Central Subway Project Contact Information	E5
Appendix E: SBE Participation by Contract (Reported Quarterly)	E1
Appendix D: Completed Contracts	D1
Appendix C: Program Overview of Scope and Funding	C1
Appendix B: Schedule Report	B1
Appendix A: Cost Report	A1

<u>Cover photo:</u> Two men work to remove concrete and exposed rebar from an opening being made in the slurry wall at the south end of the Yerba Buena/Moscone station box and headhouse. Numerous openings are being cut through the reinforced concrete walls to allow for emergency egress, ventilation, and utility access. **More photos can be found starting on page 36.** 

<u>Above photos</u>: The second of three long-term openings left in the Union Square/ Market Street station roof deck at O'Farrell has been built over. The last opening left just south of the Stockton/Geary intersection, will soon also be covered up and backfilled.

See the Appendix E final page for CS websites hyperlinks and public outreach on line resources. The Project main web site is at: <a href="http://www.centralsubwaysf.com/">http://www.centralsubwaysf.com/</a>

Bags of supplies and debris are slowly lifted to the surface from the bottom floor of the Chinatown Station headhouse.

# **Executive Summary**

**Chinatown Station -** Completed placing concrete for South Platform arches. Completed waterproofing installation at Crosscut Cavern arches and invert. Completed installing rebar and placing concrete for Crosscut Cavern invert. Completed installing rebar and formwork for North Platform Cavern arches. Completed installing waterproofing at North Egress tunnel and shaft. Completed removing temp level 6 & 7 struts and wales. Continued street work (minor), ongoing monitoring and surveying.

**Union Square/Market Street Station** - O'Farrell and Stockton Street: Continued to pave intersection and replaced southwest and southeast corner sidewalks and curb ramps. Platform Station: Continued construction of stairs and elevators. Continued installation of stem walls and platform deck. Installed CMU walls, placed concrete for metal decks and wale encasements at multiple levels. North Concourse: Continued installation of GMU walls on Fan level. Continued installation of fire sprinklers on Concourse and Fan levels. South Concourse: Continued installation of fire sprinklers and MEP.

**Yerba Buena/Moscone Station -** Re-establish utilities at 4th & Howard. Continued waterproofing 11 wall. Began and completed waterproofing H-Line Wall. Placed PG&E #7 boxes at Folsom. Continued installing Stair 4, 6, and 7. Installed geofoam at Headhouse Surface Level. Completed F/R/P of Headhouse Surface Slab. Poured Stair 6 walls (Headhouse Undersurface). Continued installing Headhouse Vent Shaft. Continued F/R/P of Headhouse Mezzanine walls and columns. Installed fire sprinkler mains and piping at Headhouse Mezzanine.

**Surface, Track and Systems**– Continued traction power conduit installation inside tunnel. Continued installing street light pole foundations on Townsend. Continued sidewalk and curb ramp pavement renovation at 4th/Bryant. Continued 4th/Brannan platform construction. Ongoing strut bracket installation in both tubes working South to North. Continued plinth construction in tunnel.

Tunnel - Contract administrative closeout is ongoing.

Total project costs to date are \$1,269.74 million, an increase of \$10.92 million over last month. The total cost to date equals 80.45% of the total project budget of \$1.578 billion. The Master Project Schedule forecasts a Revenue Service Date of December 2019.

The Stations Contractors' Safety Reports should show one recordable accident took place this month. The rates of work site accident incidents by the man hours worked continue to be below industry standards - see tables on page 32.

# **Key Milestones**

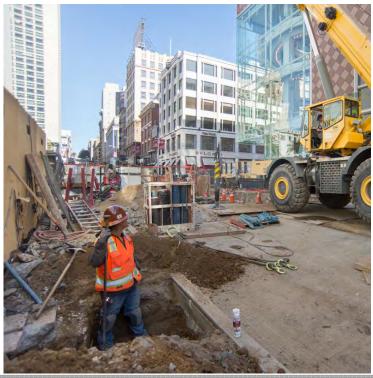

# Decking over the last remaining access shafts for UMS on Stockton

MILESTONE	DATE EXPECTED
General	
Revenue Service	December 2019
Contract 1300 Stations, Stems	Surface, Track, Sys-
Notice to Proceed (NTP 1)	June 17, 2013 (A)
Notice to Proceed (NTP 2)	January 12, 2014 (A)
Substantial Completion	June 8, 2018

2 Steel beams, corrugated steel, rebar, and concrete are installed over shafts

**3** Sites are backfilled, and roadway and sidewalk restoration work begins

## **Costs and Schedule**

#### Costs (See Appendix A for Details)

The Current Cost Estimate (CCE) for the Central Subway Project is **\$1.578 billion** in year of expenditure dollars (\$YOE). This total project cost is shown at the top of Report 7.1, Program Project Budget. This capital cost projection incorporates allocated and unallocated contingencies to cover the risks associated with the project completion.

Total net incurred costs for the project are \$1,269.74million, a \$10.92 million increase over last month. The cost to date figure reflects expenditures through FAMIS 786 Report (\$1,237.27 million) plus the utilities joint trench Form B Reimbursement payment (\$11.27 million), invoices currently being processed (\$16.70 million) and estimates of outstanding pay requests (\$4.54 million). This incurred amount equals 80.45% of the total project budget of \$1.578 billion.

The current funding level to date is \$1,517.03 and includes FTA \$23.02 million FY2018/2019 New Starts Grant appropriated in October 2018. This represents 96% of the total project budget.

#### **Earned Value Analysis**

In October 2018 Report, the Preliminary Earned Value Analysis reports is based on the SFM-TA October Schedule Update. The Planned Value, Earned Value, Actual Cost, Percent Complete and resulting indexes as follows:

#### **Preliminary October Earned Value**

Overall Budgeted Cost:	\$1,578,300,000
Planned Value:	\$1,535,048,648
Earned Value:	\$1,271,364,299
Actual Cost:	\$1,269,741,394
Schedule Performance Index (SPI):	0.83
Cost Performance Index (CPI):	1.00
Percent Complete:	80.5%

<sup>\*</sup>October 2018 Notice: The City continues to transition from FAMIS to Financial System Project (FSP). During the transition, we are unable to provide accurate financial updates. Once FSP is updated and validated, we will reconcile our reports accordingly. We will be projecting current expenditures and anticipate the reconciled updates will be available early next year.

Please note that we continue to experience problems that are being caused by error and inaccuracy from the transition. The sources of error include errors resulting from mapping index codes in the old FAMIS system to translating chartfield accounts in the new Financial System Project as well as errors arising through processing such as abatements and adjustments being assigned to the incorrect account. As we continue to address these data quality problems through data cleaning, you will continue to see monthly fluctuations as we detect and remove errors and inconsistencies from data in order to improve on the quality of data so that we will be able to report accurate data.

#### Schedule Highlights

The Master Project Schedule (MPS) below includes progress through October 2018. The October 2018 Schedule Update submittal from Contract 1300 Contractor was not submitted as the CN1300 Contractor has not provided the updated corrections to their June, through May 2018 Schedule Updates. The Contract 1300 schedule represented in this report is based on the SFMTA October 2018 Schedule Update.

The MPS shows a forecast Revenue Service Date of December 2019.

The controlling critical (longest) path of the MPS runs through the Headhouse Concrete work, followed by Electrical activities, STS Startup & Testing, Commissioning and Pre-Revenue Activities to the Baseline Finish and Revenue Service Date. See Appendix B – Longest Path. The latest schedule shows the longest path running through the Chinatown Station (CTS). Contractor is required to implement a Recovery Schedule to put the Project back on schedule.

Schedule Contingency is fully utilized on the critical path of the MPS, which is below the Minimum Schedule Contingency level of 6 months. A schedule re-evaluation will be performed, utilizing the updated Contract 1300 Schedule. Recovery options are being implemented in key areas as work proceeds. SFMTA continues to meet with Contractor to discuss all schedule concerns and comments. CTS Headhouse concrete invert slab will require additional rebar than originally estimated impacting the schedule. Contract 1300 Schedule shows an improvement in October due to schedule risk opportunities identified with the new forecasted Revenue Service Date of 26 December 2019.

Contract 1300 Contractor submitted forty four (44) Schedule Updates from December 2014 to September 2018. SFMTA rejected twenty six (26) Schedule Updates from January 2016 to April 2016 and June 2016 to April 2018 due to multiple and repetitive issues that vary from incorrect working sequences to unrealistic forecasted completion dates to artificially steering the schedule longest path through certain portions of the project. SFMTA approved as noted December 2014 through December 2015, and May 2016 Schedule Updates. Contractor has been directed to develop a Recovery Schedule as required by Contract to mitigate the current forecasted project delay. The 18 month "gap" of missing Schedule Updates at the beginning of the job has interfered with efficient resolution of Contractor's assertions of Unavoidable Delay to the project-wide Substantial Completion date, which is additionally impacting the Contractor's review of options for schedule recovery.

#### Contract 1300 - WP1253 UMS / WP1254R CTS / WP1255 YBM / WP1256 STS:

The Contractor, Tutor Perini Corporation's (TPC) baseline schedule is incorporated into the master program schedule. The preliminary SFMTA Contract 1300 October 2018 schedule is used within the October Report. The SFMTA Contract 1300 October 2018 schedule is based on the approved baseline schedule logic with adjustments made for fixing retained logic and lags. The SFMTA will continue to use the SFMTA Contract 1300 schedule update as a forecasting tool going forward until the Contract 1300 Contractor submits an acceptable schedule that addresses all of SFMTA scheduling concerns.

Teams of workers have been constructing rebar cages and concrete forms to build sections of the Union Square/Market Street Station platform, deep under Stockton Street.

#### Schedule Highlights - Continued

#### Work Package P-1254R (CTS) has performed the following work this month:

- Began construction of track slab at Crossover Cavern
- Began contact grouting for Crossover Cavern arches
- Completed placing concrete for South Platform Cavern arches
- Began construction of Underplatform stem walls at South Platform Cavern
- Completed waterproofing installation at Crosscut Cavern arches and invert
- Completed installing rebar and placing concrete for Crosscut Cavern invert
- Continued placing concrete for Crosscut Cavern headwall
- Completed installing rebar and formwork for North Platform Cavern arches
- Completed installing waterproofing at North Egress tunnel and shaft
- Began installing rebar for North Egress shaft
- Completed placing concrete for Platform level columns at Headhouse
- Continued installing rebar, electrical, and plumbing for Concourse slab at Headhouse
- Continued placing concrete for Concourse slab at Headhouse
- Began installing rebar and formwork for Intermediate slab at Headhouse
- Completed removing temp level 6 & 7 struts and wales
- Began removing temp level 5 struts and wales
- Began prep work for initial shotcrete layer at Slurry Walls for Underplatform Level at Headhouse
- Continued street work (minor), ongoing monitoring and surveying

#### Work Package P-1253 (UMS) has performed the following work this month:

- O'Farrell and Stockton Street: Installed sewer piping at SW corner. Paved intersection and replaced southwest and southeast corner sidewalks and curb ramps
- Platform Station: Continued construction of stairs and elevators. Continued installation of stem walls and platform deck. Installed CMU walls, placed concrete for metal decks and wale encasements at multiple levels
- North Concourse: Continued installation of CMU walls. Continued installation of fire sprinklers and MEP on Concourse and Fan levels
- South Concourse: Continued installation of fire sprinklers and MEP

#### Work Package P-1255 (YBM) has performed the following work this month:

Re-establish utilities at 4<sup>th</sup> & Howard.

Completed waterproofing 11 wall

Began and completed waterproofing H-Line Wall

Placed PG&E #7 boxes at Folsom.

#### Schedule Highlights - Continued

- Continued installing Stair 4, 6, and 7
- Installed geofoam at Headhouse Surface Level
- Completed F/R/P of Headhouse Surface Slab
- Poured Stair 6 walls (Headhouse Undersurface)
- Continued installing Headhouse Vent Shaft
- Continued F/R/P of Headhouse Mezzanine walls
- Continued F/R/P of Headhouse Mezzanine columns
- Installed fire sprinkler mains and piping at Headhouse Mezzanine
- Continued electrical and fire sprinkler installation in Headhouse Concourse
- · Continued installing granite art panels in Station Concourse
- Continued installing crystallized glass panels in Station Concourse
- Continued F/R/P of seismic joints (Station Platform)
- Began installing traction power conduits (Station Invert)

#### Work Package P-1256 (STS) has performed the following work this month:

- Continued traction power conduit installation inside tunnel
- Continued installing street light pole foundations on Townsend
- Continued sidewalk and curb ramp pavement renovation at 4<sup>th</sup>/Bryant
- Continued 4<sup>th</sup>/Brannan platform construction
- Ongoing strut bracket installation in both tubes working South to North
- Continued plinth construction in tunnel
- Started track slab construction at CTS Crossover Cavern

The oval-shaped curve and massive invert slab of the track crossover cavern can be seen looking south from the bottom of the platform cavern.

Rebar installation for the last section of concourse level floor slab inside the Chinatown Station head-house can be seen almost complete.

## **Contracts & Construction**

#### **Construction Contracts In Progress**

Contract 1300: Combined Work Packages 1253, 1254, 1255, 1256

• Contractor: Tutor - Perini Corporation

Amount: \$853.68 million

• Contract Status: 75.76% complete construction

#### **Contracts Completed**

See Appendix D

**Contract 1250: Moscone Station and Portal Utilities Relocation** 

Contract 1251: Union Square/Market Street Station Utility Relocation

Contract 1277: Pagoda Theater Site Demolition (Funded separately from the CS Project budget)

Contract 1252: Central Subway Tunneling

Contract SBE Participation (Updated Quarterly) See Appendix E

# Stations, Surface, Track and Systems

#### Contract 1300 Contractor: Tutor-Perini Corporation

#### **Description of Work**

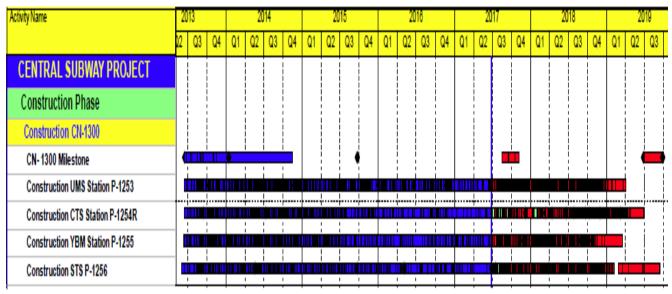

The Contract 1300 scope is to construct the Central Subway's three subway stations, one surface station, construct the 2,000 feet of surface track, and install track and operating systems throughout the new alignment. The separate station and systems work packages are presented in the following pages.

