# Muni Metro Station Enhancements

EMSC June 2018

# Existing Conditions

# Scope

- Scope: Replace-in-kind fixes to improve travel information, customer experience and streamline maintenance at Muni Metro Stations (Embarcadero to West Portal)
  - Treatments include: wayfinding signage, station improvements such as paint and lighting (if applicable)
- Project split into two phases:
  - Phase 1: wayfinding signage at all stations, station improvements at Church, Castro & Powell
  - Phase 2: station improvements at remaining 6 stations

# Wayfinding Signage

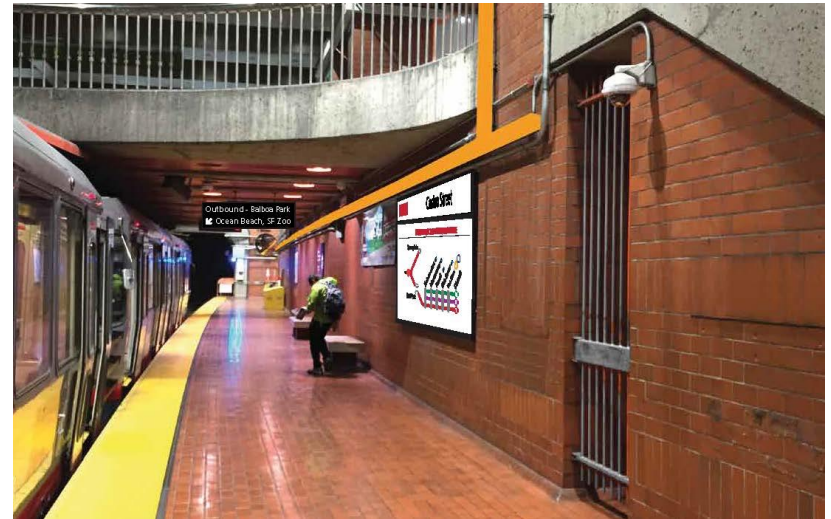

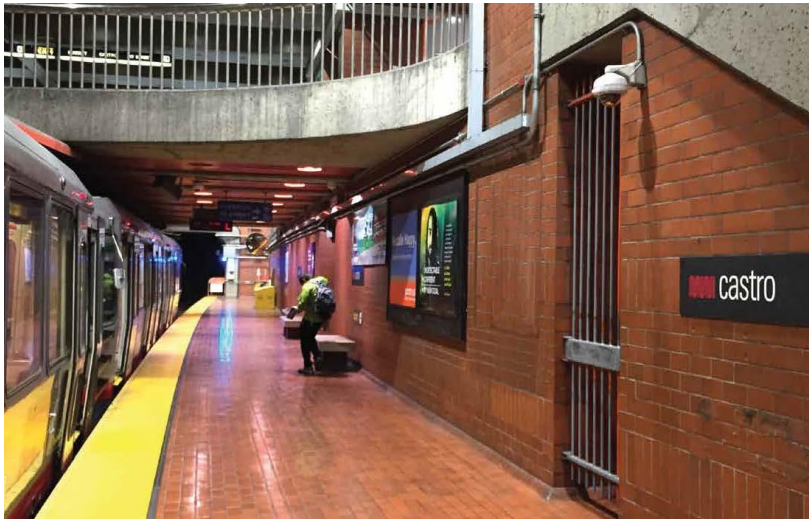

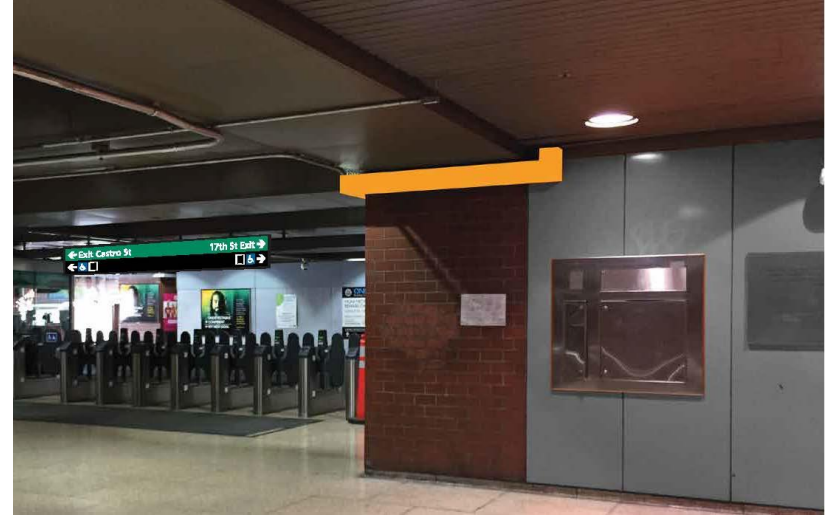

- Utilizes MTC Style Guideline, complements BART's platform and concourse signage
- To improve customer information, guides passengers to/from platforms and exits, to make correct, easy decisions on travel
