

PARKING AND TRAFFIC REGULATIONS FOR WORKING IN SAN FRANCISCO STREETS (“THE BLUE BOOK”)

This manual serves as a guide for working in San Francisco streets. Parties working in San Francisco streets are hereinafter referred to collectively as “Contractor” or “Applicant.”

This manual establishes rules and guidance so that work can be done both safely and with the least possible interference with pedestrians, bicycle, transit and vehicular traffic. All traffic control, warning and guidance devices must conform to the California Manual on Uniform Traffic Control Devices (MUTCD). In addition to the regulations in this manual, Contractor is responsible for complying with all applicable city, state, and federal codes, rules and regulations. This manual also contains relevant general information, contact information, and procedures related to working in the public right of way controlled by agencies other than the San Francisco Municipal Transportation Agency (SFMTA).

The party responsible for setting up traffic control shall be held accountable and responsible if traffic control does not meet the guidance and requirements established by this manual and state requirement.

The authority for establishing the Blue Book is derived from the [San Francisco Transportation Code](#).

Prepared by:
San Francisco Municipal Transportation Agency
Streets Division
San Francisco, California

Revised September 26, 2024

This free manual can be obtained from, free of charge at:
San Francisco Municipal Transportation Agency, Streets Division,
1 South Van Ness Avenue, 7th Floor, San Francisco, CA 94103-5417

A copy of this manual, including future updates and revisions can be viewed at the following website: <http://www.sfmta.com/bluebook>

TABLE OF CONTENTS

SECTION 1: PERMITS REQUIRED TO WORK ON CITY STREETS	7
1.1 Permits Issued by SFPW	7
1.1.1 Excavation Permit.....	7
1.1.2 Temporary Occupancy Permit	7
