

# M OCEAN VIEW IMPROVEMENTS

## Transit and Safety Improvements

Starting fall 2017, the M Ocean View will undergo vital pedestrian safety and transit system upgrades to improve safety and reliability through the corridor and keep M trains moving through busy 19th Avenue traffic.

Upgrades to the transit system include a track replacement and added train sensors to improve how trains move through intersections between the Stonestown platform and Rossmoor Drive. New train sensors will help keep the train moving through the intersection and avoid needless delays due to vehicle traffic. Pedestrian safety improvements include a pedestrian refuge at 19th Avenue and Junipero Serra, accessible ramps, and vehicle deterrents at the Muni track entrance to prevent people from driving onto the trackway.

## 19th Avenue and Junipero Serra: Safety Improvements for Pedestrians and Muni

- Fall 2017
- New pedestrian refuge for people walking across 19th Avenue
- Intrusion treatments at track entrance to deter people from driving into the trackway
- New train sensors to keep trains moving through the intersection
- Traffic lanes and crosswalks restriped to accommodate refuge

-  Vehicle intrusion treatments
-  Sidewalk sections to be removed
-  New crosswalk alignment
-  New sidewalk alignment

Sidewalks will be open during construction. Signage will be posted in advance if a bus stop needs to be temporarily moved. Construction materials and equipment will be temporarily stored on southbound Junipero Serra. 19th Avenue will remain open for vehicle traffic, but one lane in each direction may be temporarily closed for construction work.

## 19th Avenue and Rossmoor Drive: Keeping Muni Moving

- Fall 2017
- New train tracks between Stonestown train platform and private Muni right-of-way at Rossmoor Drive
- Existing traffic signal relocated to Rossmoor to keep the tracks cleared of cars
- New train sensors to keep trains running through the intersection
- New accessible ramps at 19th Avenue/Rossmoor

A portion of curbside parking on southbound 19th Avenue between Winston Drive and Eucalyptus Drive will be temporarily removed to provide construction staging space. Sidewalks will be open during construction. Signage will be posted in advance if a bus stop needs to be temporarily moved.