Work includes station finishes, AC and DC substations, elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, Cutter Soil Mixing, secant pile bottom up and Sequential Excavation Method construction, settlement monitoring, building protection, connecting to and modifying the BART Powell Street Station, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

Contract I	Details
Contract Awarded:	May 21, 2013
Notice to Proceed:	June 17, 2013
Substantial Completion:	June 8, 2018
Contract Award Value:	\$839,676,400
Modifications to Date (\$):	\$14,007,049
Modifications to Date (Days):	118

Budget/Expe	nditures₄
Current Budget	\$879,676,400
Other Project Offset Credits	\$3,123,097
Expenditures to Date	\$651,406,897

#### 1300 Summary Schedule

### **Chinatown Station**

#### Contract 1300 - Work Package 1254R

#### **Description of Work**

This Work Package is to construct one subway station. Includes station finishes, AC and DC Traction Power substations elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, slurry wall top-down construction, settlement monitoring, building protection, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

#### **Current Work Status**

- Began construction of track slab at Crossover Cavern
- Began contact grouting for Crossover Cavern arches
- Completed placing concrete for South Platform Cavern arches
- Began construction of Underplatform stem walls at South Platform Cavern
- Completed waterproofing installation at Crosscut Cavern arches and invert
- Completed installing rebar and placing concrete for Crosscut Cavern invert
- Continued placing concrete for Crosscut Cavern headwall
- Completed installing rebar and formwork for North Platform Cavern arches
- Completed installing waterproofing at North Egress tunnel and shaft
- Began installing rebar for North Egress shaft
- Completed placing concrete for Platform level columns at Headhouse
- Continued installing rebar, electrical, and plumbing for Concourse slab at Headhouse
- Continued placing concrete for Concourse slab at Headhouse

- Began installing rebar and formwork for Intermediate slab at Headhouse
- Completed removing temp level 6 & 7 struts and wales
- Began removing temp level 5 struts and wales
- Began prep work for initial shotcrete layer at Slurry Walls for Underplatform Level at Headhouse
- Continued street work (minor), ongoing monitoring and surveying

#### Work Expected Next Month

- Complete contact grouting for Crossover Cavern arches
- Complete track slab construction at Crossover Cavern
- Complete waterproofing installation for South headwall
- Continue stem wall construction and placing concrete for track slab at South Platform Cavern
- Continue installing rebar and formwork for Crosscut Cavern headwall
- Begin installing rebar for Crosscut Cavern Arch final lining
- Begin stem wall construction for track slab at North Platform Cavern

## **Chinatown Station**

#### Contract 1300 - Work Package 1254R

# Work Expected Next Month (continued)

- Begin constructing formwork and installing rebar for North Egress upper lid
- Complete installing rebar, electrical, plumbing, and concrete placement for Concourse slab at Headhouse
- Complete removing temp level 5 struts and wales
- Begin installing rebar, electrical, and plumbing for Intermediate slab at Headhouse
- Begin placing concrete for Intermediate slab at Headhouse
- Begin shotcrete for slurry walls, install drain mat and waterproofing for Under Platform level at Headhouse

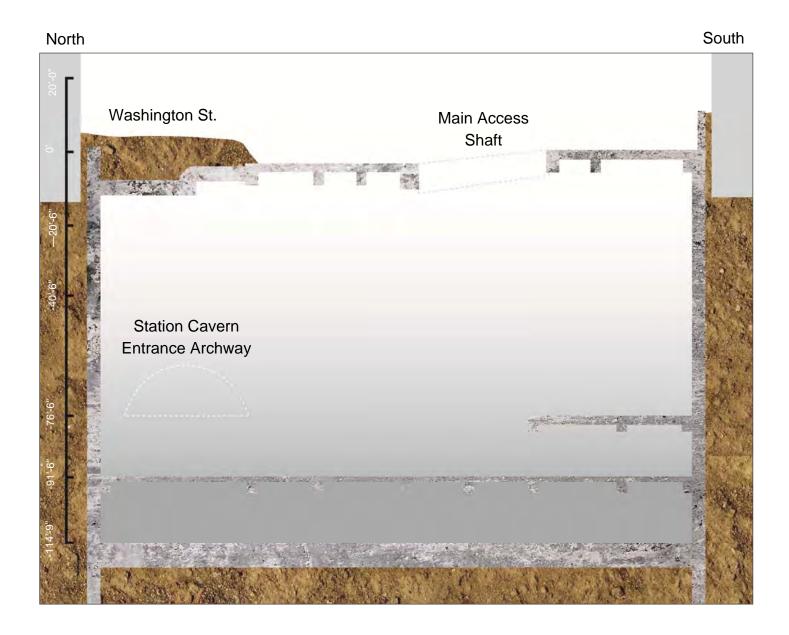

#### Three Month Look Ahead

- Begin installing rail at Crossover Cavern
- Complete stem wall and track slab construction at South Platform Cavern
- Complete stem wall and track slab construction at North Platform Cavern
- Complete walls and staircase for North Egress Shaft and upper lid
- Platform level at Headhouse: Shotcrete on Slurry Walls, Install drain mat and waterproofing on Shotcrete Walls, Build CMU partition walls
- Complete Intermediate, Lower Mezzanine, and Upper Mezzanine levels at Headhouse

#### **Station Construction Progress Section**

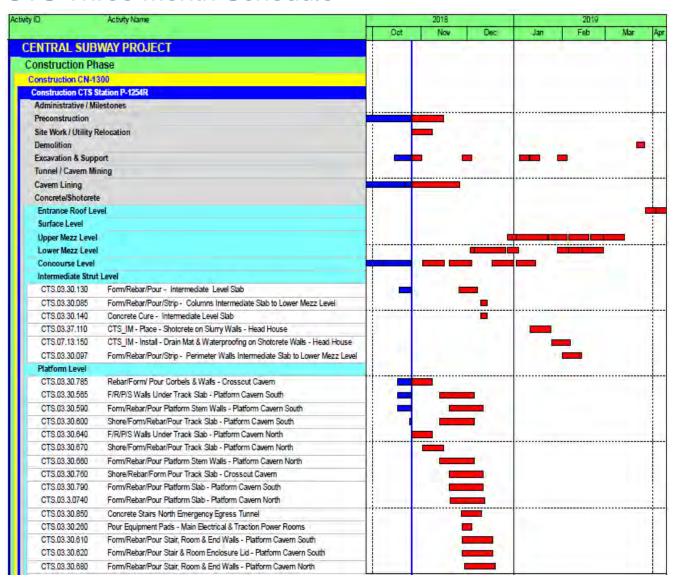

#### **Chinatown Station Construction Status - Continued**

Other Project Offset Credits	\$75,000
Expenditures to Date	\$192,228,174

#### CTS Three Month Schedule

Schedule: Contract 1300 October 2018 Update

# **Union Square/Market Street Station**

#### Contract 1300 Work Package1253

#### **Description of Work**

This Work Package is to construct one subway station. Includes station finishes, AC and DC Traction Power substations elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, slurry wall top-down construction, settlement monitoring, building protection, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

#### **Current Status This Month**

- O'Farrell and Stockton Street: Installed sewer piping at SW corner. Paved intersection and replaced southwest and southeast corner sidewalks and curb ramps
- Platform Station: Continued construction of stairs and elevators. Continued installation of stem walls and platform deck. Installed CMU walls, placed concrete for metal decks and wale encasements at multiple levels
- North Concourse: Continued installation of CMU walls. Continued installation of fire sprinklers and MEP on Concourse and Fan levels
- South Concourse: Continued installation of fire sprinklers and MEP

#### Work Expected Next Month

- Platform Station: Close opening at Roof Section 3B north of O'Farrell St. Complete installation of concrete wales at Concourse level. Continue construction of CMU Walls on Mezzanine and Intermediate Strut levels. Continue installation of stairs and elevators. Continue deck installation on Mezzanine, Intermediate Strut and Concourse levels
- North Concourse: Complete construction of CMU walls on Fan level. Complete installation of fire sprinklers on Fan and Concourse level
- South Concourse: Continue installation of MEP. Continue installation of walls
- O'Farrell St to Geary St on Stockton St: Install and complete construction of wa-

- ter main and laterals. Construct new sidewalks and curb ramps. Install Street Light at the SW corner of Geary
- Ellis St to O'Farrell St on Stockton St: Construct new sidewalks and curb ramps. Pave the roadway. Install temporary street lights

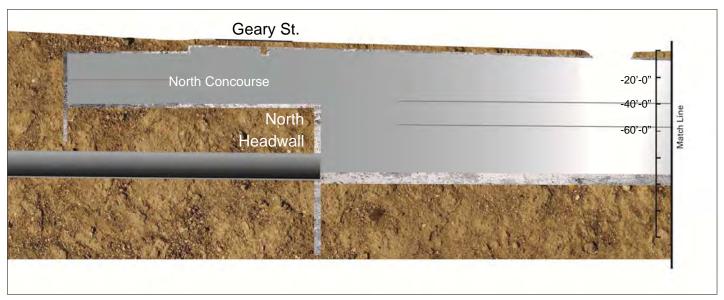

#### Three Month Look Ahead

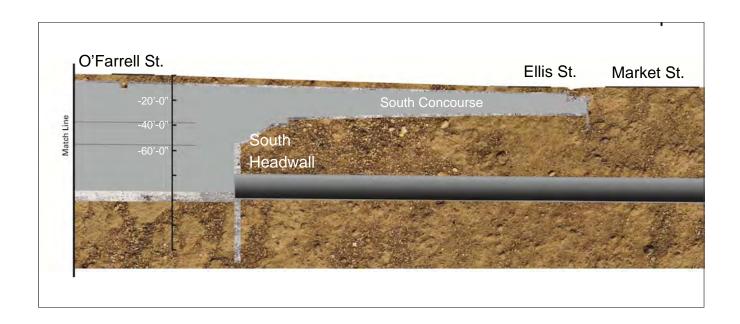

- Platform Station: Complete construction of platform decks, stairs and escalators. Complete CMU wall construction at Intermediate Strut, Mezzanine and Concourse levels. Complete metal deck installation. Complete all structural concrete work
- North Concourse: Complete Concourse level slab and equipment pads. Install ventilation fans and equipment. Complete installation of fire alarm system in USG
- South Concourse: Complete construction of the south escalators and stairs
- Street: Complete Restore traffic signal, street lights, sidewalk and paving Stockton Street between Ellis and Geary Streets
- 18 Open Stockton Street to traffic

#### **Station Excavation and Construction Progress Section**

North South

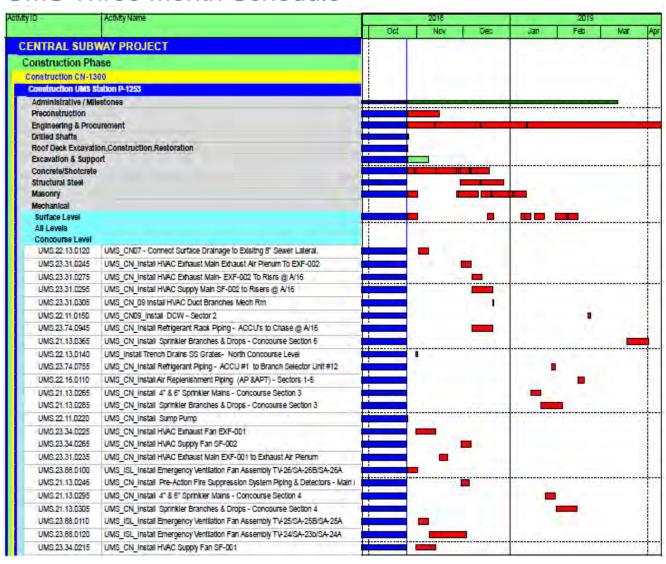

#### Union Square Market Street Station Construction - Continued

Contract Awarded:	May 21, 2013
Notice to Proceed:	June 17, 2013
Substantial Completion:	June 8, 2018
Contract Award Value:	\$294,030,590
Modifications to Date (\$):	\$2,748,442
Modifications to Date (Days):	118
Current Contract Value:	\$296,779,032

Budget/Expend	ditures 🛦
Current Budget	\$314,030,590
Expenditures to Date	\$246,281,001

#### **UMS Three Month Schedule**

Schedule: Contract 1300 October 2018 Update

## Yerba Buena/Moscone Station

#### Contract 1300 - Work Package 1255

#### **Description of Work**

This Work Package is to construct one subway station. Includes station finishes, AC and DC Traction Power substations elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, slurry wall top-down construction, settlement monitoring, building protection, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

#### **Current Status**

- Re-establish utilities at 4<sup>th</sup> & Howard.
- Completed waterproofing 11 wall
- Began and completed waterproofing H-Line Wall
- Placed PG&E #7 boxes at Folsom.
- Continued installing Stair 4
- Continued installing Stair 6
- Continued installing Stair 7
- Installed geofoam at Headhouse Surface Level
- Completed F/R/P of Headhouse Surface Slab
- Poured Stair 6 walls (Headhouse Undersurface)
- Continued installing Headhouse Vent Shaft
- Continued F/R/P of Headhouse Mezzanine walls
- Continued F/R/P of Headhouse Mezzanine columns
- Installed fire sprinkler mains and piping at Headhouse Mezzanine
- Continued electrical and fire sprinkler installation in Headhouse Concourse
- Continued installing granite art panels in Station Concourse
- Continued installing crystallized glass panels in Station Concourse

- Continued F/R/P of seismic joints (Station Platform)
- Began installing traction power conduits (Station Invert)

#### Work Expected Next Month

- Install catch basin and culvert at 4th-Clementina.
- Complete F/R/P of Stairs 1 and 4
- Complete installing Stair 6
- Continue installing Stair 7
- Continue installing Escalators 3 & 4
- Complete F/R/P of Headhouse Undersurface stairs
- Complete F/R/P of walls of Headhouse Vent Shaft
- Continue F/R/P of Headhouse Mezzanine walls and columns

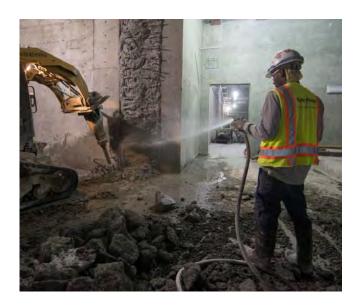

# YBM - continued

# Work Expected Next Month (continued)

- Continue electrical work in Headhouse Concourse
- Continue electrical work in Station Concourse
- Continue installing Granite Art Work panels (Station Concourse)
- Continue installing crystallized glass panels (Station Concourse)
- Continue installing luminous glass ceiling panels (Station Concourse)
- Continue F/R/P of seismic joints (Station Platform)

#### Three Month Look Ahead

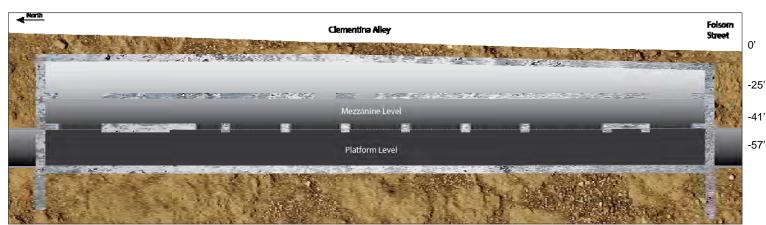

- Begin pavement renovation work on 4<sup>th</sup> and Folsom
- Pour West Side topping slab, Mezzanine
   Station box
- Continue interior finishes on Mezzanine & Concourse Levels within Station Box
- Continue placement of stairs within Station and Headhouse
- Begin installation of sculpture at Surface Level
- Complete installation of artwork in Headhouse Concourse
- Install cabs for Elevators 1 and 2

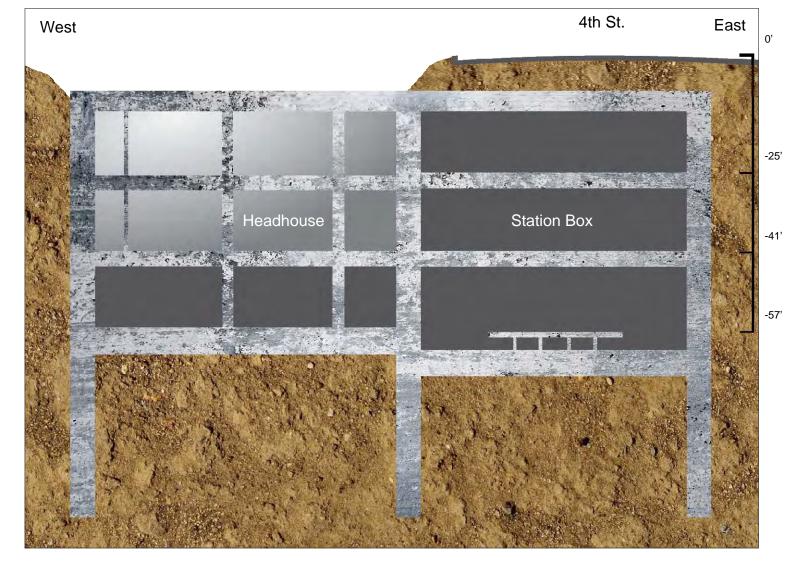

#### **Station Excavation and Construction Progress Section**

North South

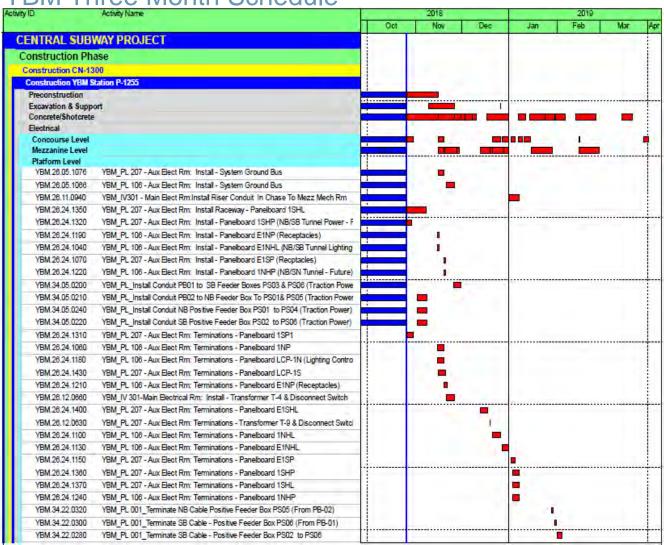

#### Yerba Buena Moscone Station Construction - Continued

Schedule: Contract 1300 October 2018 Update

# Systems, Trackwork, & Surface Station

#### Contract 1300 - Work Package 1256

#### **Description of Work**

This Work Package is to construct one Surface Station. Includes light rail track and systems, track invert, track safety walkways; light rail track and systems constructed on the 2,000 foot surface for the alignment from the tunnel portal, south to the tie-in to the existing Muni T-Line at Fourth and King Streets; and the surface Fourth and Brannan Street (FBS) Station.

