Central Subway Project Contact Information	E5

<u>Cover photo:</u> A crew methodically builds concrete form reinforcing as part of work to build the 4th and Brannan surface station platform. Heavy duty wood reinforcing will hold the weight of formwork and eventually reinforced concrete as it cures to become the future station platforn's surface. More photos can be found starting on page 35.

Above photos: The staircase accessing the platform level from the south concourse connecting to Powell Station is beginning to take shape. Corrugated steel underlay has been installed, as well as concrete formwork and some rebar, prior to pouring concrete, installing railings, and adding aesthetic elements.

See the Appendix E final page for CS websites hyperlinks and public outreach on line resources. The Project main web site is at: http://www.centralsubwaysf.com/

Pedestrians at O'Farrell and Stockton pass by an active concrete pour for shotcrete work in the Union Square/Market Street Station below.

Executive Summary

Chinatown Station - Completed installing rebar at Crossover Cavern arches. Completed waterproofing installation at Platform Cavern arches and North Platform Cavern headwall. Continued street work (minor), ongoing monitoring and surveying. Continued installing rebar, electrical, and plumbing for Platform slab at Headhouse.

Union Square/Market Street Station - Platform Station: Completed installation of "Scalloped Walls" at Platform Strut and Platform levels. Emergency exit stairs 3 and 4: Completed installation of curb, gutter, and sidewalk construction in front of Macy's Men's store. North Concourse: Continued placing fireproofing for struts and roof beams at Concourse levels. South Concourse: Lowered Escalator 7 in the pit. Ellis Street: Completed sidewalk restoration work at Ellis Street. Continued to restore Ellis and Market Street pavement.

Yerba Buena/Moscone Station - Continued to replace the force main and AWSS at 4th & Howard. Continued work related to the installation of PG&E #7 boxes. Began installing surface level deck (Headhouse Surface). Began removing shoring, struts, and walers at Headhouse Mezzanine. Began F/R/P of vent shaft beams at Headhouse Mezzanine and walls. Continued removing shoring, struts, and walers at Headhouse Concourse area. Continued F/R/P of walls, electrical work, and installing ducts in Headhouse Concourse.

Surface, Track and Systems– Continued electrical conduit installation inside tunnel. Continued pulling traction power cables on 4th Street. Continued installing luminaire arms and luminaries on 4th Street. Ongoing strut bracket installation in both tubes working South to North. Tunnel emergency walkway and cable trough installation ongoing in both tubes.

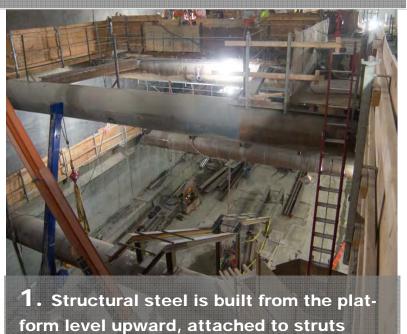

Tunnel - Contract administrative closeout is ongoing.

Total project costs to date are \$1,232.29 million, an increase of \$7.49 million over last month. The total cost to date equals 78.08% of the total project budget of \$1.578 billion. The Master Project Schedule forecasts a Revenue Service Date of January 2020.

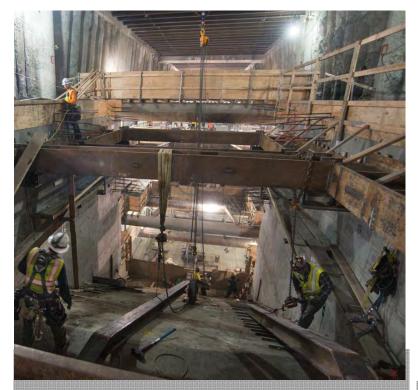

The Stations Contractors' Safety Reports should show one recordable accident took place this month. The rates of work site accident incidents by the man hours worked continue to be below industry standards - see tables on page 31.

Key Milestones

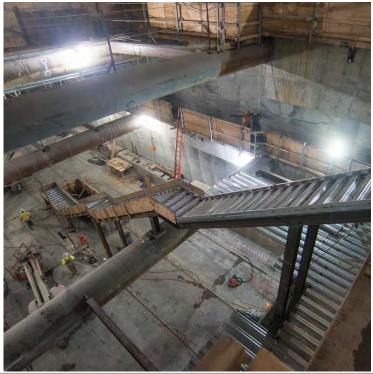

Constructing south concourse stairs at UMS, part 1

MILESTONE	DATE EXPECTED
General	
Revenue Service	January 2020
Contract 1300 Stations, S	urface, Track, Systems
Notice to Proceed (NTP 1)	June 17, 2013 (A)
Notice to Proceed (NTP 2)	January 12, 2014 (A)
Substantial Completion	February 28, 2018

2 Structural steel is installed in the angled cut in the south headwall

3 All structural steel is installed, along with corrugated steel underlay

Costs and Schedule

Costs (See Appendix A for Details)

The Current Cost Estimate (CCE) for the Central Subway Project is **\$1.578 billion** in year of expenditure dollars (\$YOE). This total project cost is shown at the top of Report 7.1, Program Project Budget. This capital cost projection incorporates allocated and unallocated contingencies to cover the risks associated with the project completion.

