## CONSTRUCTION WORK AND OTHER UPDATES *continued*

### UPDATE: L Taraval Improvement Project—Segment B *continued*

Work continues on water lines, as well as on the overhead contact system (OCS) that powers the trains. OCS work has transitioned to underground conduit work to support power to the trains and the new and existing streetlights. Curb ramp work has started with demolition and grading areas in preparation for construction of the new boarding ramps and to upgrade existing boarding ramps. Track work is expected to begin over the next few weeks.

The rail tracks west of the intersection of Ulloa and Madrone streets have been taken offline to facilitate the reconstruction of the water and sewer mains as well as replace the tracks and overhead lines. The upgraded sewer and water lines, permanent boarding islands and increased accessibility will make riding safer and more reliable.

The L Bus now runs between West Portal and the SF Zoo. Customers can transfer to a train at West Portal Station to travel downtown.

The inbound stop at Taraval Street and 15<sup>th</sup> Avenue has been relocated across the intersection until fall 2024.

The relocation will be until the end of construction after the new tracks are laid and the L Taraval rail service is reactivated.

The tracks along Taraval Street have been prepped for foundation pours and installation of new rail. Beginning the week of July 17, concrete slabs will be poured one block at a time starting from 28<sup>th</sup> to 29<sup>th</sup> avenues, then from 29<sup>th</sup> to 30<sup>th</sup> avenues, and then from 30<sup>th</sup> to 31<sup>st</sup> avenues. Each block is expected to take about one week to complete through Monday, Aug. 14.

During construction:

- No parking along the construction area will be allowed.
- One side of the road will be closed temporarily for cement trucks to make multiple deliveries of concrete and during the pours.

On Saturday, July 22, between 8 a.m. and 4:30 p.m., construction crews will perform waterline, excavation and backfill work on Taraval Street at 19<sup>th</sup>, 20<sup>th</sup>, 24<sup>th</sup>, 33<sup>rd</sup> and 35<sup>th</sup> avenues.

On Monday, July 24, preparations for track work between 16<sup>th</sup> and 19<sup>th</sup> avenues is expected to begin.

### UPDATE: L Taraval Improvement Project—Segment B *continued*

During construction, the following impacts to travel in the track areas are in effect:

At times, traffic may be stopped briefly to allow large machinery to perform work. Please allow extra travel time.
- **By bus:** The L Bus may be rerouted around the construction area when heavy equipment is present. The 66 Quintara Muni route is being rerouted at 28<sup>th</sup> Avenue around construction. No bus stop relocations are planned at this time.
- **On foot:** Pedestrians will be able to cross Taraval Street in the construction area at 30<sup>th</sup> Avenue via a pedestrian access during non-construction hours and weekends.

Construction is scheduled to take place from 8 a.m. to 5 p.m., Monday through Friday. Extreme weather conditions may impact the construction schedule.

### **ONGOING: 19th Avenue (CA Route 1) Combined City Project**

San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19<sup>th</sup> Avenue between Holloway Avenue and Lincoln Way.

Construction work for the first and second segment of this project along 19th Avenue between Lincoln Way and Taraval streets was completed. Construction work for bulbouts in the third and fourth segment along 19<sup>th</sup> Avenue between Taraval Street and Holloway Avenue is ongoing.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19<sup>th</sup> Avenue, the SFMTA will: 1) install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; 2) modify traffic and pedestrian signals to give people who walk more time to cross the street; and 3) extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue last October. The following Muni routes have been affected with the stop removal:

- 28 19th Avenue
- 91 3rd Street/19th Avenue Owl

To find additional information about the transit reliability and pedestrian safety components, visit [sfmta.com/28Rapid](https://sfmta.com/28Rapid). For overall project information, visit [sfpublicworks.org/19th-Avenue](https://sfpublicworks.org/19th-Avenue).