#### **Current Status**

- Continued traction power conduit installation inside tunnel
- Continued installing street light pole foundations on Townsend
- Continued sidewalk and curb ramp pavement renovation at 4<sup>th</sup>/Bryant
- Continued 4<sup>th</sup>/Brannan platform construction
- Ongoing strut bracket installation in both tubes working South to North
- Continued plinth construction in tunnel
   Started track slab construction at CTS
   Crossover Cavern

#### Work Expected Next Month

- Continue 4<sup>th</sup>/Brannan platform construction
- Continue traction power conduit installation inside tunnel
- Continue installing street light pole foundations on Townsend
- Continue sidewalk and curb ramp pavement renovation at 4<sup>th</sup>/Bryant
- Continue plinth construction in tunnel
- Continue track slab construction at CTS Crossover Cavern

#### Three Month Look Ahead

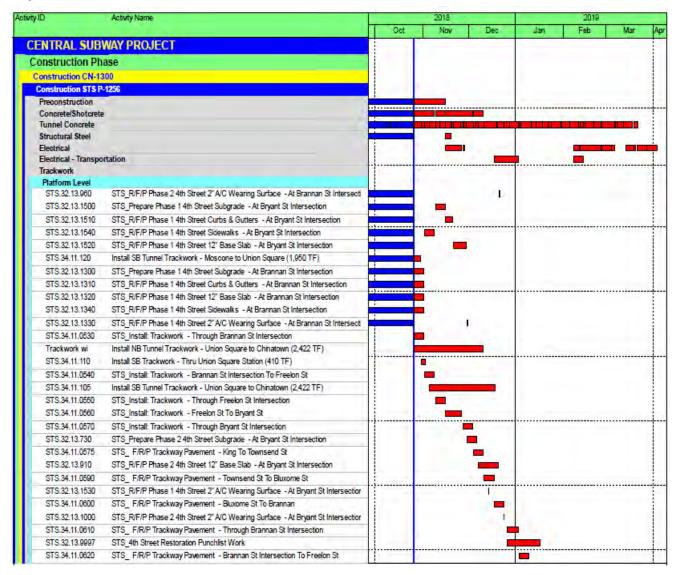

- Complete street light pole installation
- Complete pavement renovation at 4<sup>th</sup>/
  Bryant, 4<sup>th</sup>/Brannan, and 4<sup>th</sup>/King intersections
- Continue 4<sup>th</sup>/Brannan platform construction
- Continue surface track installation
- Continue track installation inside tunnel
- Continue walkway installation inside tunnel
- Continue electrical conduit installation inside tunnel
- Continue pulling traction power cables on 4<sup>th</sup> Street

#### Systems, Trackwork, & Surface Station Construction - Continued

Contract Details					
Contract Awarded:	May 21, 2013				
Notice to Proceed:	June 17, 2013				
Substantial Completion:	June 8, 2018				
Contract Award Value:	\$139,989,000				
Modifications to Date (\$):	\$2,739,264				
Modifications to Date (Days):	118				
Current Contract Value:	\$142,728,264				

Budget/Expenditures					
Current Budget	\$144,989,000				
Other Project Offset Credits	\$2,632,766				
Expenditures to Date	\$78,691,367				

#### Systems, Track and Surface Station Three Month Schedule

# **Program Components**

#### Community Outreach

#### Outreach public information, events and presentations for October 2018 include:

- Conducted Chinatown Merchants Meeting
- Continued noise and dust mitigation meetings with Tutor Perini and community stakeholders
- · Ongoing outreach to merchants and residents
- Conducted meetings and face-to-face visits with various merchant stakeholders along the alignment
- Preparation and dissemination of construction notices
- Produced quarterly construction update video and other multimedia content
- Responded to constituent complaints

#### **Outreach in Support of Mitigation and Monitoring**

Team members participated in weekly progress to address neighborhood concerns

Outreach and communication efforts continue in Chinatown, Union Square, and SOMA

Weekly photo documentation of project work and editing

Outreach team members met with SF Arts Commission representatives to align public art completion strategy

Weekly construction update emails sent to list of approximately 700 residents and stakeholders

#### Media Coverage

Central Subway Media Coverage						
Date	Title (with link to story)	Source	Reporter/ Writer			
10/15/2018	The T line never lived up to its promise. Now Muni is readying its upgrade	San Francisco Chronicle	Rachel Swan			
10/30/2018	Stockton Street to reopen this winter after six years of Central Subway construction	SF Examiner	Joe Fitzgerald Rodriguez			
10/30/2018	SF's Stockton Street To Reopen In Early 2019	KPIX 5 CBS SF Bay Area	Joe Vazquez			

#### **Quality Assurance**

Quality Assurance monthly activity of oversight, surveillance, audits, proactive feedback and QA records actively involves the Project construction management staff, the resident engineers, the prime construction contractor and their subcontractors.

# Stations and Systems Contract CN1300 Quality Assurance Monitoring – On Going/As Reported Previously

- UMS structural steel installation Continued Inspection/acceptance/documentation by Smith Emery CWI's of all welds associated with the ongoing Installation of structural and excavation support steel
- Continuation of Station construction at UMS and YBM
- Waterproofing and concrete lining of CTS Cavern
- STS invert and plinth preparation for and subsequent concrete placement for track installation continue
- STS rail preparation for and subsequent installation
- TPC QC Daily Inspection Reports posted to CM13 which includes TPC's Specialty Subcontractor's QC checklists and associated documentation and Smith Emery Inspection Reports; TPC's Subcontractor that provides laboratory and Inspection Services – including Special Inspections required for the City of San Francisco's Department of Building Inspection (DBI) for all permitted work
- Preparatory, Initial Phase, and in particular, Concrete Preplacement Meetings continue as the scheduled activities dictate
- Bi-Weekly Quality Task Force (QTF) Meetings ongoing dialog regarding; planning for upcoming Work, identification and mitigation of in-process potentially unsatisfactory work, generation of CNCRs, welding inspection documentation, HOLD points and other items related to TPC's QC efforts in implementing TPC's approved Quality Control Program (QCP). Additionally, the Contractor's Quality Control Manager (QCM) and Assistant QCMs continue to be provided with salient information from the PQM's participation/attendance in Project and Work Package Progress Meetings
- Weekly Work Package Progress Meetings for STS, YBM, UMS and CTS
- Monthly Project Risk Mitigation, Safety and Security and weekly MEP Progress and CMB Meetings as scheduling constraints allow

#### **Document comment and review:**

- Contractor's submittals, e.g., review of welding, concrete (including shotcrete) and other Quality related submittals/comments as requested to support the RE's and CM, and RFIs related to quality and welding
- QA Staff continues random/spot checks of the 1300 Contractor's Field Testing lab results accomplished upon review of the preliminary test reports provided as required the Contract Documents via email from the Contractor's testing laboratory which includes concrete cylinders and shotcrete cores and shotcrete C1550 flexural specimens
- Contractor Non Conformance Reports (CNCR) Status as indicated in the TPC QC CNCR Log:
  - Initial: 8 CNCRs are currently posted to the CNCR Log as INITIAL entries. (+2 from September 2018) (C1300 is required to generate a CNCR within 24 hours of becoming aware of what appears to be non-conforming work).
  - Dispositioned (not acceptable):14 CNCRs are currently posted to the CNCR Log as DIS-POSITIONED (NOT ACCEPTABLE) and have been returned to the Contractor because

#### **Quality Assurance - Continued**

the RE's review of the Contractor's proposed disposition determined that the proposed disposition is not appropriate and must be revised). (-4 from September 2018)

- Dispositioned: 21 CNCRs are currently posted to the CNCR Log as DISPOSI-TIONED and are being reviewed by associated SFMTA RE to verify that the Contractor's proposed disposition is appropriate.) (+2 from September 2018)
- Approved: 28 CNCRs are currently posted to the CNCR Log as APPROVED because the suggested REPAIR dispositions have been approved and the CNCRs will remain open until the approved REPAIR procedure is performed. (-2 from September 2018)
- Closed: 282 CNCRs are currently posted to the CNCR Log as CLOSED. (+4 from September 2018)
- Voided: 43 CNCRs are currently posted to the CNCR Log as VOIDED (subsequent evaluation of the INITIAL CNCRs determined that a CNCR is not warranted). (+1 from September 2018)
- ♦ 402 CNCRs are currently posted to the CNCR Log. (+11 from September 2018)

#### QA Issues:

None to report for October 2018

#### **QA Concerns**:

- As described previously, typical to similar Projects, work performed prior to receipt of approval status
  of required submittals (including coordination and shop drawings)/RIFs with/without knowledge of QC
  or responsible production supervision, remains a potential item(s) of concern
- Also as previously described and typical to similar Projects, the untimely identification and mitigation (SFMTA approval) of "last minute items", such as too little clear cover for reinforcement due to unanticipated proximately of adjacent objects in a concrete lift, remains an ongoing challenge to all involved. Project quality has not suffered to date; however the aforementioned concern remains
- Continue regarding Project schedule compression demands disrupting RE and Design Staff priorities as mentioned above; quality has not suffered but the concern remains
- CNCR 354, which documents that standard strength and not high strength 115 RE rail has been furnished and is currently being installed by Tutor Perini Corporation (TPC) the C1300 Contractor. CNCR 354 was dispositioned as Use-As-Is and was then rejected by SFMTA and returned to TPC QC to address the requirements of 34 11 14 Rail. SFMTA has subsequently written a letter to TPC directing the removal of the non-conforming rail. Meanwhile, at a meeting with TPC and TPC's track work F & I Subcontractor, SFMTA QA was informed by TPC's Project Manager that CNCR 354 would be voided. SFMTA QA concern is that that CNCR 354 will be voided predicated by TPC perceived ambiguities in the Contract Documents; without consideration of other Contract Document reequirements. NCN CT-001 was issued, directing TPC to reinstate CNCR 354. This issue will be closely monitored by SFMTA

#### Other Program QA Practices Implemented:

- Close-out of Corrective Action Requests: Close outs continued as required from Quality Assurance staff's Audits, Surveillances and PMOC Quarterly Reviews. The status is tracked in the Corrective Action Log that is available to the project team and the FTA PMOC
- Project QA initiated weekly meetings with the Resident Engineers and Assistant Resident Engineers
  of all stations to review project quality assurance procedures and requirements and contractor quality
  control requirements

#### Risk Management

Risk Mitigation Management Meeting No. 110 was held on Tuesday, October 2, 2018. The members of the Risk Assessment Committee will review the top risks in accordance with the risk summary sheet, which have been given a rating by The Committee of six and above.

During the monthly meeting, forty-one (41) construction risks and one (1) remaining requirement risk will be tracked on the Project's Risk Register, in addition to, establishing strategies for mitigation and evaluating potential unforeseen issues or conditions.

The Committee will continue to follow risks and risks will be monitored and statuses updated with the use of the risk mitigation status sheets, providing monthly updates by the Risk owner to demonstrate the assigned mitigation strategy is being implemented.

#### **Top Risks**

Risk#	Risk Description	Risk Rating	Contract
99	Breakdown in relationships between SFMTA and Contractors during construction results in increased claims and delays to the overall construction schedule.	13	STA
240	Unresolved Assignment of Schedule Delay Responsibility (may lead to increase cost for the Program)	12	STA
255	Water leaks at YBM station	10	YBM
251	Physical activities missing (not defined) in the schedule / identify activities of undefined scope	8	STA
205	Prolong period of CMod's creates additional cost/causes bad blood between Resident Engineer and Contractor	8	STA
234	Sequential Excavation Method at CTS - Contractor's propose method will induce detrimental subsidence	7	CTS
254	CPUC Field Certification - Not having enough staff to certify the work may slow down the process	6	STA
253	Do not have adequate resources defined to do the work	6	STA
238	Quality Program is ineffective in processing the nonconformance items causing schedule impacts	6	STA
230	SFMTA Commissioning Coordination (inaccurate time for coordination or participation from Muni Ops)	6	STA

#### **Program Safety & Security**

The San Francisco Municipal Transportation Agency is committed to the highest practical level of safety and security standards and practices in the public transit industry. The Safety and Security Management Plan (SSMP) components are reported on below as appropriate including, Safety and Security Committee, the Fire Life Safety and Security Committee the Construction Conformance Verification and Documentation and Contractor Safety and Security.

#### Project Management/Construction Management (PMCM) Team

Safety bulletin boards have subjects covering the complacency and daily job briefings. Weekly safety meetings are conducted twice a week so all staff have an opportunity to attend.

#### Safety Summary for the 1300 Stations Systems Track Construction Package

During the month of October, TPC incurred seven first aid injuries. They included a sprained ankle, abrasion to an eyelid, cut finger, contusion to a knee, another sprained ankle, strained shoulder, and a case of conjunctivitis. All were treated in the emergency clinic and returned to work. No lost time incidents.

#### **Table 1300 Stations Construction Safety Record**

Table 1300 below summarizes the Month to Date and Project to Date for the Stations, Systems and Track Construction contractor and subcontractors.

#### **Next Month Look Ahead**

#### 1300 Contract

- 1. At the CTS station, TPC continued installing rebar and formwork for Crosscut Cavern Arch final lining.
- 2. At the UMS station, TPC continued installation of CMU walls, stairs, elevators, and deck installation on Mezzanine and Intermediate Strut levels.
- 3. At the YBM station, TPC continued electrical work in Headhouse Concourse and Station Concourse.
- 4. At the STS station, TPC and their sub contractors continued traction power conduit installation inside tunnel, plinth construction, and installing street light pole foundations on Townsend Street.

#### Program Safety & Security - continued

Through Month End OCT 2018

SAFETY GOALS OSHA Recordable Accidents, <3.4 Lost Time Cases, <1.6

JOB TO DATE	Tutor	Subs	Total Project	Rate*
OSHA Recordable Accidents	9	4	13	0.81
Job Transfer or Restricted Duty Cases	0	0	0	0.00
Lost Time Cases	2	1	3	0.19
Total Project Incidents	11		16	0.99
Man Hours Worked Through M/E OCT 2018	1,534,568	1,690,929	3,225,497	

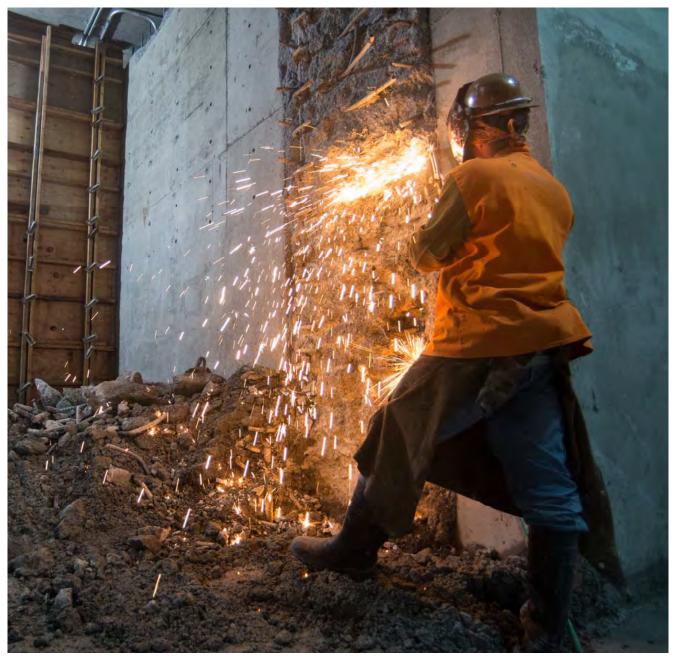

YEAR TO DATE (Month ,Day, Year to Month, Day, Year)	Tutor	Subs	Total Project	Rate*
OSHA Recordable Accidents	4	2	6	1.95
Job Transfer or Restricted Duty Cases	0	0	0	0.00
Lost Time Cases	1	0	0	0.00
Total Project Incidents	5	0	3	0.97
Man Hours Worked Through M/E OCT 2018	398,287	218,137	616,424	

<sup>\*</sup> Rate is calculated based on number of incidents divided by total number of man hours worked multiplied by 200,000 man hours. OSHA Recordable Accidents - 2008 Construction Industry Rate for Highway, Street, and Bridge Construction = 3.9

<sup>\*</sup>Classifications change at a later date due to additional information becoming available, thereby, changing the numbers on the chart. For example, what was once classified as an accident can become a first aid which leads it to no longer being recordable.