Total net incurred costs for the project are \$1,232.29 million, a \$7.49 million increase over last month. The cost to date figure reflects expenditures through FAMIS 786 Report (\$1,196,.89 million) plus the utilities joint trench Form B Reimbursement payment (\$11.27 million), invoices currently being processed (\$18.89 million) and estimates of outstanding pay requests (\$5.27 million). This incurred amount equals 78.08% of the total project budget of \$1.578 billion.

The current funding level to date is \$1,494.00 million and includes Prop K \$13.75 million FY2018/2019 RTIP Fund Exchange appropriated in June 2018. This represents 95% of the total project budget.

Earned Value Analysis

In July 2018 Report, the Preliminary Earned Value Analysis reports is based on the SFMTA July Schedule Update. The Planned Value, Earned Value, Actual Cost, Percent Complete and resulting indexes as follows:

Preliminary July Earned Value

Overall Budgeted Cost:	\$1,578,300,000
Planned Value:	\$1,526,333,656
Earned Value:	\$1,242,178,166
Actual Cost:	\$1,232,288,344
Schedule Performance Index (SPI):	0.81
Cost Performance Index (CPI):	1.01
Percent Complete:	78.6%

^{*}July 2018 Notice: The City continues to transition from FAMIS to Financial System Project (FSP). During the transition, we are unable to provide accurate financial updates. Once FSP is updated and validated, we will reconcile our reports accordingly. We will be projecting current expenditures and anticipate the reconciled updates will be available early next year.

Please note that we continue to experience problems that are being caused by error and inaccuracy from the transition. The sources of error include errors resulting from mapping index codes in the old FAMIS system to translating chartfield accounts in the new Financial System Project as well as errors arising through processing such as abatements and adjustments being assigned to the incorrect account. As we continue to address these data quality problems through data cleaning, you will continue to see monthly fluctuations as we detect and remove errors and inconsistencies from data in order to improve on the quality of data so that we will be able to report accurate data.

Schedule Highlights

The Master Project Schedule (MPS) below includes progress through July 2018. The July 2018 Schedule Update submittal from Contract 1300 Contractor was not submitted as the CN1300 Contractor has not provided the updated corrections to their June through April 2018 Schedule Updates. The Contract 1300 schedule represented in this report is based on the SFMTA July 2018 Schedule Update.

The MPS shows a forecast Revenue Service Date of January 2020.

The controlling critical (longest) path of the MPS runs through the Headhouse Concrete work, followed by Electrical activities, STS Startup & Testing, Commissioning and Pre-Revenue Activities to the Baseline Finish and Revenue Service Date. See Appendix B – Longest Path. The latest schedule shows the longest path running through the Chinatown Station (CTS). Contractor is required to implement a Recovery Schedule to put the Project back on schedule.

Schedule Contingency is fully utilized on the critical path of the MPS, which is below the Minimum Schedule Contingency level of 6 months. A schedule re-evaluation will be performed, utilizing the updated Contract 1300 Schedule. Recovery options are being implemented in key areas as work proceeds. SFMTA continues to meet with Contractor to discuss all schedule concerns and comments. CTS Headhouse concrete invert slab will require additional rebar than originally estimated impacting the schedule. Contract 1300 Schedule shows no change in July with the same forecasted Revenue Service Date of 14 January 2020.

Contract 1300 Contractor submitted forty two (42) Schedule Updates from December 2014 to June 2018. SFMTA rejected twenty six (26) Schedule Updates from January 2016 to April 2016 and June 2016 to April 2018 due to multiple and repetitive issues that vary from incorrect working sequences to unrealistic forecasted completion dates to artificially steering the schedule longest path through certain portions of the project. SFMTA approved as noted December 2014 through December 2015, and May 2016 Schedule Updates. Contractor has been directed to develop a Recovery Schedule as required by Contract to mitigate the current forecasted project delay. The 18 month "gap" of missing Schedule Updates at the beginning of the job has interfered with efficient resolution of Contractor's assertions of Unavoidable Delay to the project-wide Substantial Completion date, which is additionally impacting the Contractor's review of options for schedule recovery.

Contract 1300 - WP1253 UMS / WP1254R CTS / WP1255 YBM / WP1256 STS:

The Contractor, Tutor Perini Corporation's (TPC) baseline schedule is incorporated into the master program schedule. The preliminary SFMTA Contract 1300 July 2018 schedule is used within the July Report. The SFMTA Contract 1300 July 2018 schedule is based on the approved baseline schedule logic with adjustments made for fixing retained logic and lags. The SFMTA will continue to use the SFMTA Contract 1300 schedule update as a forecasting tool going forward until the Contract 1300 Contractor submits an acceptable schedule that addresses all of SFMTA scheduling concerns.

