

7th Street Quick-Build Safety Project

Business Loading Survey

sfmta.com/7th

The 7th Street Quick-Build Safety Project is an effort to make 7th Street more safe and comfortable for all road users through new transportation improvements including protected bikeways, transit boarding islands, and signal changes.

The SFMTA project team understands the importance of loading to businesses. We will work with the local community to ensure access to passenger and commercial loading zones in the new street design.

Please answer these questions about your loading operations. Surveyors will collect your completed survey or complete it online at www.bit.ly/31L8BeL. Scanned surveys may be sent to Jeffrey Banks at jeffrey.banks@sfmta.com. Thank you!

About you and your business:

Name

Address

Business

Phone

Email

Business type

Please provide the following information about how your business uses loading:

1. My business usually does its loading:

Multiple times a day

Daily

Every other day

Several times a week