#### **Technical Capacity**

The Program is in the process of finding a permanent replacement for the Director position. Currently, an Acting Director has been named until a permanent replacement is found. In addition, the program is in the process of establishing a job description for a Startup and Testing Manager. The Program is also considering candidates for Contracts Claims Administrator or Change Order Administrator and is interested in identifying additional candidates for supplementation of the team in the areas of Construction Inspector and Office Engineer, and persons with expertise in MEP Coordination and Systems implementation.

As the edges of a large opening in the slurry wall separating the station box and headhouse are cleaned up, a worker cuts off protruding pieces of rebar along the way.

33

# Staffing

The Central Subway Staffing Table shows Planned and Actual full-time equivalent staff (FTEs) working on the Program by organizational function and responsibility.

	Aug-	Aug-2018 Sep-2018 Oct-2018		Sep-2018		2018

#### **Third-Party Agreements**

No activity in this reporting month.

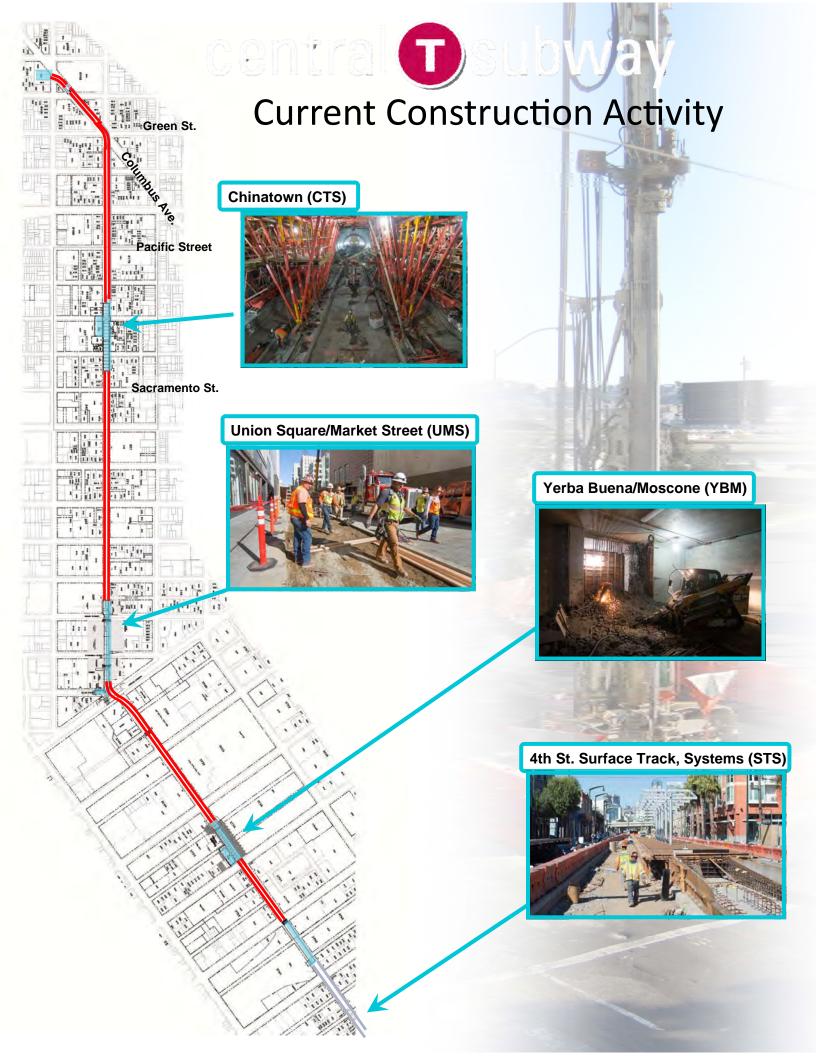

#### LRV Procurement

SFMTA has initiated a new light rail vehicle procurement to acquire up to 260 vehicles over the next 15 years. The scope includes the design, manufacture, delivery and testing of up to 260 light rail vehicles together with associated services, spare parts, special tools, training and documentation. This includes an initial delivery of 24 cars, scheduled for delivery from 2017 - 2018 to supplement the fleet when the SFMTA's Third Street Phase 2 - Central Subway Project extension opens.

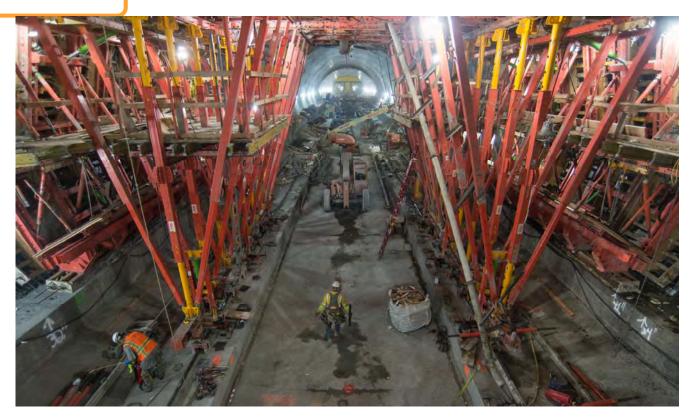

Production of the first 24 cars continues. 7 cars are now in service, with 9 more on property going through the test and commissioning process. The delivery and acceptance process is on schedule to put one vehicle in service per week.

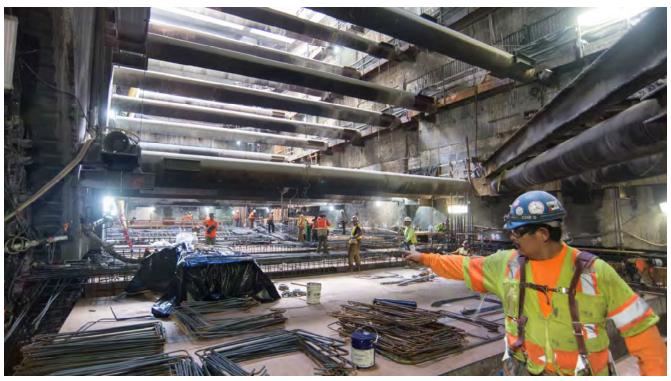

Workers flag and coordinate rail placement work with a special vehicle used to ferry rail sections inside the portal and tunnels.

## CTS

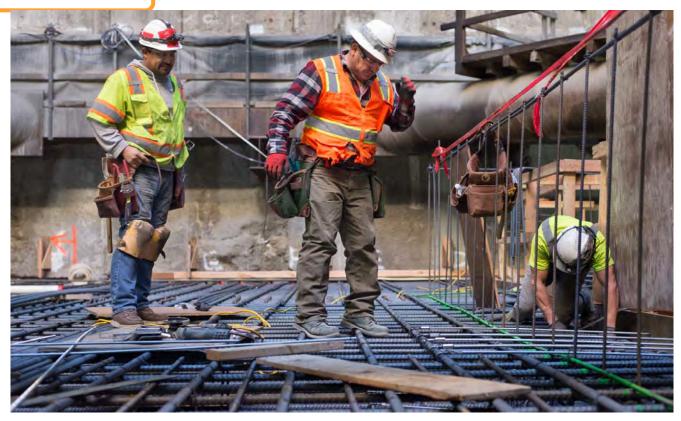

Looking south from the entrance to the north egress shaft under Stockton Street, the massive truss structure used to position concrete formwork can be seen prior to completion of the last section of cavern walls.

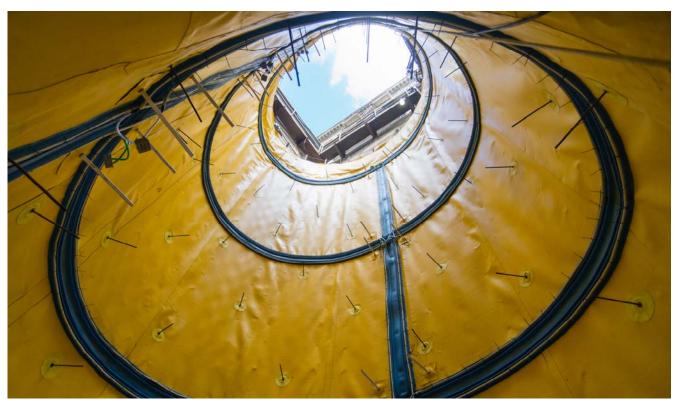

Crewmembers place place large lengths of rebar on top of concrete forms as part of platform level floor slab construction inside the Chinatown Station headhouse.

## CTS—continued

Massive rebar cages continue to be built with each floor slab being constructed inside the Chinatown Station headhouse.

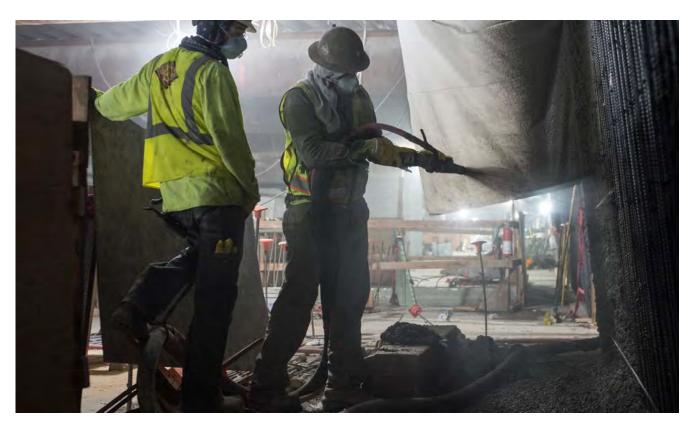

A vinyl waterproofing membrane has been installed along the outer walls of the north egress shaft, on the east side of Stockton south of Jackson. This shaft will eventually become an emergency exit stairwell.

38

### **UMS**

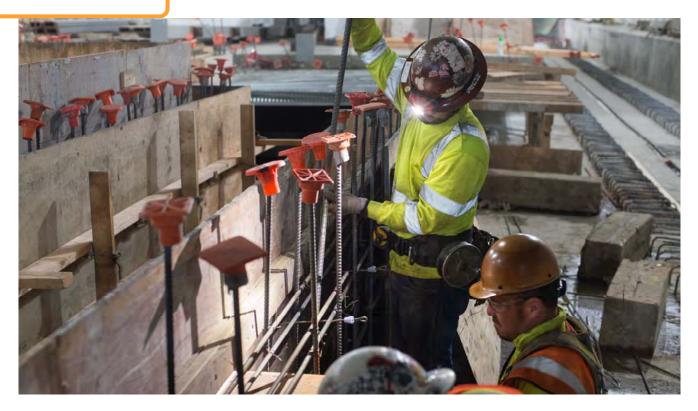

Crews have been restoring sections of the roadway and sidewalks along Stockton between Geary and O'Farrell leading up to the 2018 Holiday season.

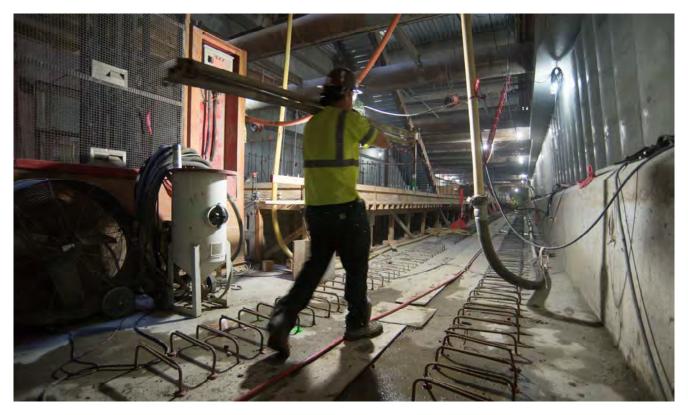

Workers spray shotcrete against a massive rebar cage on the east wall of the Union Square/Market Street Station's concourse level, to finish off surfacing that section of the station's outer wall.

UMS—continued

Workers install sections of rebar as part of reinforcing work for the concrete platform foundation structure, 80 feet below Stockton Street.

A worker carries pieces of scaffolding down the future southbound side of the Union Square/Market Street Station platform.

## **YBM**

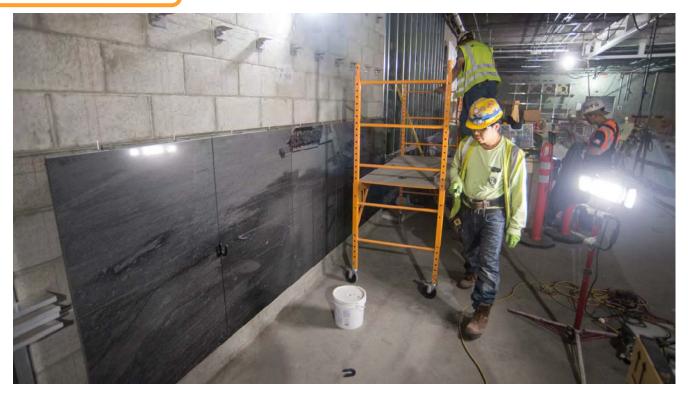

A bobcat fitted with a jackhammer takes turns with a worker cutting away sections of rebar with a blowtorch, to open up passages in the slurry wall between the Yerba Buena/Moscone station box and headhouse.

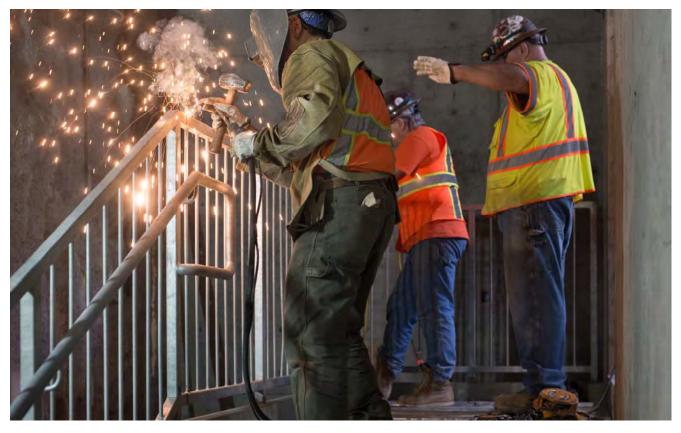

Large utility vaults have been placed ahead of surface restoration work along the sidewalk at the south end of the Yerba Buena/Moscone Station headhouse.

## YBM - continued

Portions of a public art piece by photographer Catherine Wagner are being installed along the east wall of the Yerba Buena/Moscone station box's concourse level.

Sparks fly as sections of railing are tack welded into place on the mezzanine level of stair 5, at the northeast corner of the Yerba Buena/Moscone headhouse.

## STS

Rebar and some structural portions of the platform shelter have been installed atop formwork for the 4th and Brannan surface station platform.

Concrete is transferred from a truck to a hopper car waiting below inside the tunnel portal. The concrete is being used to construct sections of track plinths inside the tunnels.

## **STS** - continued

Excavators fitted with special grabbing clasps unload rail from a flatbed truck inside the tunnel portal.

Track and track foundations have now been constructed in the northbound tunnel through the S-curve, Union Square/Market Street Station, and even further north toward Chinatown.

# Appendix A DETAIL COST REPORTS

October 2018

\*October 2018 Notice: The City is in the process of transitioning from FAMIS to Financial System Project (FSP). During the transition, we are unable to provide accurate financial updates. Once FSP is updated and validated, we will reconcile our reports accordingly. We will be projecting current expenditures and anticipate the reconciled updates will be available early next year.

#### 1. PROJECT COST

The Current Cost Estimate (CCE) for the Central Subway Project is **\$1.578 billion** in year of expenditure dollars (\$YOE). This total project cost is shown at the top of Report 7.1, Program Project Budget. This capital cost projection incorporates allocated and unallocated contingencies to cover the risks associated with the project completion.

Total net incurred costs for the project are \$1,269.74 million, a \$10.92 million increase over last month. The cost to date figure reflects expenditures through FAMIS 786 Report (\$1,237.27 million) plus the utilities joint trench Form B Reimbursement payment (\$11.27 million), invoices currently being processed (\$16.70 million) and estimates of outstanding pay requests (\$4.54 million). This incurred amount equals 80.45% of the total project budget of \$1.578 billion.

The current funding level to date is \$1,517.03 and includes FTA \$23.02 million FY2018/2019 New Starts Grant appropriated in October 2018. This represents 96% of the total project budget.

		PP PERIOD	- 1	PROG PYMT

#### 2. CONTINGENCY ALLOCATIONS AND USAGE

The current Total Project Contingency is **\$66.16 million**, which is a \$41.16 million favorable balance against the current Minimum Contingency level of \$25 million. The Contingency Drawdown Curve is shown in Report 7.3. Follows by Report 7.4 Contingency Management Trend Report with the Remaining Contingency after Approved Changes Deducted contingency items in column "i".