Passages connecting the Yerba Buena/Moscone Station headhouse and station box are being jack-hammered through the reinforced concrete slurry wall separating them.

Schedule Highlights - Continued

Work Package P-1254R (CTS) has performed the following work this month:

- Completed installing rebar for Crossover Cavern arches
- Continued installing formwork and placing concrete for Crossover Cavern arches
- Completed waterproofing installation at Platform Cavern arches
- Completed installing waterproofing at North Platform Cavern headwall
- Continued installing rebar and formwork for Crosscut Cavern headwall
- Continued waterproofing installation at Crossover Cavern arches
- Continued street work (minor), ongoing monitoring and surveying
- Continued installing rebar, electrical, and plumbing for Platform slab at Headhouse

Work Package P-1253 (UMS) has performed the following work this month:

- Platform Station: Completed installation of "Scalloped Walls" at Platform Strut and Platform levels. Completed installation of North Ring Beam
- Emergency exit stairs 3 and 4: Completed installation of curb, gutter, and sidewalk construction in front of Macy's Men's store
- North Concourse: Continued placing fireproofing for struts and roof beams at Concourse levels. Continued to place fireproofing at Mezzanine level
- South Concourse: Escalator 7 lowered in the pit
- Ellis Street: Completed sidewalk restoration work at Ellis Street. Continued to restore Ellis and Market Street pavement

Work Package P-1255 (YBM) has performed the following work this month:

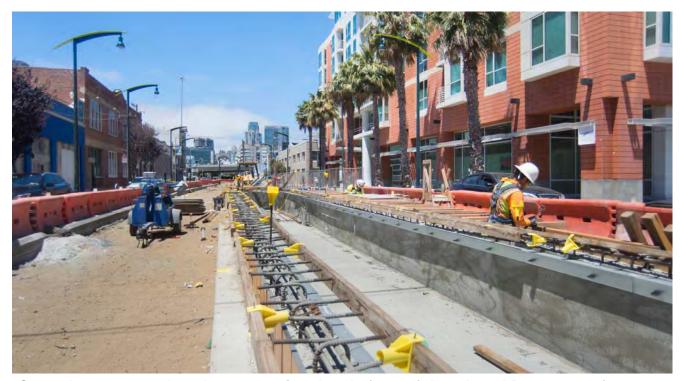

- Continued to replace the force main and AWSS at 4th & Howard
- Continued work related to the installation of PG&E #7 boxes
- Began waterproofing 11 wall
- Began F/R/P of Stair 1
- Began demo of Stair 4 opening
- Began installing surface level deck (Headhouse Surface)
- Poured Headhouse Undersurface walls (Headhouse Undersurface)
- Began installing Headhouse Vent Shaft
- Began removing shoring, struts and walers at Headhouse Mezzanine area
- Began F/R/P of vent shaft beams (Headhouse Mezzanine)
- Began F/R/P of Headhouse Mezzanine walls
- Continued removing shoring, struts and walers at Headhouse Concourse area
- Continued F/R/P of walls in Headhouse Concourse

Schedule Highlights - Continued

- Continued electrical work in Headhouse Concourse
- Continued installing ducts in Headhouse Concourse
- Continued sealing leaks in Headhouse Invert

Work Package P-1256 (STS) has performed the following work this month:

- Continued electrical conduit installation inside tunnel
- Continued pulling traction power cables on 4th Street
- Continued installing luminaire arms and luminaires on 4th Street
- Ongoing strut bracket installation in both tubes working South to North
- Tunnel emergency walkway and cable trough installation ongoing in both tubes

Crews have resumed work constructing the platform of the 4th and Brannan surface station in SoMa.

A crew meets to discuss next steps during construction of rebar cages for the platform level floor slab inside the Chinatown Station headhouse.

Contracts & Construction

Construction Contracts In Progress

Contract 1300: Combined Work Packages 1253, 1254, 1255, 1256

Contractor: Tutor - Perini Corporation

Amount: \$848.67 million

• Contract Status: 72.87% complete construction

Contracts Completed

See Appendix D

Contract 1250: Moscone Station and Portal Utilities Relocation

Contract 1251: Union Square/Market Street Station Utility Relocation

Contract 1277: Pagoda Theater Site Demolition (Funded separately from the CS Project budget)

Contract 1252: Central Subway Tunneling

Contract SBE Participation (Updated Quarterly) See Appendix E

Stations, Surface, Track and Systems

Contract 1300 Contractor: Tutor-Perini Corporation

Description of Work

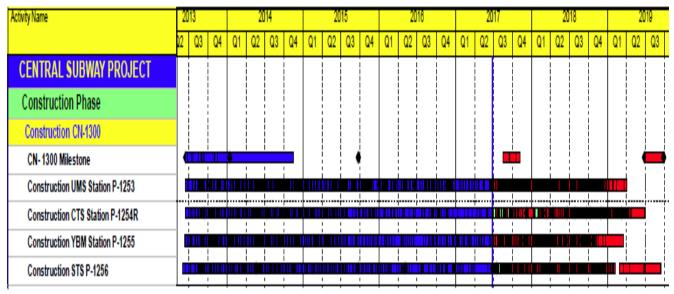

The Contract 1300 scope is to construct the Central Subway's three subway stations, one surface station, construct the 2,000 feet of surface track, and install track and operating systems throughout the new alignment. The separate station and systems work packages are presented in the following pages.

