

LAKE MERCED QUICK-BUILD PROJECT

Find more information at [SFMTA.com/LakeMercedQB](https://sfmta.com/LakeMercedQB)

The area north and east of Lake Merced Park on Lake Merced Boulevard between Font and Sunset boulevards is part of San Francisco's Vision Zero High Injury Network (HIN), where 75% of the City's traffic injuries and fatalities occur on just 13% of San Francisco streets. The Lake Merced Quick-Build Project aims to improve traffic safety and comfort along Lake Merced Boulevard between Skyline Boulevard and John Muir Drive.

From 2016-2021 there were 89 collisions along the project corridor, which resulted in 87 injuries and two fatalities.

Almost 75% (66 out of 89) of all collisions happened at an intersection.

30% of reported incidents (27 collisions) cite unsafe speeds as a primary factor of the collision

Vision Zero and the Quick-Build Program

This project is part of the [SFMTA's Vision Zero Quick-Build Program](https://sfmta.com/VisionZero), which stems from two executive directives from Mayor London Breed for faster delivery of safety improvements and to deliver higher quality bike facilities, to prevent collisions and increase traffic safety. **Quick-builds** are reversible, adjustable traffic safety improvements that can be installed relatively rapidly. Please visit [SFMTA.com/QuickBuild](https://sfmta.com/QuickBuild) to learn more about the Mayor's directives and commitment to improving traffic safety in the City. Potential improvements for Lake Merced include:

Striping and curb changes

Protected Bikeways

Timeline

Summer 2021

Fall 2021

Winter 2021/ Spring 2022

Inform community about Quick-Build Projects & draft quick-build designs

Present quick-build options and select preferred alternatives at community meetings

Project legislation followed by Implementation
