

## WHAT IF I ARRIVE AT THE AIRPORT EARLY?

If you arrive at the airport before you are called, you may use the new "Remote Taxi Hold Lot" if you wish.

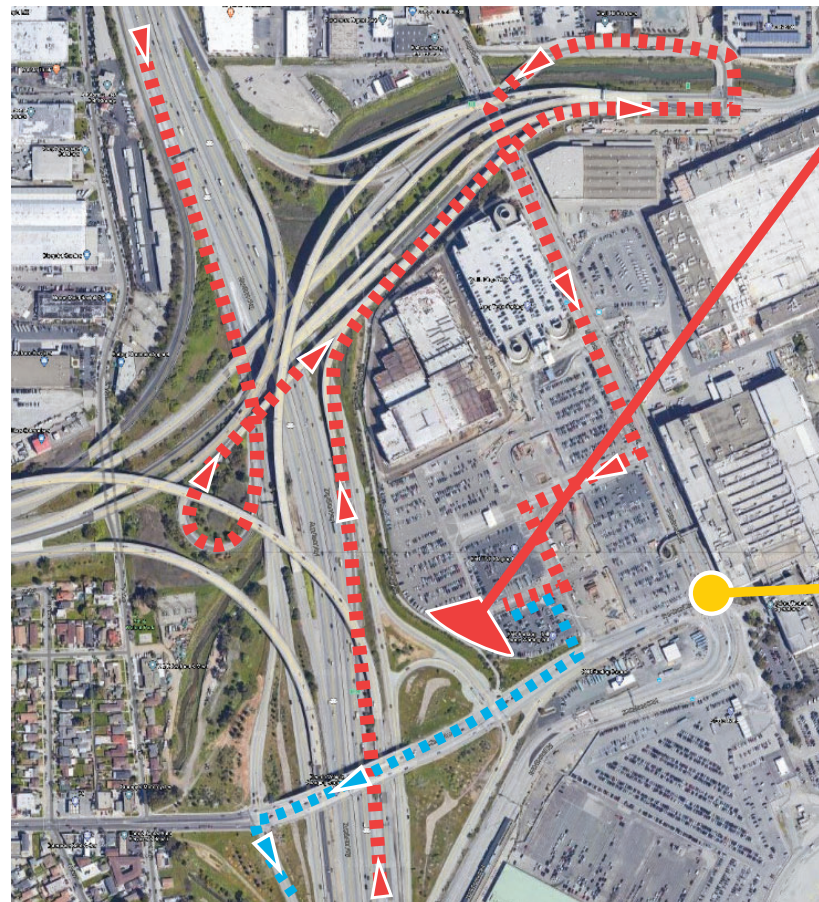

**THIS IS NOT REQUIRED IF IT IS ALREADY YOUR TURN TO ENTER SFO**

**Access is via the North Access Road highway exits ONLY. (Shown in RED)**

Follow signs from US 101 and 1-380 to North Access Road. Turn left at the first two lights. Turn right into the parking lots where it says "Taxi Lot" (the second light), then keep following the signs (left then right).

**When it's your turn to come to the airport, use the San Bruno Ave on ramps (Shown in BLUE).**

Exit the Lot and turn right twice. Turn left at the second light to enter the freeway. Follow signs to the domestic terminals, and enter the taxi lot as normal.

### Remote Taxi Hold Lot

This lot is only intended to be used for short periods.

The lot will be monitored and you may need to show your app to the coordinator.

If your position in line is greater than the number of taxis called in the last hour, you may be asked to leave.

### Do NOT access the lot by making a U-Turn on San Bruno Ave.

This intersection will be monitored and you will be cited.