Work includes station finishes, AC and DC substations, elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, Cutter Soil Mixing, secant pile bottom up and Sequential Excavation Method construction, settlement monitoring, building protection, connecting to and modifying the BART Powell Street Station, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

Union Square/Market Street Station

Contract 1300 Work Package1253

Description of Work

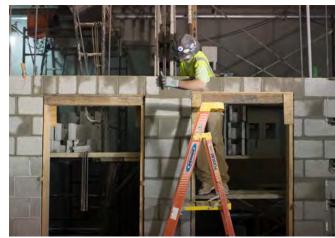

This Work Package is to construct one subway station. Includes station finishes, AC and DC Traction Power substations elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, slurry wall top-down construction, settlement monitoring, building protection, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

Current Status This Month

- Platform Station: Completed installation of "Scalloped Walls" at Platform Strut and Platform levels. Completed installation of North Ring Beam
- Emergency exit stairs 3 and 4: Completed installation of curb, gutter, and sidewalk construction in front of Macy's Men's store
- North Concourse: Continued placing fireproofing for struts and roof beams at Concourse levels. Continued to place fireproofing at Mezzanine level.
- South Concourse: Escalator 7 lowered in the pit
- Ellis Street: Completed sidewalk restoration work at Ellis Street. Continued to restore Ellis and Market Street pavement

Work Expected Next Month

- Platform Station: Continue to install concrete Wale at Concourse Level. Continue removal of temporary struts & wales. Install CMU Walls. Install metal deck at Mezzanine level and Intermediate Strut Level. Continue to install Ring Beam South
- North Concourse: Continue construction of all Stairs and Escalators. Continue to paint intumescent paint at elevator 2&3
- South Concourse: Continue construction for Stairs 5. Commence assembly of escalators 7 and 8. Continue construction of Lower 30" Concrete Strut
- O'Farrell St.: Complete restoration of sidewalk near Emergency exit stairs 3 & 4

 Ellis Annex: Continue to build out Handicap Ramp at intersection of Market and Stockton Street. Continue to install invert walls and ceiling and electrical room and sump pit. Restore pedestrian signals and poles

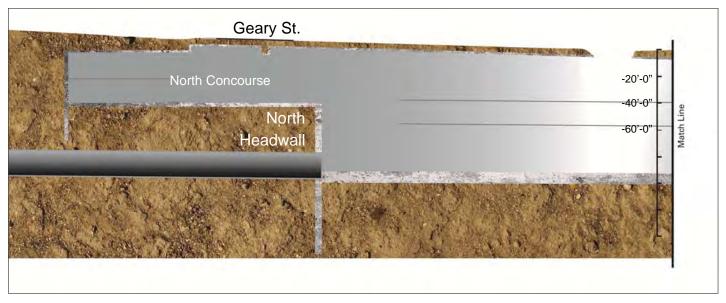

Three Month Look Ahead

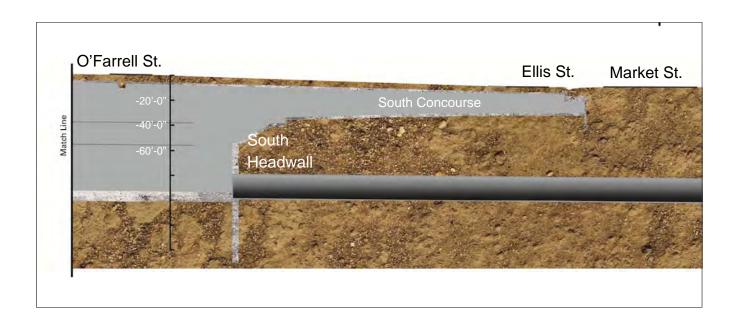

- Platform Station: Complete construction of ring beams. Complete wall constructions at Intermediate Strut and Concourse Levels. Complete upper level deck installation. Complete CMU walls
- North Concourse: Complete concourse level slabs, wale encasements and shotcrete walls. Closing of openings between OF and Geary Street
- South Concourse: Complete South Escalators and stairs construction
- Complete street and sidewalk restoration between Geary and O'Farrell Streets
- Streets Opening of Stockton Street near moratorium

UMS Three Month Schedule

Schedule: Contract 1300 July 2018 Update

Yerba Buena/Moscone Station

Contract 1300 - Work Package 1255

Description of Work

This Work Package is to construct one subway station. Includes station finishes, AC and DC Traction Power substations elevators, escalators, lighting, emergency ventilation fans, HVAC fire alarm/ suppression/ protection, slurry wall top-down construction, settlement monitoring, building protection, PA, CCTV, signage, installation of fare collection equipment and station start-up and commissioning.

