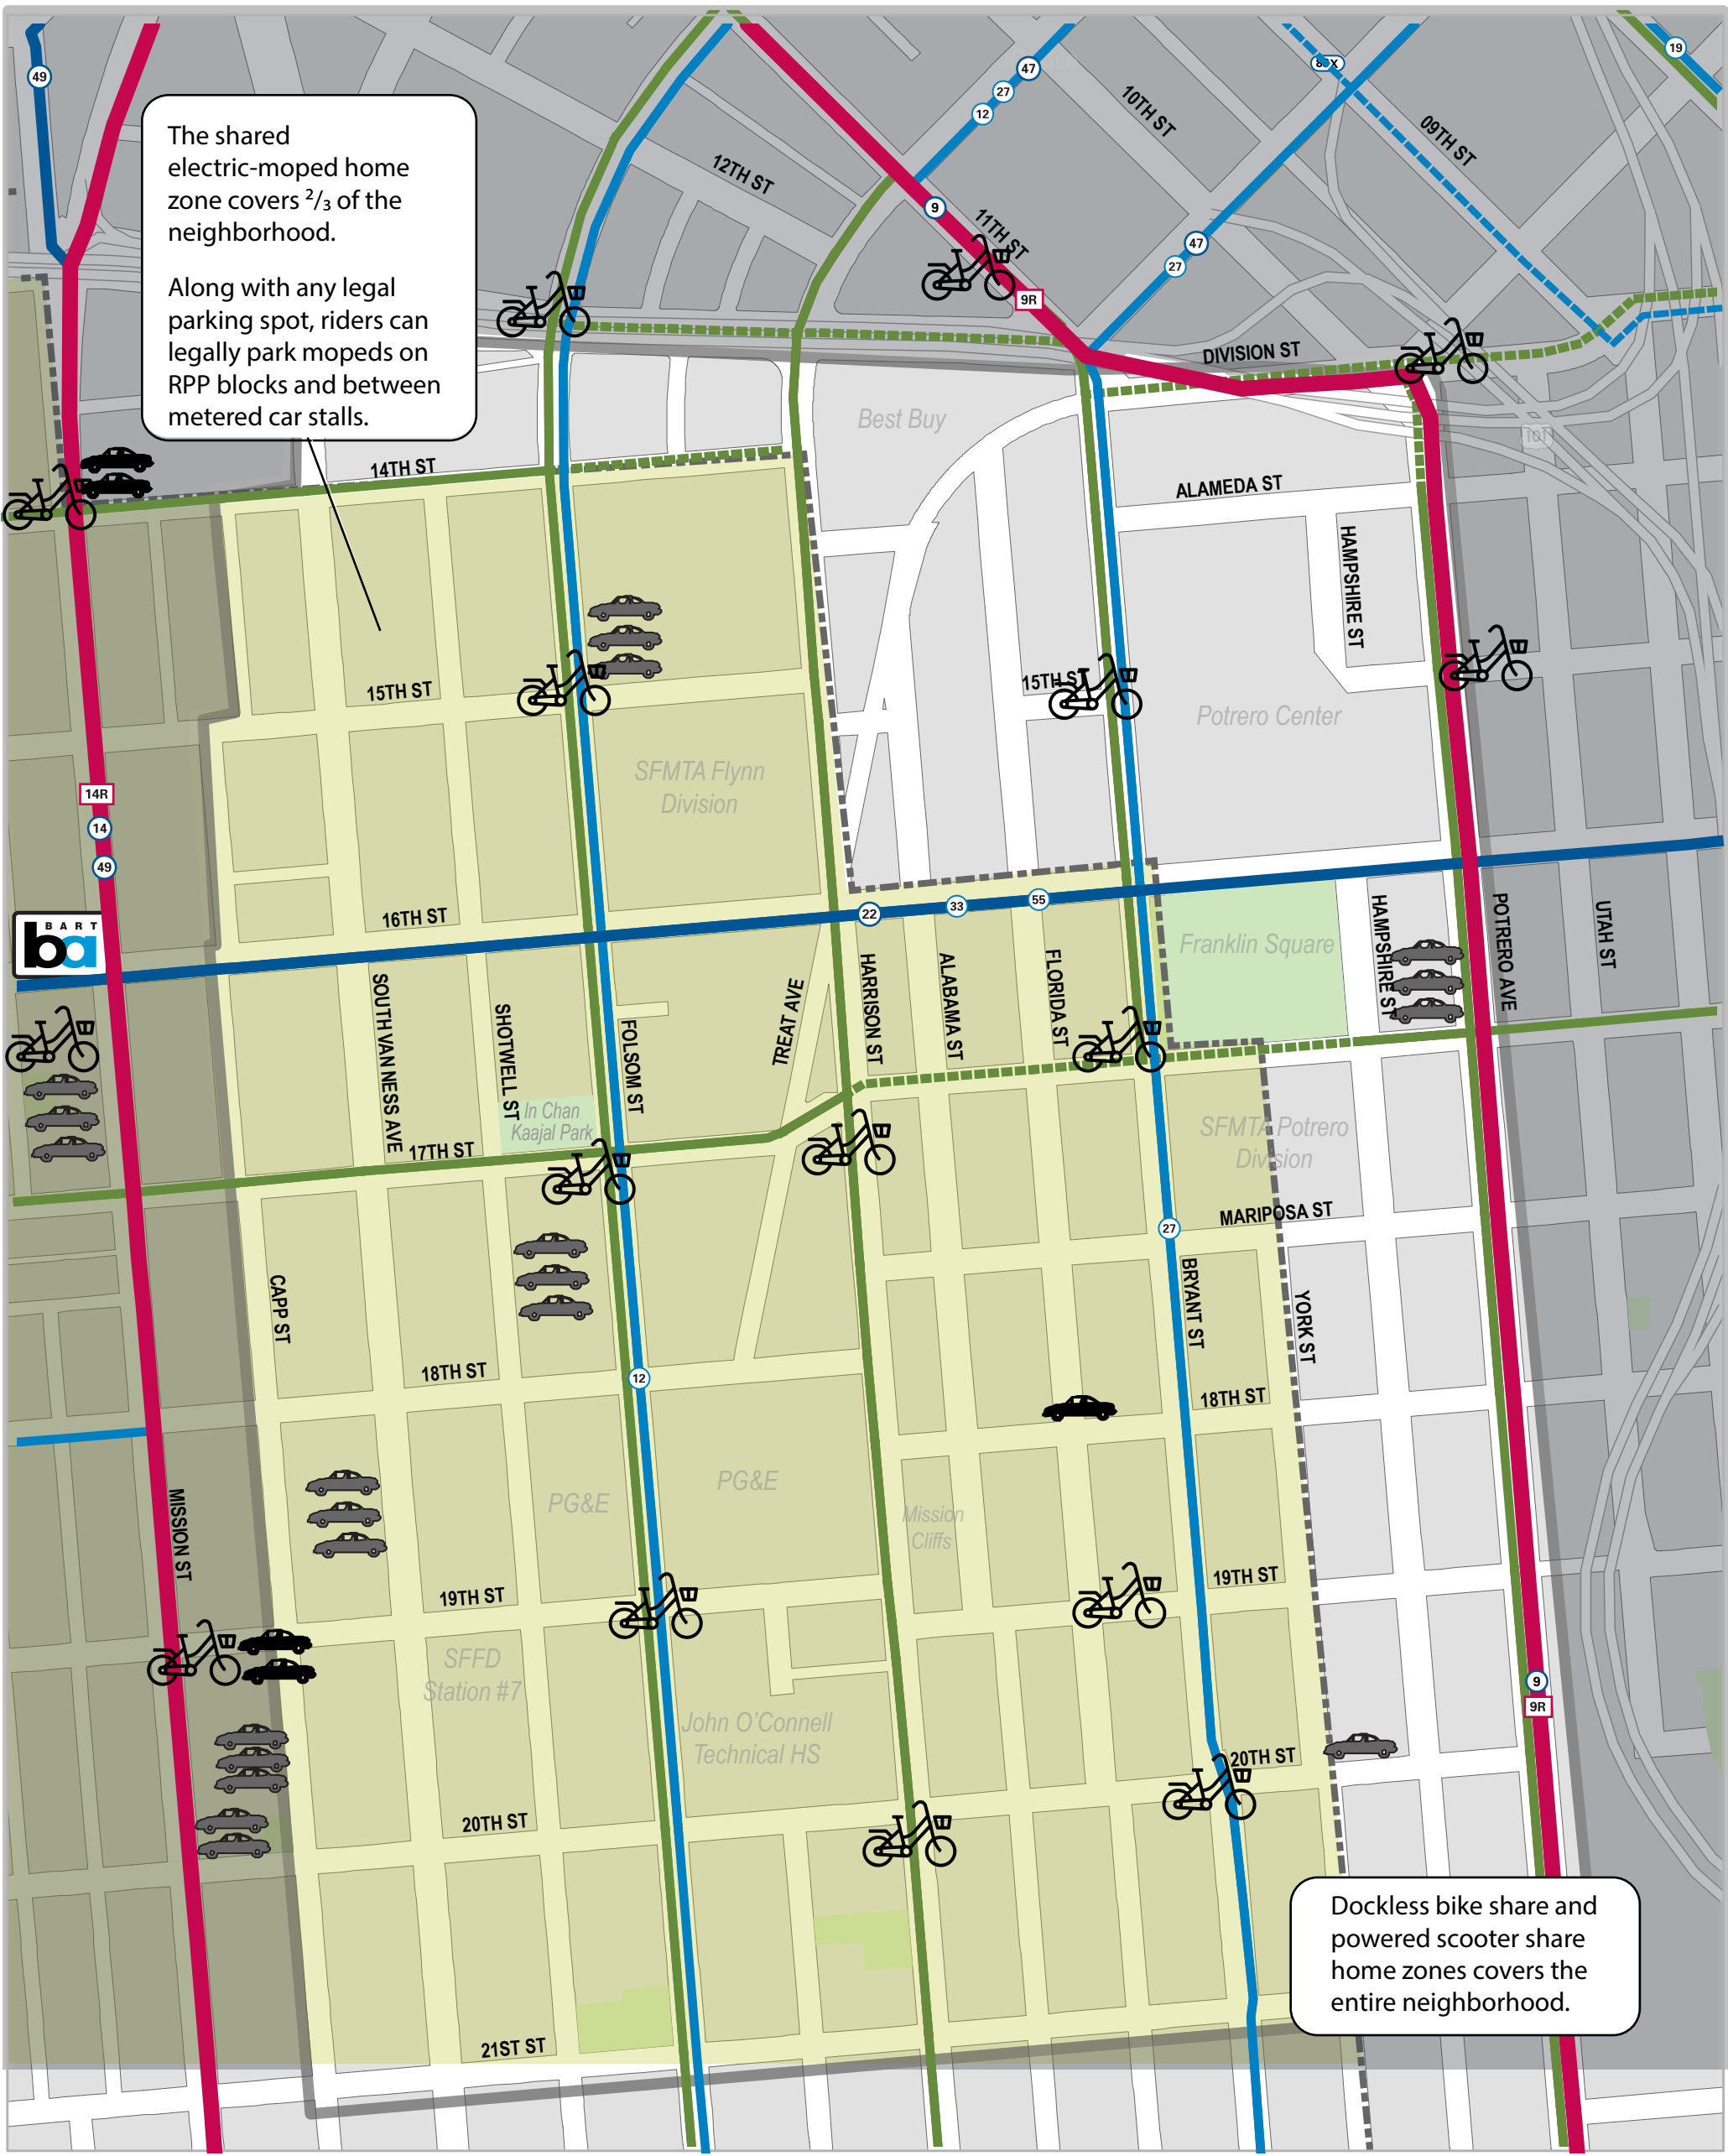

500 unique vehicles were parked in the project area for over eight hours. One-third of these vehicles were registered in the NE Mission.

104 vehicles were parked in the project area for fewer than eight hours. The plurality of these vehicles are registered in the southern neighborhoods.

A greater share of short-term vehicles are registered outside the neighborhood, whereas all-day vehicles are registered more locally.