In this reporting period, Contract 1252 Tunnel did not process any contract modifications. CN1300 Station processed one contract modification in the amount of \$1,296,364. Refer to Report 7.5 for approved contract modifications and potential changes.

#### 3. **BUDGET TRANSFERS**

Contract 1300 Station processed one contract modification in the amount of \$1,296,364 SCC 40 category. There is a net budget transfer of \$0 in this reporting period due to the further drill down of SCC 10-50 categories; allocated contingency is in SCC 20 category. When a contract modification is processed, the funds are drawn from allocated contingency.

#### 4. FORM B

The Utilities Joint Trench Form B Details is listed in the Table A2 below. Total utilities joint trench Form B Reimbursement payment to three construction contracts is \$11.27 million.

TABLE A2: UTILITIES JOINT TRENCH FORM B DETAILS	[A] Mar 2015 BUDGET	[B] EXPENDED TO DATE	Associated Cost Account

October 2018

#### **Earned Value Analysis and Definitions**

**SPI** is a measure of schedule efficiency on a project. It is the ratio of earned value (EV) to planned value (PV). A SPI equal to or greater than one indicates more work was completed than planned and a value of less than one indicates less work was completed than planned. A value of less than 0.9 is unfavorable.

**CPI** is a measure of cost efficiency on a project. It is the ratio of earned value (EV) to actual cost value (AC). A CPI equal to or greater than one indicates a cost under run and a value of less than one indicates a cost overrun. A value of less than 0.9 is unfavorable.

The following earning rules are established for each of the phase:

Cost Element Group	Planned Value (Primavera)	Earned Value (Primavera)	Actual Cost (SFMTA Cost Accounting (SAP)
Prelim. Engineering	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor Accruals and Invoices
Final Design	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor Accruals and Invoices
Procurement	Planned Delivery Date	Actual Delivery Date	Time Keeping; Vendor Accruals and Invoices
Real Estate	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor/ Material Accruals and Invoices
Construction	Schedule of Work	% Complete* x Budget at Completion (BAC)	Vendor Accruals and Invoices
Sub-Total	Performance Measurement Baseline (PMB)	Total Earned Value	Total Actual Cost
Below the Line	+ Contingency		
Total	Approved Budget		

#### 6. FUNDING SUMMARY

The Funding Available Table below shows the total awarded funds to date vs. the total committed funds from the Project's seven funding sources.

<b>Funding Avail</b>	able Table	
	Fun	ding
	Committed Funding Sources	Total Awarded Funds to Date
Federal		
Sect. 5309-NS	\$942,200	\$942,200
CMAQ	\$41,025	\$41,025
Federal Subtotal	\$983,225	\$983,225
State		
TCRP	\$14,000	\$14,000
State RIP	\$88,000	\$12,498
Prop. 1B (I-Bond) PTIMSE	\$307,792	\$307,792
Prop. 1A (HSR-Bond)	\$61,308	\$61,308
State Subtotal	\$471,100	\$395,598
Local		
MTA	\$0	\$475
Prop. K	\$123,975	\$137,727
Local Subtotal	\$123,975	\$138,202
CPT 544 Total	\$1,578,300	\$1,517,025

#### 7. LIST OF COST REPORTS

- 7.1 Program Project Budget
- 7.2 Earned Value Cash Flow
- 7.3 Contingency Drawdown Curve
- 7.4 Summary Contingency Management Trend Report
- 7.5 Detail Contingency Usage Report
- 7.6 Budget Revisions: Report sorted by Construction Packages & Soft Costs
- 7.7 Project Budget & Expenditure Report: Sorted by SCC Summary
- 7.8 Budget & Expenditure Report: Sorted by SCC Details
- 7.9 Detail Monthly Expenditure Report: grouped by Project Phase
- 7.10 Cost Report Notes

7.1 F	Program Project Budget
1	The Central Subway Project (CSP) ( SFMTA Capital Program CPT 544 ) is defined in the FTA-SFMTA October 2012 Full Funding Grant Agreement with a budget of \$1.578 billion.
2	The TBM Retrieval Shaft Relocation (SFMTA Capital Program CPT 690) is one of four capital projects that is related to CSP. These projects are reported for background information as needed outside of the main body of the Project Monthly Progress Report.
3	The Chinatown Plaza (CPT 718) is for Chinatown Station enhancement capital project. The project has funding outside of the Central Subway Project. The construction is carried out in Contract 1300 Contract Modifications.
4	CPT 665 is a Real Estate project to relocation in compliance with California regulations for business relocations but outside of the Central Subway Project as defined by the FTA FFGA.
5	CPT 705 is an SFMTA capital improvement between the Agency and community stakeholders outside of the Central Subway Project.
6	Utility company reimbursements (Form B) result in funds received for work carried out on behalf of utilities concurrent to CSP work to achieve efficiencies.
7	PG&E Power Feed reimbursement funds are the refunds from PG&E when completion of Stations construction and switch to permanent power.
8	BART Elevator funds are reimbursements for work carried out on behalf of BART to install BART Powell Street Station elevator.
9	The Tutor Perini - CAD Files funds are the result of payments by the contractor for project documentation not included in the contract.
10	SFPUC Sewer Main funds are reimbursements for work carried out on behalf of San Francisco PUC (includes 10% construction contingency).
11	Traffic Effectiveness Project funded Contract Modification #40 for Culvert, Street & Sidewalk Restoration in North Beach are reimbursements for work carried out in Contract 1252 on behalf of SFMTA SSD.
12	SFPUC 24" Water Main funds are reimbursements for work carried out in Contract 1252 Contract Modification #41 on behalf of San Francisco PUC (includes construction management cost).
13	SFPUC North Beach 24" Water Main Additional Work funds are reimbursements for work carried out in Contract 1252 Contract Modification #48 on behalf of San Francisco PUC (includes construction management cost).
14	CN1300 Contract Modification #6 is funded by Chinatown Plaza (CPT 718) project.
15	Traffic Effectiveness Project funded Contract Modification #51 for support for North Beach Restoration, OCS and Streetlighting which are reimbursements for work carried out in Contract 1252.
16	Public Works' funds are for reimbursements for work carried out on behalf of Public Works MOU for Water Line above YBM Station.
17	SFWD funded Contract Modification #60 for 8' water line at the intersection of Fourth and Jessie Street which are reimbursements for work carried out in Contract 1252.

7.4 (	Contingency Management Trend Report
18	In Oct 2014 Report, updated Contract 1250 contract cost to segregate contract amount and contract modification amount. Note that September 2013 Supplemental Authorized Contingency "column f" did not include completed contract.
19	In Oct 2014 Report, updated Contract 1251 contract cost to segregate contract amount and contract modification amount. Note that September 2013 Supplemental Authorized Contingency "column f" did not include completed contract.
	Contract 1252 Original Contract Value "column a" and Original Contingency "column f" did not match September 2013 Supplemental due to Supplemental were used the revised value to reflect Contract Modifications #3-#18. Reduced Contract 1252 contingency to reflect CMod #20 for retrieval shaft relocation cost \$5.15M funded by CPT690, CMod #40 for Culvert, Street & Sidewalk Restoration cost \$694,651 funded by Traffic Effectiveness Project (TEP), and CMod #41 for install 24" Water Main in North Beach cost \$328,860 funded by SFPUC. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2106 report, reduced Contract 1252 contingency by \$377,435 cost to reflect certification of five CMODS. CMod#49, #52 and #53 total \$221,967 are funded by CPS. CMod#51 Support for North Beach Restoration, OCS and Streetlighting cost of \$155,468 is being funded by TEP. Released \$155,468 CN1252 allocated contingency to program's unallocated contingency. In May 2016 report, reduced Contract 1252 contingency by \$185,913 cost to reflect certification of two CMODS. In July 2016 report, increased Contract 1252 contingency by \$15,259 cost to reflect certification of one CMOD. In October 2016 report, increased Contract 1252 contingency by \$319,658 to reflect certification of three credit CMODs. In March 2018 report, increased Contract 1252 contingency by \$131,715 cost to reflect certification of two CMODS.
20	BART Elevator scope and SFPUC Sewer Main scope is in Contract 1300; effort will be funded by BART. In January 2015 Report,
21	corrected Station Contract value to match awarded amount.
22	In March 2016 Report, lowered Contract 1300 Stations CTS contingency by \$75,000 because Contract Modification #6 was funded by Project CPT718. In Nov 2016 report, reversed moving contingency.
23	In December 2017 Report, \$1,060,000 Job Readiness Budget is shown as an approved change in Column "b".  In December 2017 Report, there is a change in Column "f" and Column "h" to reflect reporting to include CN1250 and CN1251. Prior to this, Column "f" and Column "h" reporting excluded CN1250 and CN1251.
25	In April 2015 report, real estate budget stated in RAMP Rev5 is \$36.7M, including \$1M contingency. The cost workbook ROW & contingency budget reflects this with \$36,511,799 and \$1,000,000 respectively. Revised cost book ROW budget & contingency to be \$37,511,799. The \$4,265,478 Caltrans lease savings is allocated to ROW allocated contingency. In February 2017, released \$5,265,478 from completed phase Real Estate assigned contingency to program unallocated contingency.
26	In Dec 2014 Report, redistributed LRV budget to reflect recent firm bid cost per vehicle (\$3,327,250/unit) from vehicle procurement contract award. (SFMTA Board meeting 15JUL14, calendar item #11). Vehicle line item total budget remains unchanged, redistributed fund by reducing base amount to \$13,309,000, column "c" and increased allocated contingency column "h", by same amount.

	In July 2018 Report, increased SCC 80 Professional Services category budget by \$2,263,498 due to additional costs related to
26a	CN1300 stations; cost was transferred from program unallocated contingency.
	In Oct 2014 Report, made two corrections: i) revised Professional Services, Original Contract Value "column a" from \$310,518,041 to \$310,618,041, ii) revised Original Cogency. "column f" unallocated contingency from \$3,883,481 to \$3,845,945. In April 2015 report,
	used \$500K program contingency for CS-175 Bayland Soil Process contract. In August 2015 Report, added \$15M from Contract
	1252. In March 2016 Report, the \$155,468 costs funded by other project offset credits added to program's unallocated contingency.
	In August 2016 Report, used \$15M to UMS contingency and \$5M to CTS contingency. In February 2017, increased \$5,265,478 from
	real estate contingency to program unallocated contingency and used \$1M for CN1300 Job Readiness Program contract. In July
	2018 report, used \$2,263,498 to increase SCC 80 Professional Services category regarding matters related to stations from program unallocated contingency.
21	The total Central Subway Project budget of \$1.578 billion, based on the October 2012 FFGA with the FTA, is the primary MPR
28	report reference.
	Estimate at Completion is shown at Column "e".
30	Estimate at Completion vs. Budget variance is shown at Column "k".
7.5 Cd	ontract Modification/Trend Log - Contract 1300 Stations
	Reported all trend cost for Contractor Change Order Requests and Proposed Contract Change and applied probability to forecasted
31	trends. In April 2016 Report, reviewed probability formula and adjusted cost. In May 2017, updated probability formula and adjusted
	cost.
7.6 Bu	udget Revisions: Report Sorted by Construction Packages
	In Dec 2014 Report, reduced CN1252 allocated contingency by \$28K to execute Contract Modification #46, see Report 7.5 Detail Contingency Usage Report. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated
	contingency. In March 2016 report, five contract modifications certified totaling \$377,435 of which \$155,468 is using another source
	of funding. Released \$155,648 from CN1252 Tunnel assigned contingency to program unallocated contingency. In May 2016
32	Report, reduced CN1252 allocated contingency by \$186K to execute Contract Modification #54 and #55, see Report 7.5 Detail

In March 2018 Report, increased CN1252 allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report.  In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job
	Report, reduced CN1252 allocated contingency by \$186K to execute Contract Modification #54 and #55, see Report 7.5 Detail Contingency Usage Report. In October 2016 Report, increased CN1252 allocated contingency by \$319,658 to execute three contract modifications (#57, #58 and #59), see Report 7.5 Detail Contingency Usage Report. In March 2018 Report, increased CN1252 allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report.  In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value.
33	Report, reduced CN1252 allocated contingency by \$186K to execute Contract Modification #54 and #55, see Report 7.5 Detail Contingency Usage Report. In October 2016 Report, increased CN1252 allocated contingency by \$319,658 to execute three contract modifications (#57, #58 and #59), see Report 7.5 Detail Contingency Usage Report. In March 2018 Report, increased CN1252 allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report.  In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value.

In Dec 2014 Report, redistributed LRV budget to reflect recent firm bid cost per vehicle (\$3,327,250/unit) from vehicle procurement contract award. (SFMTA Board meeting 15JUL14, calendar item #11). Vehicle line item total budget remains unchanged, redistributed fund by reducing base amount to \$13,309,000 and increased allocated contingency by same amount.

In October 2016 report, 1252 program contingency increased by \$319,658 due to execution of three contract modifications as credit offsets. In November 2016 report, took away \$75,000 funding from program's unallocated contingency and moved to CTS allocated contingency. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value. Also released \$5,265,478 assigned real estate contingency to program unallocated contingency. In June 2017, initiated budget from Contract 1251's contract value (true final administrative close out cost) to program unallocated contingency, a deduction contract modification that lowered CN1251's contract value by \$125,501. In March 2018 report, 1252 program contingency increased by \$131,715 due to execution of two contract modifications as credit offsets. In July 2018, increased SCC category Professional Services in 80.04 Construction Management by \$2,263,498 by reducing program unallocated contingency.

37

In April 2015 report, program contingency decreased by \$500,000. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2016 report, released \$155,468 from Contract 1252 Tunnel assigned contingency and \$75,000 from Contract 1300 Stations assigned contingency totaling \$230,956. In August 2016, released a total of \$20M unassigned contingency to assigned contingency; \$15M to CN1300 UMS station and \$5M to CTS station. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value. Also released \$5,265,478 assigned real estate contingency to program unallocated contingency. In July 2017, increased program unallocated contingency by \$125,501 due to CN1251's revised contract value. In July 2018, reduced program unallocated contingency by \$2,263,498 to fund additional costs for SCC category Professional Services in 80.04 Construction Managment.

38

# 7.7 Budget Expenditures by SCC Codes

In March 2017, added new columns for "Supplemental 2013 Budget" and "Remaining Budget". In April, added new column for "Contingency". In May 2017, added new column for "Report Note". In May 2017, breakdown the combined SCC codes 10 to 50 into individual row for 10, 20, 40, 50 categories. Assigned SCC code to all CN1300 potential changes. Contract 1300 Station assigned contingency SCC are 20.01 and 20.03. The budget transfer is using assigned contingency to process contract modifications. In June 2017, adjusted and realigned SCC codes. In July 2018, the budget transfer is using SCC 90 program unallocated contingency to process an increase in budget for category SCC 80.03-90.04 PM For Design & Construction.

### 7.9 Detail Monthly Expenditure Report

# Phase 1 Preliminary Engineering

In February 2017, line item budget was adjusted to line-up expenditures.

Famis cost for Preliminary Engineering (PE) is \$48,210,903.71. Cost Report for Preliminary Engineering (PE) is \$46,542,060. Some Design cost reported in Famis were moved to Design Phase.

Phase 2 Design Phase				
41	Famis cost adjustment to transfer Project Management cost from July 2013 to Phase 3 Construction Phase.			
	Famis Phase 1 PE Index Code: 357906.CPT5441112 cost is \$10,222,939			
42	\$8,949,300 is reported in Cost Report Phase 1 PE and the balance of \$1,273,639 is reported in Phase 2 Design.