Current Status

- Continued to replace the force main and AWSS at 4th & Howard
- Continued work related to the installation of PG&E #7 boxes
- Began waterproofing 11 wall
- Began F/R/P of Stair 1
- Began demo of Stair 4 opening
- Began installing surface level deck (Headhouse Surface)
- Poured Headhouse Undersurface walls (Headhouse Undersurface)
- Began installing Headhouse Vent Shaft
- Began removing shoring, struts and walers at Headhouse Mezzanine area
- Began F/R/P of vent shaft beams (Headhouse Mezzanine)
- Began F/R/P of Headhouse Mezzanine walls
- Continued removing shoring, struts and walers at Headhouse Concourse area
- Continued F/R/P of walls in Headhouse Concourse
- Continued electrical work in Headhouse Concourse
- Continued installing ducts in Headhouse Concourse
- Continued sealing leaks in Headhouse Invert

Work Expected Next Month

- Continue utility work at intersection of 4th & Folsom and 4th & Howard
- Finish installing street lights at 4th and Clementina
- Continue placing PG&E and AT&T utilities in Stair 4 area per PCC 159
- Continue waterproofing 11 wall.
- Begin waterproofing H wall.
- Complete F/R/P of Stair 1
- Complete F/R/P of Stair 3
- Complete F/R/P of Stair 4
- Begin installing Stair 6
- Continue installing Stair 7
- Continue installing Escalators 3 & 4
- Finish installing surface level deck (Headhouse Surface)

YBM - continued

Work Expected Next Month (continued)

- Continue F/R/P of Headhouse Mezzanine walls
- Begin installing Granite Art Work panels (Station Concourse)
- Finish sealing leaks in Headhouse Invert
- Pour topping slab in Headhouse Invert
- Continue F/R/P of seismic joints (Station Platform)

Three Month Look Ahead

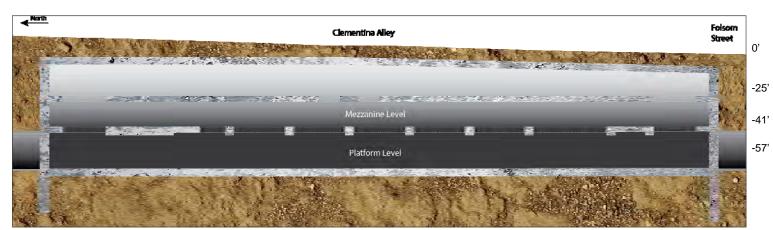

- Continue AT&T and PG&E contract work on Folsom
- Begin pavement renovation work on 4th and Folsom
- Pour West Side topping slab, Mezzanine
 Station box
- Continue interior finishes on Mezzanine & Concourse Levels within Station Box
- Pour Headhouse Invert topping slab
- Continue placement of stairs within Station and Headhouse
- Finish installation of station power electrical vaults on Folsom Street
- Finish placing undersurface deck

YBM Three Month Schedule

Schedule: Contract 1300 July 2018 Update

Systems, Trackwork, & Surface Station

Contract 1300 - Work Package 1256

Description of Work

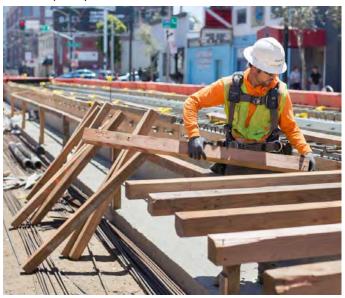

This Work Package is to construct one Surface Station. Includes light rail track and systems, track invert, track safety walkways; light rail track and systems constructed on the 2,000 foot surface for the alignment from the tunnel portal, south to the tie-in to the existing Muni T-Line at Fourth and King Streets; and the surface Fourth and Brannan Street (FBS) Station.

Current Status

- Continued electrical conduit installation inside tunnel
- Continued pulling traction power cables on 4th Street
- Continued installing luminaire arms and luminaires on 4th Street
- Ongoing strut bracket installation in both tubes working South to North
- Tunnel emergency walkway and cable trough installation ongoing in both tubes

Work Expected Next Month

- Continue OCS pole installation
- Continue 4th/Brannan platform
- Continue electrical conduit installation inside tunnel
- Continue pulling traction power cables on 4th Street
- Continue installing luminaire arms and luminaries on 4th Street

