

TO: Color Scheme Managers and Medallion Holders 

FROM: Philip Cranna, Enforcement & Legal Affairs Manager, Taxi Services

CC: San Francisco International Airport Ground Transportation Unit

DATE: June 8, 2023

**SUBJECT: Passenger Payment Devices**

---

Please recall that all taxis must be equipped with a **Passenger Payment Device** pursuant to Trans. Code §1113(d)(3). **“Passenger Payment Device”** is “a payment card industry-compliant device that allows customers to swipe their own credit card and choose their own tip amount. Formerly known as a Passenger Information Monitor (PIM).” (§1102).

Also please recall that **Passenger Payment Devices** are required to be in a **stationary mounting**.

All Taxi and Ramp Taxi Medallion Holders and Color Schemes are **jointly and severally responsible** for ensuring that all Taxis and Ramp Taxis for which they hold permits, operate under a Use Agreement, or with which they are affiliated meet all equipment requirements listed in Section [1113](#), including the requirement to have **Passenger Payment Devices**. In addition to imposing any applicable penalty for non-compliance with equipment requirements, **the SFMTA may remove any vehicle from service for any violation of Section 1113** until the violation is corrected and the vehicle is inspected and approved by the SFMTA.