	COST REPORT: \$26,220,609
64	COST TRANSFER: \$47,902 to 1.3.072.01.080.04 - FD:FINAL DESIGN-DP2 [35CPT5441233.CPT5441233]
	Contract 1251 Final cost is \$20,794,582.
65	
	In March 2016, July 2016 and October 2016, contract 1252 modifications budget and actuals have been realigned and adjusted to
	reflect actuals costs.
	In March 2016, July 2016 and October 2016, contract 1252 modifications budget and actuals have been realigned and adjusted to
	reflect actuals costs.
68	Revised Contract 1252 allocated contingency SCC code from 040.08 to 010.07.
	In July 2015 Report, used Contract 1300 Contractor schedule to report budget and actual cost. The Standard Cost Categories
	(SCC) allocation changed from previous reports. In August 2015 Report, adjusted some of Contract 1300 Contractor SCC
	assignment to match most of previous SCC assignment. In March 2016, \$75,000 Cmod#6 subtracted from CN1300 Stations
	contingency (using CPT718 funding) and transferred to Program contingency; this lead to the total CN1300 Station budget being
	lowered.
	Revised Contract 1300/UMS allocated contingency SCC code from 040.08 to 020.03.
	In March 2016 Report, reduced Contract 1252 contingency by \$377,435 cost to reflect certification of five CMODS.
	Revised Contract 1300/CTS allocated contingency SCC code from 040.08 to 020.03.
	Negative Current or Prior Monthly expenditure is due to replenish allowance expenses by approved Contract Modifications.
	Revised Contract 1300/YBM allocated contingency SCC code from 040.08 to 020.03.
	Revised Contract 1300/STS allocated contingency SCC code from 040.08 to 020.01.
	Revised Form B Reimbursements SCC code from 900.01 to 040.02
	Revised Form B Reimbursements SCC code from 900.01 to 040.02
	Revised Form B Reimbursements SCC code from 900.01 to 040.02
79	Revised Form B Reimbursements SCC code from 900.01 to 040.02
80	Revised Form B Reimbursements SCC code from 900.01 to 040.02
	Revised Form B Reimbursements SCC code from 900.01 to 040.02
	Revised Form B Reimbursements SCC code from 900.01 to 040.02
83	Revised Form B Reimbursements SCC code from 900.01 to 040.02
	Increase Program contingency \$1,023,508. Refer to Report Notes #11 and #12. In April 2015 report, program contingency
	decreased by \$500,000. Refer to Report Notes #20. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to
	program unallocated contingency. In March 2016 report, program unallocated contingency increased by \$230,468. In August 2016,
	released \$20M to CN1300 Construction assigned contingency from program unallocated contingency. In February 2017, used
	\$1,060,000 for CN1300 Job Readiness Program from unallocated contingency, refer to Note 30. Also, released \$5,265,478
	assigned real estate contingency to program unallocated contingency, refer to Note 27. In July 2018 report, used \$2,263,498 to fund
84	SCC 80 Professional Services category regarding matters related to stations from program unallocated contingency.

# Appendix B DETAIL SCHEDULE REPORTS

### SCHEDULE HIGHLIGHTS

The Master Project Schedule (MPS) below includes progress through October 2018. The October 2018 Schedule Update submittal from Contract 1300 Contractor was not submitted as the CN1300 Contractor has not provided the updated corrections to their June, through May 2018 Schedule Updates. The Contract 1300 schedule represented in this report is based on the SFMTA October 2018 Schedule Update.

The MPS shows a forecast Revenue Service Date of December 2019.

The controlling critical (longest) path of the MPS runs through the Headhouse Concrete work, followed by Electrical activities, STS Startup & Testing, Commissioning and Pre-Revenue Activities to the Baseline Finish and Revenue Service Date. See Appendix B – Longest Path. The latest schedule shows the longest path running through the Chinatown Station (CTS). Contractor is required to implement a Recovery Schedule to put the Project back on schedule.

Schedule Contingency is fully utilized on the critical path of the MPS, which is below the Minimum Schedule Contingency level of 6 months. A schedule re-evaluation will be performed, utilizing the updated Contract 1300 Schedule. Recovery options are being implemented in key areas as work proceeds. SFMTA continues to meet with Contractor to discuss all schedule concerns and comments. CTS Headhouse concrete invert slab will require additional rebar than originally estimated impacting the schedule. Contract 1300 Schedule shows an improvement in October due to schedule risk opportunities identified with the new forecasted Revenue Service Date of 26 December 2019.

Contract 1300 Contractor submitted forty four (44) Schedule Updates from December 2014 to September 2018. SFMTA rejected twenty six (26) Schedule Updates from January 2016 to April 2016 and June 2016 to April 2018 due to multiple and repetitive issues that vary from incorrect working sequences to unrealistic forecasted completion dates to artificially steering the schedule longest path through certain portions of the project. SFMTA approved as noted December 2014 through December 2015, and May 2016 Schedule Updates. Contractor has been directed to develop a Recovery Schedule as required by Contract to mitigate the current forecasted project delay. The 18 month "gap" of missing Schedule Updates at the beginning of the job has interfered with efficient resolution of Contractor's assertions of Unavoidable Delay to the project-wide Substantial Completion date, which is additionally impacting the Contractor's review of options for schedule recovery.

### Contract 1300 - WP1253 UMS / WP1254R CTS / WP1255 YBM / WP1256 STS:

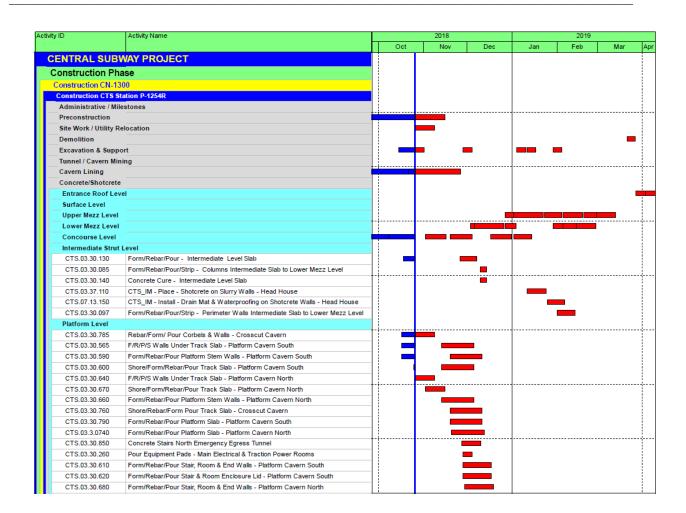

The Contractor, Tutor Perini Corporation's (TPC) baseline schedule is incorporated into the master program schedule. The preliminary SFMTA Contract 1300 October 2018 schedule is used within the October Report. The SFMTA Contract 1300 October 2018 schedule is based on the approved baseline schedule logic with adjustments made for fixing retained logic and lags. The SFMTA will continue to use the SFMTA Contract 1300 schedule update as a forecasting tool going forward until the Contract 1300 Contractor submits an acceptable schedule that addresses all of SFMTA scheduling concerns.

# Work Package P-1254R (CTS) has performed the following work this month:

- Began construction of track slab at Crossover Cavern
- Began contact grouting for Crossover Cavern arches
- Completed placing concrete for South Platform Cavern arches
- Began construction of Underplatform stem walls at South Platform Cavern
- Completed waterproofing installation at Crosscut Cavern arches and invert
- Completed installing rebar and placing concrete for Crosscut Cavern invert
- Continued placing concrete for Crosscut Cavern headwall
- Completed installing rebar and formwork for North Platform Cavern arches
- Completed installing waterproofing at North Egress tunnel and shaft
- Began installing rebar for North Egress shaft
- Completed placing concrete for Platform level columns at Headhouse
- Continued installing rebar, electrical, and plumbing for Concourse slab at Headhouse
- Continued placing concrete for Concourse slab at Headhouse
- Began installing rebar and formwork for Intermediate slab at Headhouse
- Completed removing temp level 6 & 7 struts and wales
- Began removing temp level 5 struts and wales
- Began prep work for initial shotcrete layer at Slurry Walls for Underplatform Level at Headhouse
- Continued street work (minor), ongoing monitoring and surveying

### Work Package P-1254R (CTS) will perform the following work next month:

- Complete contact grouting for Crossover Cavern arches
- Complete track slab construction at Crossover Cavern
- Complete waterproofing installation for South headwall
- Continue stem wall construction and placing concrete for track slab at South Platform Cavern
- Continue installing rebar and formwork for Crosscut Cavern headwall
- · Begin installing rebar for Crosscut Cavern Arch final lining
- Begin stem wall construction for track slab at North Platform Cavern
- Begin constructing formwork and installing rebar for North Egress upper lid
- Complete installing rebar, electrical, plumbing, and concrete placement for Concourse slab at Headhouse
- Complete removing temp level 5 struts and wales
- Begin installing rebar, electrical, and plumbing for Intermediate slab at Headhouse
- Begin placing concrete for Intermediate slab at Headhouse
- Begin shotcrete for slurry walls, install drain mat and waterproofing for Under Platform level at Headhouse

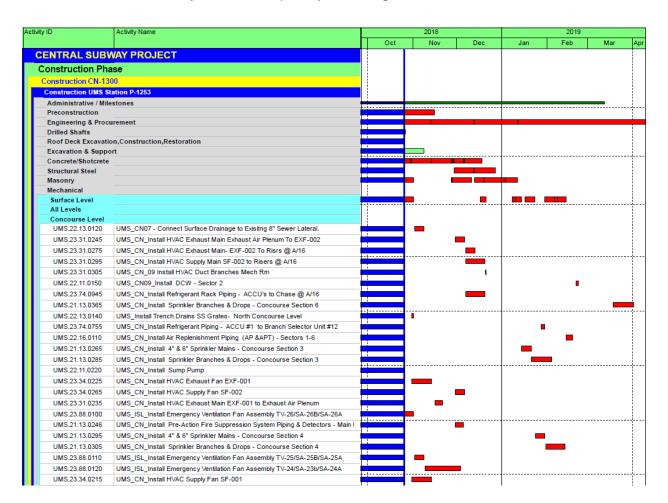

# Work Package P-1253 (UMS) has performed the following work this month:

- O'Farrell and Stockton Street: Installed sewer piping at SW corner. Paved intersection and replaced southwest and southeast corner sidewalks and curb ramps
- Platform Station: Continued construction of stairs and elevators. Continued installation of stem walls and platform deck. Installed CMU walls, placed concrete for metal decks and wale encasements at multiple levels
- North Concourse: Continued installation of CMU walls. Continued installation of fire sprinklers and MEP on Concourse and Fan levels
- South Concourse: Continued installation of fire sprinklers and MEP

# Work Package P-1253 (UMS) will perform the following work next month:

- Platform Station: Close opening at Roof Section 3B north of O'Farrell St. Complete installation of concrete wales at Concourse level. Continue construction of CMU Walls on Mezzanine and Intermediate Strut levels. Continue installation of stairs and elevators. Continue deck installation on Mezzanine, Intermediate Strut and Concourse levels
- North Concourse: Complete construction of CMU walls on Fan level. Complete installation of fire sprinklers on Fan and Concourse level
- South Concourse: Continue installation of MEP. Continue installation of walls
- O'Farrell St to Geary St on Stockton St: Install and complete construction of water main and laterals. Construct new sidewalks and curb ramps. Install Street Light at the SW corner of Geary
- Ellis St to O'Farrell St on Stockton St: Construct new sidewalks and curb ramps. Pave the roadway. Install temporary street lights

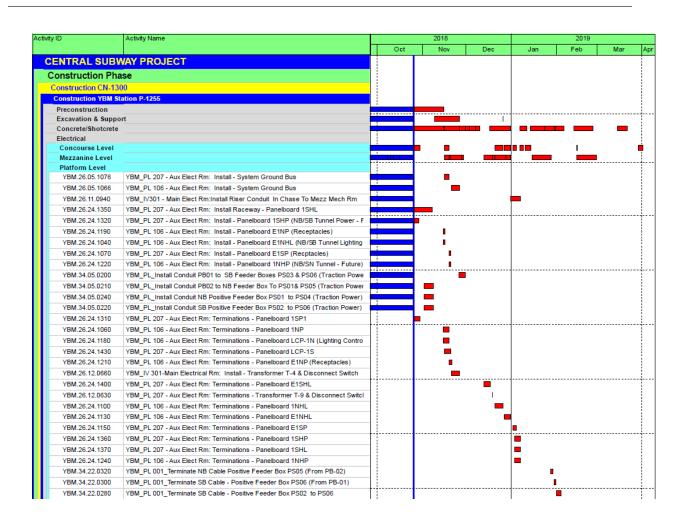

### Work Package P-1255 (YBM) has performed the following work this month:

- Re-establish utilities at 4<sup>th</sup> & Howard.
- Completed waterproofing 11 wall
- Began and completed waterproofing H-Line Wall
- Placed PG&E #7 boxes at Folsom.
- Continued installing Stair 4
- Continued installing Stair 6
- Continued installing Stair 7
- Installed geofoam at Headhouse Surface Level
- Completed F/R/P of Headhouse Surface Slab
- Poured Stair 6 walls (Headhouse Undersurface)
- Continued installing Headhouse Vent Shaft
- Continued F/R/P of Headhouse Mezzanine walls
- Continued F/R/P of Headhouse Mezzanine columns
- Installed fire sprinkler mains and piping at Headhouse Mezzanine
- Continued electrical and fire sprinkler installation in Headhouse Concourse
- Continued installing granite art panels in Station Concourse
- Continued installing crystallized glass panels in Station Concourse
- Continued F/R/P of seismic joints (Station Platform)
- Began installing traction power conduits (Station Invert)

### Work Package P-1255 (YBM) will perform the following work next month:

- Install catch basin and culvert at 4thClementina.
- Complete F/R/P of Stairs 1 and 4
- Complete installing Stair 6
- Continue installing Stair 7
- Continue installing Escalators 3 & 4
- Complete F/R/P of Headhouse Undersurface stairs
- Complete F/R/P of walls of Headhouse Vent Shaft
- Continue F/R/P of Headhouse Mezzanine walls and columns
- Continue electrical work in Headhouse Concourse
- Continue electrical work in Station Concourse
- Continue installing Granite Art Work panels (Station Concourse)
- Continue installing crystallized glass panels (Station Concourse)
- Continue installing luminous glass ceiling panels (Station Concourse)
- Continue F/R/P of seismic joints (Station Platform)

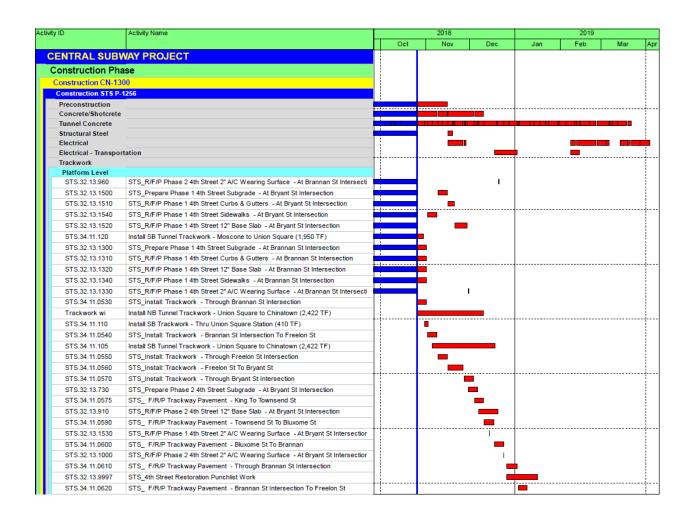

### Work Package P-1256 (STS) has performed the following work this month:

- Continued traction power conduit installation inside tunnel
- Continued installing street light pole foundations on Townsend
- Continued sidewalk and curb ramp pavement renovation at 4<sup>th</sup>/Bryant
- Continued 4<sup>th</sup>/Brannan platform construction
- Ongoing strut bracket installation in both tubes working South to North
- Continued plinth construction in tunnel
- Started track slab construction at CTS Crossover Cavern

# Work Package P-1256 (STS) will perform the following work next month:

- Continue 4<sup>th</sup>/Brannan platform construction
- Continue traction power conduit installation inside tunnel
- Continue installing street light pole foundations on Townsend
- Continue sidewalk and curb ramp pavement renovation at 4<sup>th</sup>/Bryant
- Continue plinth construction in tunnel
- Continue track slab construction at CTS Crossover Cavern