Three Month Look Ahead

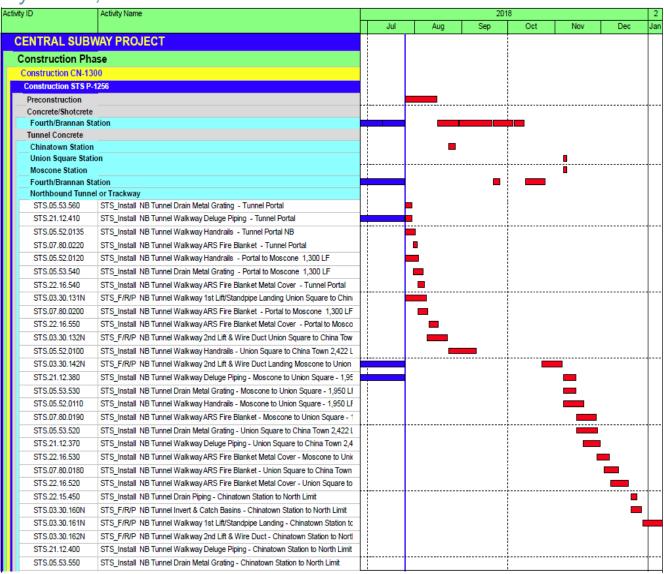

- Complete OCS pole installation
- Complete pavement renovation at 4th/
 Bryant, 4th/Brannan, and 4th/King intersections
- Continue 4th/Brannan platform
- Continue surface track installation
- Continue track installation inside tunnel
 Continue walkway installation inside tunnel
- Continue electrical conduit installation inside tunnel
- Continue pulling traction power cables on 4th Street

Systems, Trackwork, & Surface Station Construction - Continued

Systems, Track and Surface Station Three Month Schedule

Schedule: Contract 1300 July 2018 Update

Program Components

Community Outreach

Outreach public information, events and presentations for July 2018 include:

- Conducted Chinatown Merchants Meeting
- Continued noise and dust mitigation meetings with Tutor Perini and community stakeholders
- · Ongoing outreach to merchants and residents
- Conducted meetings and face-to-face visits with various merchant stakeholders along the alignment
- Preparation and dissemination of construction notices
- Produced quarterly construction update video and other multimedia content
- Responded to constituent complaints

Outreach in Support of Mitigation and Monitoring

Team members participated in weekly progress to address neighborhood concerns

Outreach and communication efforts continue in Chinatown, Union Square, and SOMA

Weekly photo documentation of project work and editing

Weekly construction update emails sent to list of approximately 700 residents and stakeholders

Media Coverage

Central Subway Media Coverage					
Date	Title (with link to story)	Source	Reporter/ Writer		
7/16/2018	Changes to SF's Central SoMa rezoning plan would result in more housing	San Francisco Chronicle	J.K. Dineen		
7/23/2018	Cost for long delayed Muni 'loop' to boost Warriors train service jumps \$1.4 million	SF Examiner	Joe Fitzger- ald Rodri- guez		

Quality Assurance

Quality Assurance monthly activity of oversight, surveillance, audits, proactive feedback and QA records actively involves the Project construction management staff, the resident engineers, the prime construction contractor and their subcontractors.

Stations and Systems Contract CN1300 Quality Assurance Monitoring – On Going/As Reported Previously

- UMS structural steel installation Continued Inspection/acceptance/documentation by Smith Emery CWI's of all welds associated with the ongoing Installation of structural and excavation support steel
- Continuation of Station construction at UMS and YBM
- Waterproofing of CTS Cavern
- STS invert and plinth preparation for and subsequent concrete placement for track installation continue
- STS rail preparation for and subsequent installation
- TPC QC Daily Inspection Reports posted to CM13 which includes TPC's Specialty Subcontractor's QC checklists and associated documentation and Smith Emery Inspection Reports; TPC's Subcontractor that provides laboratory and Inspection Services including Special Inspections required for the City of San Francisco's Department of Building Inspection (DBI) for all permitted work
- Preparatory, Initial Phase, and in particular, Concrete Preplacement Meetings continue as the scheduled activities dictate
- Bi-Weekly Quality Task Force (QTF) Meetings ongoing dialog regarding; planning for upcoming Work, identification and mitigation of in-process potentially unsatisfactory work, generation of CNCRs, welding inspection documentation, HOLD points and other items related to TPC's QC efforts in implementing TPC's approved Quality Control Program (QCP). Additionally, the Contractor's Quality Control Manager (QCM) and Assistant QCMs continue to be provided with salient information from the PQM's participation/attendance in Project and Work Package Progress Meetings
- Weekly Work Package Progress Meetings for STS, YBM, UMS and CTS
- Monthly Project Risk Mitigation, Safety and Security and weekly MEP Progress and CMB Meetings as scheduling constraints allow

Document comment and review:

- Contractor's submittals, e.g., review of welding, concrete (including shotcrete) and other Quality related submittals/comments as requested to support the RE's and CM, and RFIs related to quality and welding
- QA Staff continues random/spot checks of the 1300 Contractor's Field Testing lab results accomplished upon review of the preliminary test reports provided as required the Contract Documents via email from the Contractor's testing laboratory which includes concrete cylinders and shotcrete cores and shotcrete C1550 flexural specimens
- Contractor Non Conformance Reports (CNCR) Status as indicated in the TPC QC CNCR Log:
 - 8 (+1 from June 2018) CNCRs are currently posted to the CNCR Log as INITIAL entries

Quality Assurance - Continued

(C1300 is required to generate a CNCR within 24 hours of becoming aware of what appears to be non-conforming work)

