The SFMTA Valencia Bikeway Improvements Project proposes to install traffic safety improvements, including protected bike lanes, on Valencia Street between 19th Street and Cesar Chavez.

This project will address safety concerns while creating a more comfortable space for travel through the following changes:

- Upgrading the existing bike lanes on Valencia Street between 19th Street to Cesar Chavez to protected bikeways to provide a safer and more comfortable place for people traveling by bike. This also involves the removal of the center-turn lane
- Parking and loading changes on Valencia Street
- Left-turn restrictions from Valencia Street onto cross streets
- School loading islands
- Removing and relocating stops for the 12-Folsom and Commuter Shuttles
- Adding parking meters on cross street (up to 100 feet in each direction)
- Pedestrian improvements such as daylighting and advanced limit lines

Pending project approvals, implementation could begin as early as spring 2020.

For information on filing a CEQA appeal, contact the Clerk of the Board of Supervisors at City Hall, 1 Dr. Carlton B. Goodlett Place, Room 244, San Francisco, CA 94102, or call (415) 554-5184. Whether the City Traffic Engineer's decision is considered a Final SFMTA Decision is determined by Division II, Section 203 of the Transportation Code. If the City Traffic Engineer approves a parking or traffic modification, this decision is considered a Final SFMTA Decision.