### Continue plinth construction in tunnel

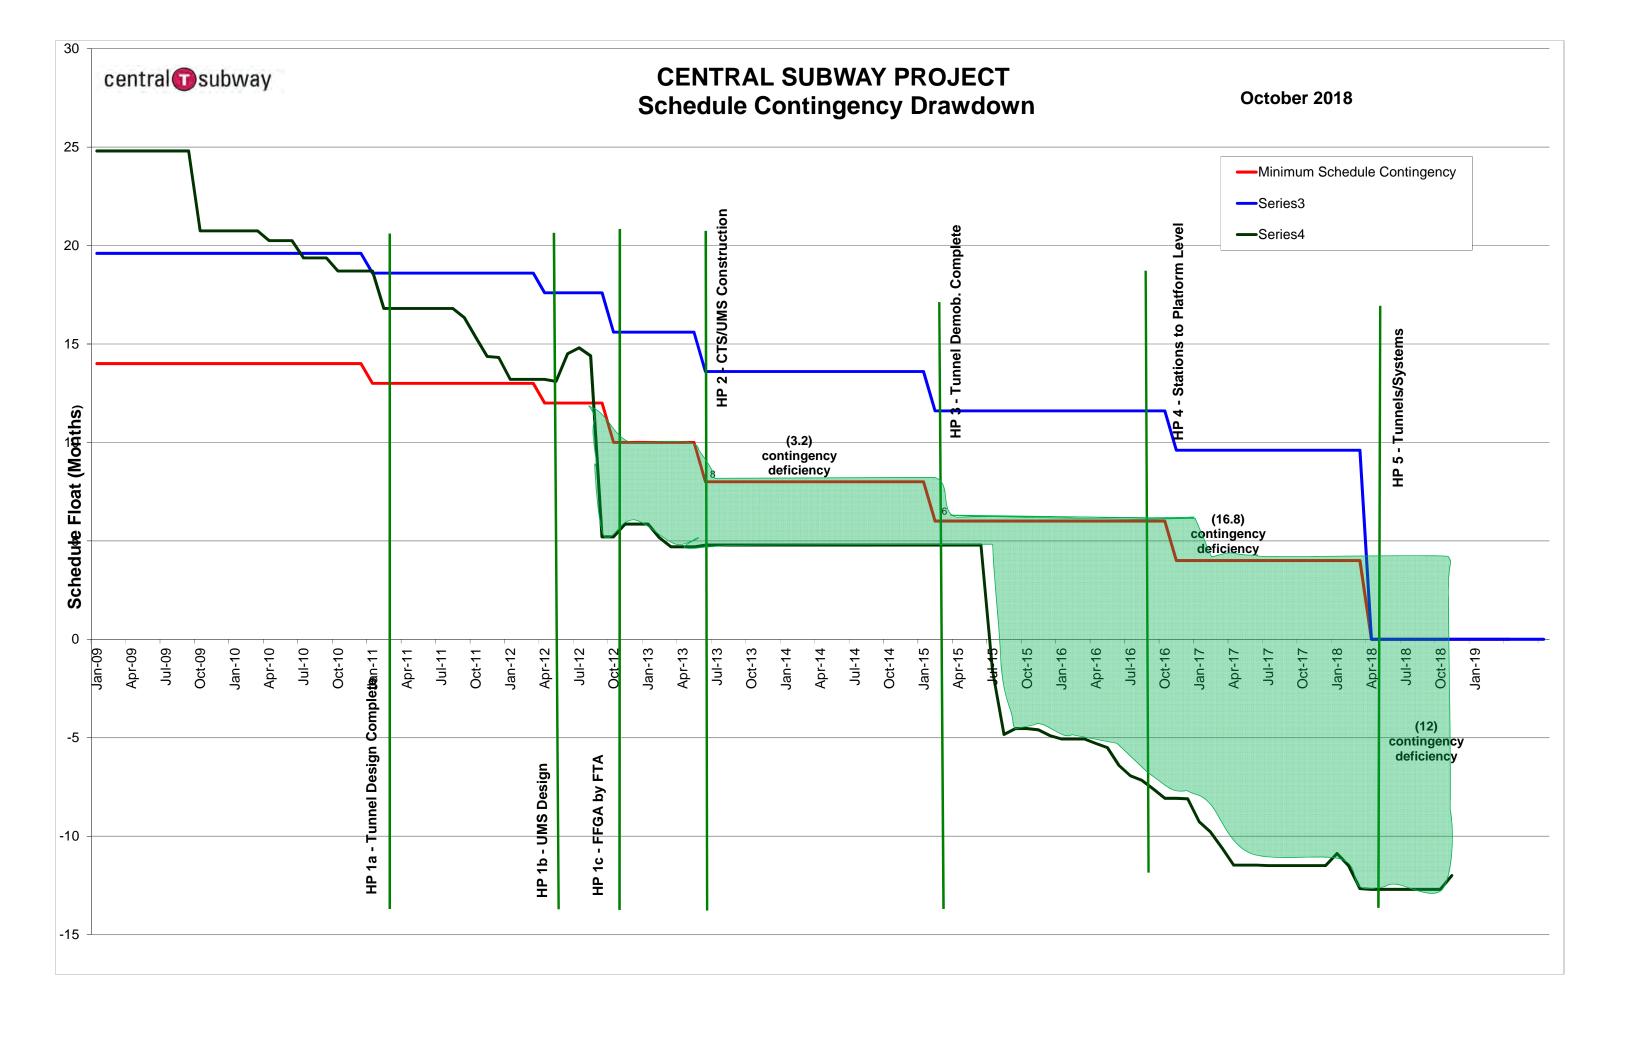

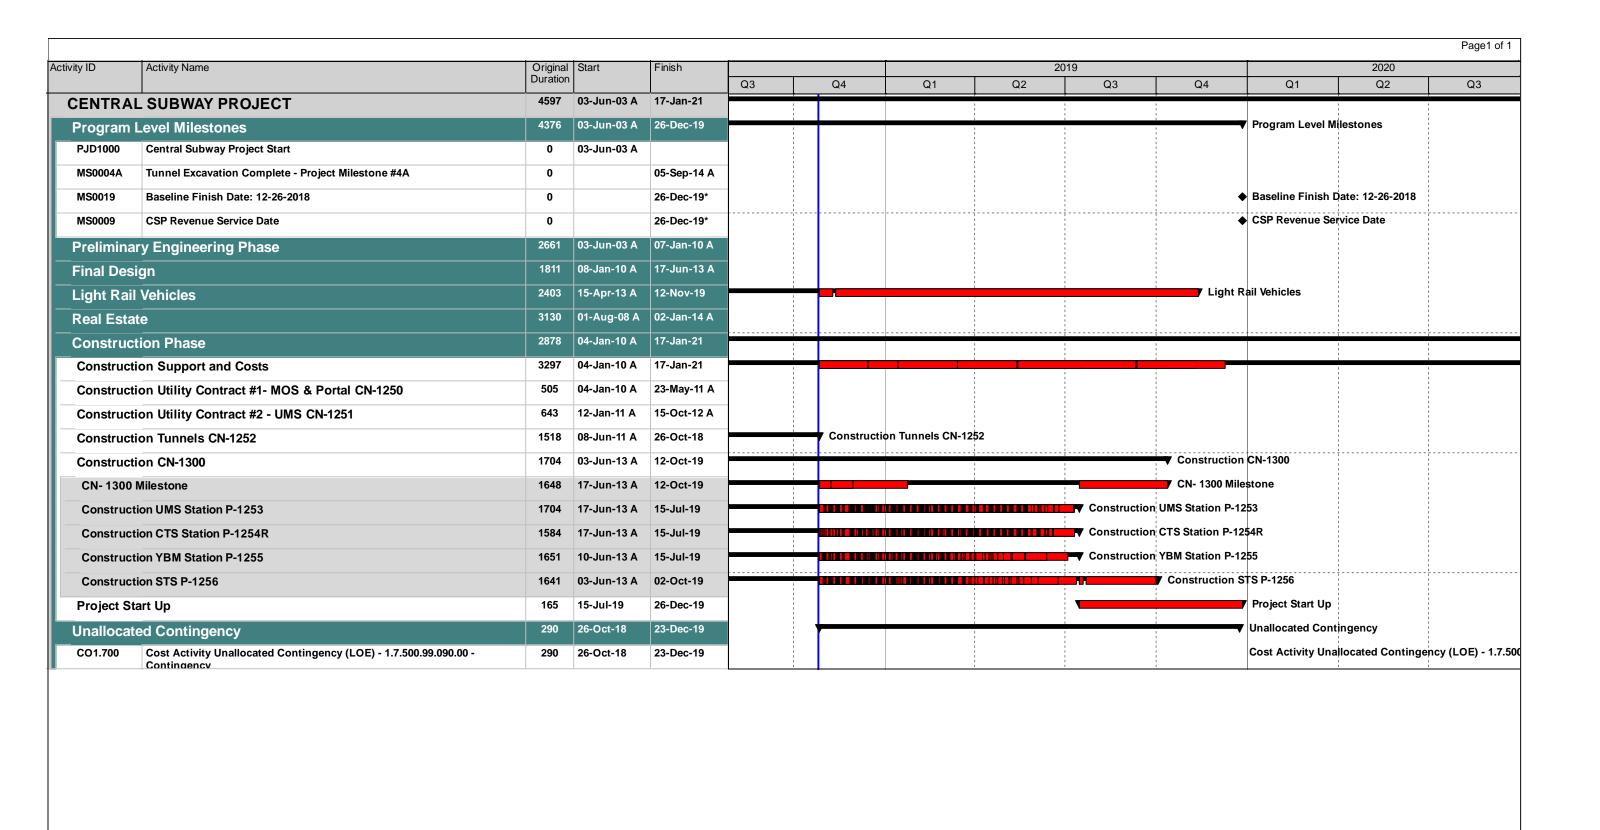

### **SCHEDULE REVISIONS**

The SFMTA Contract 1300 October 2018 schedule update was added this period to the Central Subway Project Master Schedule.