- 15 (+4 from June 2018) CNCRs are currently posted to the CNCR Log as DISPOSITIONED
 and are being reviewed by associated SFMTA RE to verify that the Contractor's proposed
 disposition is appropriate
- 19 (-1 from June 2018) CNCRs are currently posted to the CNCR Log as DISPOSITIONED
 (NOT ACCEPTABLE) and have been returned to the Contractor because the RE's review of
 the Contractor's proposed disposition determined that the proposed disposition is not appro priate and must be revised).
- 24 (+0 from June 2018) CNCRs are currently posted to the CNCR Log as APPROVED be cause the suggested REPAIR dispositions have been approved and the CNCRs will remain
 open until the approved REPAIR procedure is performed.
- ♦ 272 (+3 from June 2018) CNCRs are currently posted to the CNCR Log as CLOSED.
- 40 (+0 from June 2018) CNCRs are currently posted to the CNCR Log as VOIDED (subsequent evaluation of the INITIAL CNCRs determined that a CNCR is not warranted)
- ♦ 378 (+6 from June 2018) CNCRs are currently posted to the CNCR Log

QA Issues:

• None to report for July 2018

QA Concerns:

- As described previously, typical to similar Projects, work performed prior to receipt of approval status of required submittals (including coordination and shop drawings)/RIFs with/without knowledge of QC or responsible production supervision, remains a potential item(s) of concern
- Also as previously described and typical to similar Projects, the untimely identification and mitigation (SFMTA approval) of "last minute items", such as too little clear cover for reinforcement due to unanticipated proximately of adjacent objects in a concrete lift, remains an ongoing challenge to all involved. As mentioned last month, Project Quality has not suffered to date; however the aforementioned concern remains
- Continue regarding Project schedule compression demands disrupting RE and Design Staff priorities as mentioned above, Quality has not suffered but the concern remains
- CNCR 354, which documents that standard strength and not high strength 115 RE rail has been furnished and is currently being installed by Tutor Perini Corporation (TPC) the C1300 Contractor. CNCR 354 was dispositioned as Use-As-Is and was then rejected by SFMTA and returned to TPC QC to address the requirements of 34 11 14 Rail. SFMTA has subsequently written a letter to TPC directing the removal of the non-conforming rail. Meanwhile, at a meeting with TPC and TPC's track work F & I Subcontractor, SFMTA QA was informed by TPC's Project Manager that CNCR 354 would be voided. SFMTA QA concern is that that CNCR 354 will be voided predicated by TPC perceived ambiguities in the Contract Documents; without consideration of other Contract Document requirements. NCN CT-001 was issued, directing TPC to reinstate CNCR 354. This issue will be closed monitored by SFMTA

Other Program QA Practices Implemented:

Close-out of Corrective Action Requests: Close outs continued as required from Quality Assurance staff's Audits, Surveillances and PMOC Quarterly Reviews. The status is tracked in the Corrective Action Log that is available to the project team and the FTA PMOC

Risk Management

Risk Mitigation Management Meeting No. 108 was held on Tuesday, July 10, 2018. The members of the Risk Assessment Committee in attendance, reviewed the top risks in accordance with the risk summary sheet, which have been given a rating by The Committee of six and above.

During this month's meeting, forty (40) construction risks and one (1) remaining requirement risk was tracked on the Project's Risk Register. Additional vetting of these risks along with three potential revenue service date (RSD) risks, will be done at next month's meeting. Establishing strategies for mitigation and evaluating potential unforeseen issues or conditions.

The Committee will continue to follow risks and risks will be monitored and statuses updated with the use of the risk mitigation status sheets, providing monthly updates by the Risk owner to demonstrate the assigned mitigation strategy is being implemented.

Top Risks

Risk#	Risk Description		Contract
240	Unresolved Assignment of Schedule Delay Responsibility (may lead to increase cost for the Program)	12	STA
255	Water leaks at YBM station	10	YBM
251	Physical activities missing (not defined) in the schedule / identify activities of undefined scope	8	STA
234	Sequential Excavation Method at CTS - Contractor's propose method will induce detrimental subsidence		CTS
253	Do not have adequate resources defined to do the work	6	STA
52	Unacceptable settlement and impact on major utilities at CTS. (OLD SEWERS AND OTHERS WITHIN 20FT SPACE BETWEEN TOP OF CAVERN AND STREET LEVEL)	6	STA
238	Quality Program is ineffective in processing the nonconformance items causing schedule impacts	6	STA
205	Prolong period of CMod's creates additional cost/causes bad blood between Resident Engineer and Contractor	6	STA
229	CN1300 System Acceptance Testing	6	STA
230	SFMTA Commissioning Coordination (inaccurate time for coordination or participation from Muni Ops)	6	STA

Program Safety & Security

The San Francisco Municipal Transportation Agency is committed to the highest practical level of safety and security standards and practices in the public transit industry. The Safety and Security Management Plan (SSMP) components are reported on below as appropriate including, Safety and Security Committee, the Fire Life Safety and Security Committee the Construction Conformance Verification and Documentation and Contractor Safety and Security.

