UPDATE: Townsend Corridor Improvement Project

During the weekend of October 5-6, there will be construction on the south side of Townsend Street across from the 5th Street intersection, as well as mid-block between 4th and 5th streets. As a reminder, all parking and passenger loading zones have been removed on Townsend Street between 4th and 5th streets except for Muni buses.

Temporary passenger loading zones for private cars, ride hail, paratransit, private shuttles and other vehicles are now located on both sides of Townsend Street mid-block between 3rd and 4th streets. Customers should be aware that at times during construction there may be temporary stop changes on Townsend Street between 4th and 5th streets for the following lines:

- 10 Townsend
- 47 Van Ness
- 83X Mid-Market Express

- Planned for summer 2020, train services will temporarily be substituted with bus shuttles during construction
- The duration of the project is approximately three years

Since Thursday, August 15, traffic pattern on lower Great Highway between Ulloa and Santiago streets has been changed. CONSTRUCTION WORK AND OTHER UPDATES *continued*

ONGOING: Third Street Bridge Rehabilitation Project *continued*

Since July, crews have begun phase two of the rehabilitation work. Phase two construction work involves travel lane shifts and other adjustments to the roadway and work area. Vehicle and bicycle access via travel lanes across the bridge continue to be available in each direction, northbound and southbound (**except during periods of full temporary bridge closures when the pending scope of work restricts access across the bridge for all vehicle, bicycle and pedestrian traffic**). Pedestrian access is available via the sidewalk along the eastern side of the bridge. People on bike may also choose to walk their bicycle along the pedestrian sidewalk as an alternative to riding across the bridge via the travel lane. Pedestrian access via the sidewalk along the western side of the bridge may be unavailable during different phases of upcoming work.

To complete remaining rehabilitation work, the Third Street Bridge will be closed to all vehicle, bicycle and pedestrian traffic beginning at 8 p.m., Sunday, September 29 to 11:59 p.m., Friday, October 4.

4th Street Bridge is open and access across the bridge is generally available throughout the Third Street Bridge closure. Please note that during peak commute hours (Monday through Friday, 7 to 10 a.m. and 3 to 7 p.m.), and at the discretion of parking control officers and SFPD, access may be temporarily restricted to clear congested traffic through the area and to allow trains through. Vehicles will be redirected to alternative detour routes.

Construction scheduling is subject to change due to rain or other weather delays, equipment breakdown, and/or unforeseen field conditions. Additional periods of short closures may be possible in September and October 2019, if necessary, to complete remaining rehabilitation work. Information will be shared closer to that period should additional closures seem necessary and details are finalized. Updates will be posted to the project webpage. For details about the project, the latest construction updates and suggested detour routes for pedestrians, bicyclists and vehicles, visit: www.sfpublicworks.org/thirdstreetbridge.

A partial street closure is currently in effect in order to accommodate duct bank work on Illinois Street between 18th and 19th streets through summer of 2019.