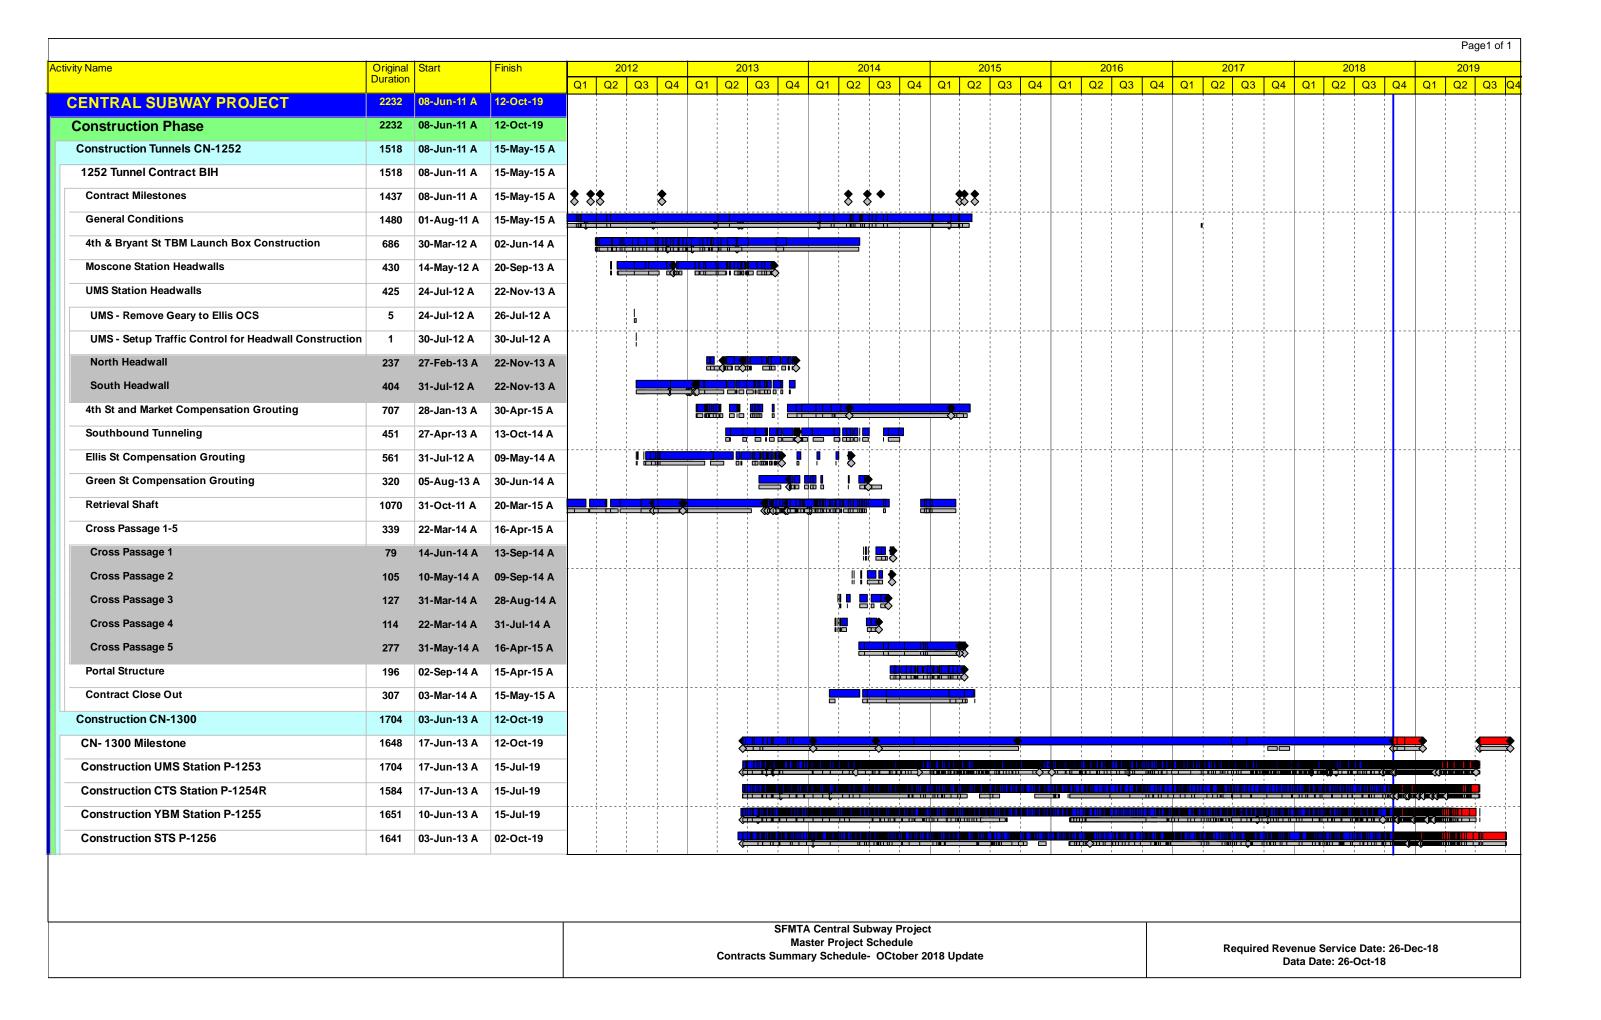

### **LIST OF SCHEDULE REPORTS**

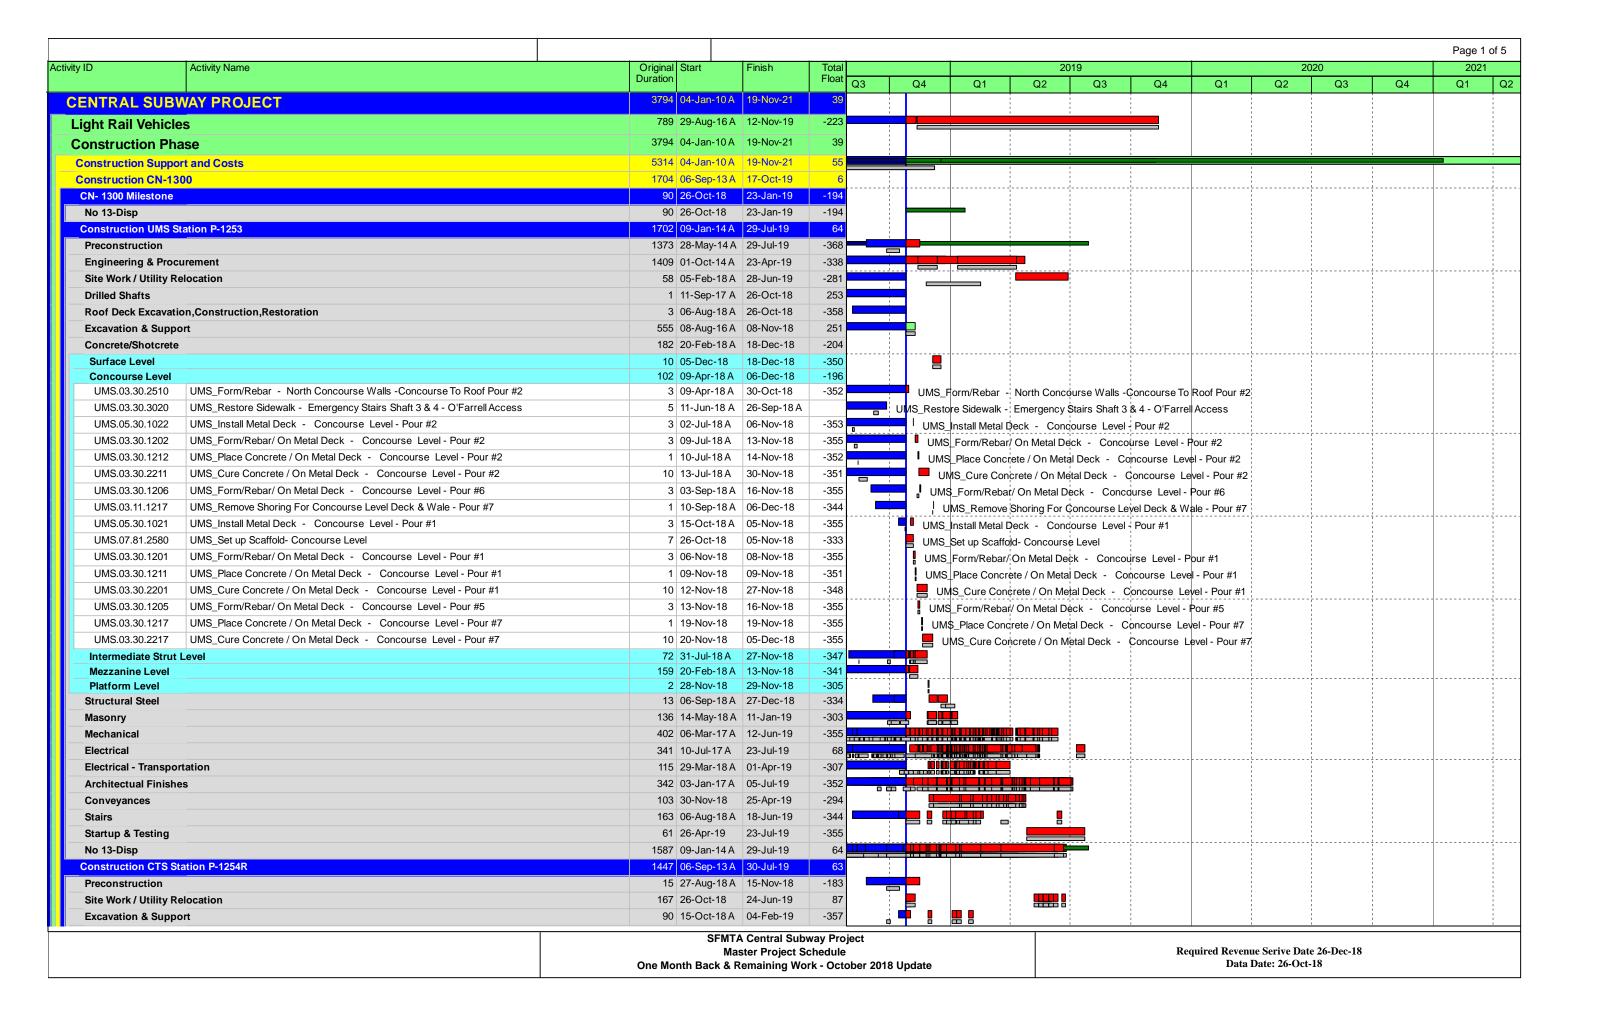

- 1.1. Schedule Contingency Drawdown
- 1.2. Master Summary Schedule
- 1.3. Program Critical Path Schedule
- 1.4. Construction Contract Summary Schedule
- 1.5. Detail Schedule for Remaining Work

SFMTA Central Subway Project
Master Project Schedule
One Month Back & Remaining Work - October 2018 Update

Required Revenue Serive Date 26-Dec-18 Data Date: 26-Oct-18

# Appendix C PROJECT SCOPE AND FUNDING OVERVIEW

# **Project Overview**

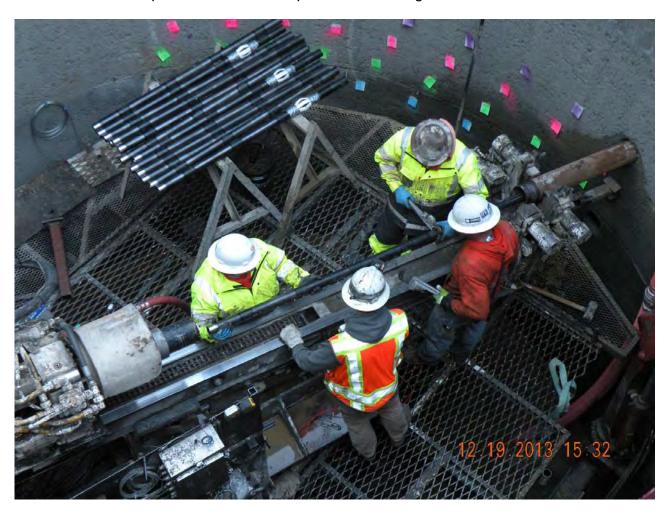

The Central Subway Project will construct a modern, efficient light-rail line that will improve public transit in San Francisco. This new 1.7-mile extension of Muni's T Third Line will provide direct connections to major retail, sporting and cultural venues while efficiently transporting people to jobs, educational opportunities and other amenities throughout the city.

The Central Subway Project is Phase 2 of the San Francisco Municipal Transportation Agency's (SFMTA) Third Street Light Rail Transit Project. Phase 1 of the project constructed a 5.1-mile light rail line along the densely populated 3rd Street corridor. It began revenue service in April 2007, restoring light-rail service to a high transit-ridership area of San Francisco for the first time in 50 years.

The Central Subway Project will extend the T Third Line from the 4th Street Caltrain Station to Chinatown, providing a direct, rapid transit link from the Bayshore and Mission Bay areas to So-Ma, Union Square and downtown.

Four new stations will be built along the 1.7-mile project alignment—an above-ground station at 4<sup>th</sup> and Brannan streets and three underground stations at Moscone Center, Union Square and Chinatown.

The Central Subway will run through the burgeoning technology and digital-media hub in SoMa, where dozens of companies have taken up residence along the 4th Street corridor. Increased

## Project Overview - continued

transit options will attract new employers – the Central Subway makes travel more convenient throughout the corridor and improves connections to downtown, local and regional rail and the Muni bus system.

The Central Subway Project will contribute to San Francisco's economic competitiveness and help secure the city's status of a regional, national and global hub. It will provide a pollution-free transit option that will reduce the environmental impact of transportation in the city, save natural resources, reduce traffic congestion and improve public transit for thousands of San Franciscans.

# **Funding Overview**

The Central Subway Project is funded by the federal government, the State of California, the Metropolitan Transportation Commission, the San Francisco County Transportation Authority (SFCTA) and the City and County of San Francisco.

The majority of funding for the Central Subway Project is expected to be provided by the Federal Transit Administration's (FTA) New Starts program, with a total commitment over the life of the project of \$942.2 million. To date, \$41 million in Department of Transportation Congestion Mitigation and Air Quality Improvement Program funds have been committed and expended.

With the addition in the December 2013 MPR of work to relocate the retrieval site for two tunnel boring machines (TBMs), the SFMTA's baseline budget for the Central Subway Project is \$1.588 billion. In total, about half of the Third Street Light Rail Transit Project's funding is from federal sources, with the remaining half from state and local sources. This is in line with the expectations of the FTA for New Starts-financed programs.

The table below summarizes the local, state and federal fund sources for both phases of the T Third Line including with the addition of the retrieval shaft to the Phase 2 totals.

	T Third (Phase 1)	Central Subway (Phase 2 + Retrieval Shaft Relocation)	Total (Phase 1 + Phase 2 + Retrieval Shaft Relocation)	Percentage of Total
Federal	\$123.380	\$983.225	\$1,106.605	49.5%
State	\$160.700	\$471.100	\$631.800	28.2%
Local	\$364.380	\$133.675	\$498.055	22.3%
Total	\$648.460	\$1,588.000	\$2,236.460	100.0%

All amounts in millions of dollars

The six charts that follow summarize use of fund sources by phase and with the addition of the retrieval shaft relocation additional budget and funding:

 Phase 1 + Phase 2 of the T Third Line federal, state and local funding percentages previous to the addition of the retrieval shaft relocation budget and funding in December 2013.

# Funding Overview - continued

- Phase 2 Central Subway Project only total funding source percentages previous to the addition of the retrieval shaft relocation budget and funding.
- Phase 2 Central Subway Project only detail of the six State and Local funding sources previous to the addition of the retrieval shaft relocation.
- The next three charts that follow are the above three data sets above with the retrieval shaft relocation budget and funding added to the overall presentation.

# **Moscone Station and Portal Utility Relocation**

#### Contract 1250

Contractor: Synergy Project Management, Inc.

Budget/Expenditures								
Category	Amount							
Original Budget	\$11,227,316							
Expenditures Final	\$11,968,150							
Utility Reimbursements	(\$2,275,419)							
Final Program Cost	\$9,692,731							
Budget Impact (Underrun)	(\$1,534,585)							

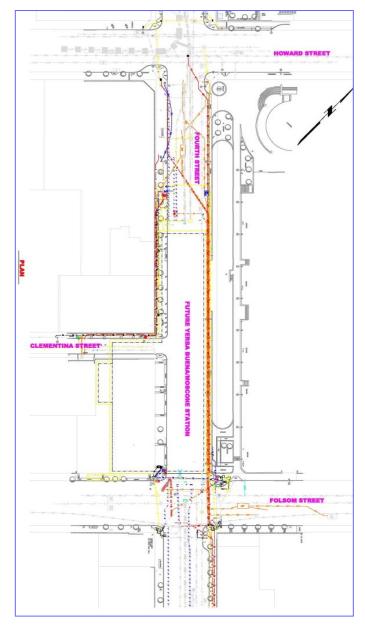

Contract Details	
Contract Awarded:	November 17, 2009
Notice to Proceed:	January 4, 2010
Substantial Completion	n: June 23, 2011
Contract Award Value:	\$ 9,273,939
Modifications Final :	\$ 2,694,211
Final Contract Value:	\$11,968,150

#### Status

- Work complete
- Project closeout administration and documentation
- Final Completion Date: June 23, 2011

# Description

This project relocates utilities within the footprint of the proposed Yerba Buena/Moscone Station and the 4th Street Portal where the tunnel boring machines will descend underground. Also included is installation of building protections and monitoring of buildings adjacent to utility trenches.

# **Union Square/Market Street Station Utility Relocation**

#### Contract 1251

Contractor: Synergy Project Management, Inc.

Budget/Expenditures							
Category	Amount						
Original Budget	\$22,199,847						
Expenditures Final	\$20,699,081						
Utility Reimbursements	(7,413,510)						
Final Program Costs	\$13,176,169						
Budget Impact (Underrun)	(\$9,023,678)						

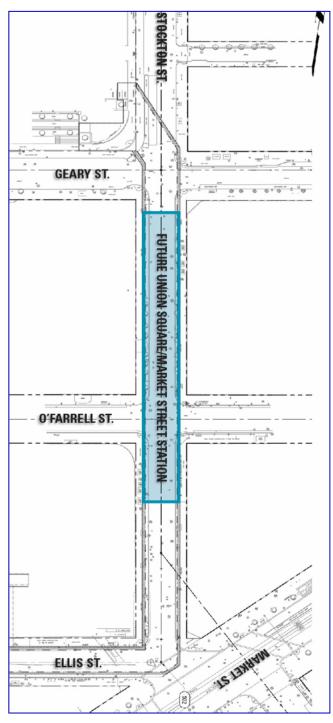

Contract Details	
Contract Awarded:	December 7, 2010
Notice to Proceed:	January 12, 2011
Substantial Completion:	August 16, 2012
Contract Award Value:	\$16,832,550
Modifications Final:	\$3,836,531
Final Contract Value:	\$20,669,081

#### Status

- Final completion on October 15, 2012
- Completed punch list work
- Project Final Acceptance on November 15, 2013
- Completed final construction contract administrative closeout in June 2017

### **Description**

This project relocates utilities for the Union Square/Market Street Station and temporarily reroutes existing trolley coach lines around the construction.

# **Central Subway Pagoda Palace Demolition**

#### Contract 1277 Contractor: MH Construction

### Work Description

Demolish and clear the former Pagoda Theater for use the site to recover the tunnel boring machines when tunnels are completed in 2015. Locate and supply contractor facilities and installations. Obtain permits and approvals and coordinate work with City agencies and utility companies. Furnish and install signs and distribute notices to the local community prior to commencing with construction, cleanup and remove of debris from the site.

- Contract funded by SFMTA Operating funds
- Work was substantially completed September 24, 2013
- Completed administrative closeout in June 2016

Budget/Expenditures	
Category	Amount
Current Budget	\$648,976
Expenditures to Date	\$648,976

Contract Details	
Contract Awarded:	June 12, 2013
Notice to Proceed:	July 15, 2013
Substantial Completion:	Sept. 24, 2013
Contract Award Value:	\$498,995
Modifications to Date:	\$149,981
Current Contract Value:	\$648,976

# **Central Subway Tunneling**

## Contract 1252 Contractor: Barnard Impregilo Healy Joint Venture

#### **Description of Work**

1.5-mile twin bore tunnels from Hwy I-80 to North Beach using two tunnel boring machines (TBMs). Contractor procurement and installation of the TBMs; construction of the TBM launch box and retrieval shaft excavation support; Yerba Buena/Moscone Station and Union Square/Market Street Station end walls; tunnel excavation and installation of precast segmental lining, the 4th Street portal transition to the surface and cross passages. Throughout, settlement monitoring and protection of existing utilities, buildings and BART tunnels.

#### **Status**

Final Completion Date: May 15, 2015

Administrative closeout in progress

Budget/Expenditures					
Category	Amount				
Current Budget	\$235,913,500				
Other Project Budget	\$5,150,000				
Other Offset Credits	\$1,312,101				
Expenditures to Date	\$233,589,322

#### **SBE Summary Table Notes and Sources:**

a) Column A is the base contract amount awarded. Column B is the Agency SBE goal percent for each contract awarded.

The SFMTA SBE Contract Goals are also on the Central Subway web site under the listing of on-going contracts – see "Closed and Awarded Contracts" at this link: <a href="http://centralsubwaysf.com/content/closed-and-awarded-contracts">http://centralsubwaysf.com/content/closed-and-awarded-contracts</a>

b) Column C shows each contract's current amount expended to date (estimated) including accruals. Column D is the actual SBE percent level of each contract based on payments to date. Column E is the expected SBE dollar amount when the contract amount is completed and the SFMTA SBE goal achieved using this calculation: Columns A \* B = Column E, the SBE Expected \$ Amount.

<sup>&</sup>lt;sup>1</sup> An SBE is a for-profit, small business concern with a three (3) year average gross revenue not exceeding \$14 million or \$12 million, depending on the scope of work to be performed, that is certified under any of the following programs: the State of California's Small Business Program with the Department of General Services ("State Program"), the City and County of San Francisco's LBE Program ("City Program"), or the California Unified Certification Program ("Federal DBE program").

Column F is the actual SBE dollar amount out of the total contract expenditure to date: Columns C \* D = Column F, the SBE Expended \$ Amount.

The source of the SBE Actual percent to date and dollar amounts are Progress Payment Applications and Contractor's monthly submittals that may include the current estimated accruals. The BIH SBE percent is from the contractor's progress payment #40, Form 6.

- c) Column G, the Contractor's SBE Goal in the submitted bid, is background information that is not calculated in the table. The table source of the Contractor's SBE Goals is from the SFMTA Contract Compliance Office. A Contractor's SBE goal in the bid is one source used by SFMTA Contract Compliance to assess and propose the Agency's SBE goal for a contract.
- d) The three constructions contracts shown in **bold type**, **1250**, **1251 and 1277**, with gray background, are completed contracts. Little to no changes will be shown in future reports.
- e) The SBE Hill International Actual to Date SBE participation is 30.0% for the overall SFMTA contract. The Hill International data is for the Central Subway Task 1 portion of the Hill International contract to provide SFMTA Project Controls services and systems.
- f) The SBE SFMTA goal for Contract 1300 Tutor-Perini is 20% SBE with a provision of 50% for trucking.
  - The 1300 Tutor-Perini SBE percent Actual is based on the SBE data provided in Progress Payment #57, September 2018, SFMTA SBE FORM No. 6.
- g) The SBE SFMTA goal for Contract 1277 MH Construction was based on an SBE set-aside.

#### **SBE Participation Details**

The two tables that follow present the Central Subway's professional services and construction contract amounts, expenditures and SBE levels with additional details.

Photos on the next page:

(top to bottom) September 2018: At Chinatown Station, waterproofing, rebar, and concrete forms are installed inside the track crossover and platform caverns. Steel framing for escalators and stairs was installed at the south headwall, in addition to many interior walls and structures at Union Square/Market Street Station. At Yerba Buena/Moscone station, the final headhouse roof slab elements are constructed following the completion of the major structural elements. Concrete forms are built to construct the Surface station platform at 4<sup>th</sup> and Brannan Streets.
