

Valencia Street

from 19th Street to 23rd Street

Parking-Protected Bikeways and Associated Parking and Loading Modifications

*For illustrative purposes only

- Commercial loading during the day time
- Passenger loading from 6pm to 2am

PARKING PROTECTION

- Bicycle lanes are to the right of parked vehicles rather than left
- Greater separation among pedestrians, bicyclists and moving vehicles
- Prevents double parking in the bike lane
- Additional room for bicyclists to pass each other
- Reduces potential for "dooring"
- Accommodates on-street parking and loading needs

PROTECTED INTERSECTION

- Provides more visibility and improves sight lines for turning vehicles and through bikes

- Commercial loading during the day time
- Passenger loading from 6pm to 2am