Project Management/Construction Management (PMCM) Team

Safety bulletin boards have subjects covering the complacency and daily job briefings.

Safety Summary for the 1300 Stations Systems Track Construction Package

Over the past few months, SFMTA has become concerned about the accident trends that appear to be developing. However, as of July, TPC has made very good strides in reducing incidents from previous months. They have achieved this by reinforcing the extensive use of site safety inspections, safety training, rapid responses to fellow workers safety observations just to name a few.

TPC did have some first aid incidents but not like they have in the past. The incident included: a pain in the foot, strained left arm/shoulder, dizziness, bug bite, viral infection, cut to the left pinky, and another pain in the shoulder.

SFMTA will be working with them, as well as watching safety performances to ensure safety issues are quickly addressed.

Table 1300 Stations Construction Safety Record

Table 1300 below summarizes the Month to Date and Project to Date for the Stations, Systems and Track Construction contractor and subcontractors.

Next Month Look Ahead

1300 Contract

- 1. At the CTS station, TPC continues waterproofing installation at Crosscut Cavern arches
- 2. At the UMS station, TPC continues placing fireproofing for struts and roof beams at Concourse levels.
- 3. At the YBM station, TPC continues removing shoring, struts, and walers at Headhouse Concourse area.
- 4. At the STS station, TPC and their sub contractors continued electrical conduit installation inside the tunnel.

Program Safety & Security - continued

Project Safety Record - Contract 1300

SAFETY GOALS

Through Month End July 2018

OSHA Recordable Accidents, <3.4	
Lost Time Cases, <1.6	

JOB TO DATE	Tutor	Subs	Total Project	Rate*
OSHA Recordable Accidents	9	4	13	0.90
Job Transfer or Restricted Duty Cases	0	0	0	0.00
Lost Time Cases	2	1	3	0.21
Total Project Incidents	11	5	16	1.11
Man Hours Worked Through M/E July 2018	1,409,329	1,472,792	2,882,120	

YEAR TO DATE (Month ,Day, Year to Month, Day, Year)	Tutor	Subs	Total Project	Rate*
OSHA Recordable Accidents	4	2	6	2.98
Job Transfer or Restricted Duty Cases	0	0	0	0.00
Lost Time Cases	1	0	0	0.00
Total Project Incidents	5	0	3	1.49
Man Hours Worked Through M/E July 2018	273,047	129,539	402,585	

^{*} Rate is calculated based on number of incidents divided by total number of man hours worked multiplied by 200,000 man hours.

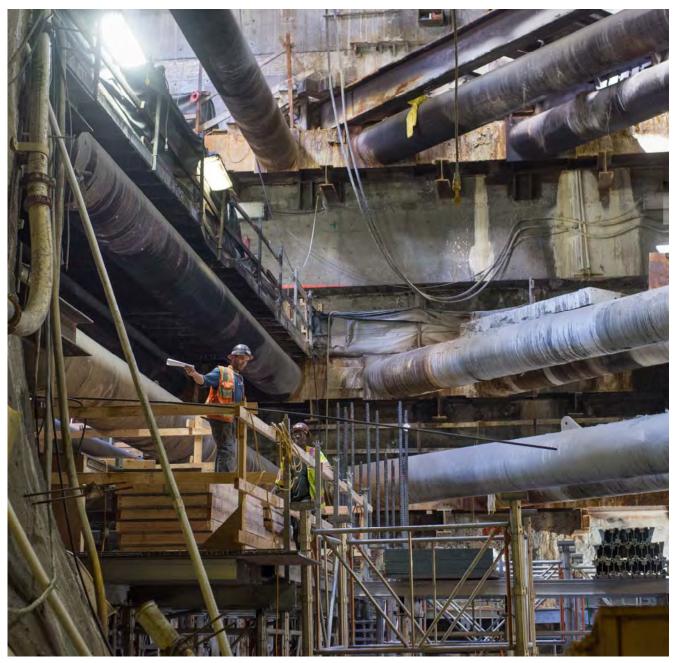

OSHA Recordable Accidents - 2008 Construction Industry Rate for Highway, Street, and Bridge Construction = 3.9

^{*}Classifications change at a later date due to additional information becoming available, thereby, changing the numbers on the chart.

For example, what was once classified as an accident can become a first aid which leads it to no longer being recordable.

Technical Capacity

The Program is in the process of finding a permanent replacement for the Director position. Currently, an Acting Director has been named until a permanent replacement is found. In addition, the program is in the process of establishing a job description for a Startup and Testing Manager. The Program is also considering candidates for Contracts Claims Administrator or Change Order Administrator and is interested in identifying additional candidates for supplementation of the team in the areas of Construction Inspector and Office Engineer, and persons with expertise in MEP Coordination and Systems implementation.

Large steel reinforcing elements span across the Chinatown Station headhouse while workers discuss operations atop platform level concrete formwork.

Staffing

The Central Subway Staffing Table shows Planned and Actual full-time equivalent staff (FTEs) working on the Program by organizational function and responsibility.

Third-Party Agreements

No activity in this reporting month.

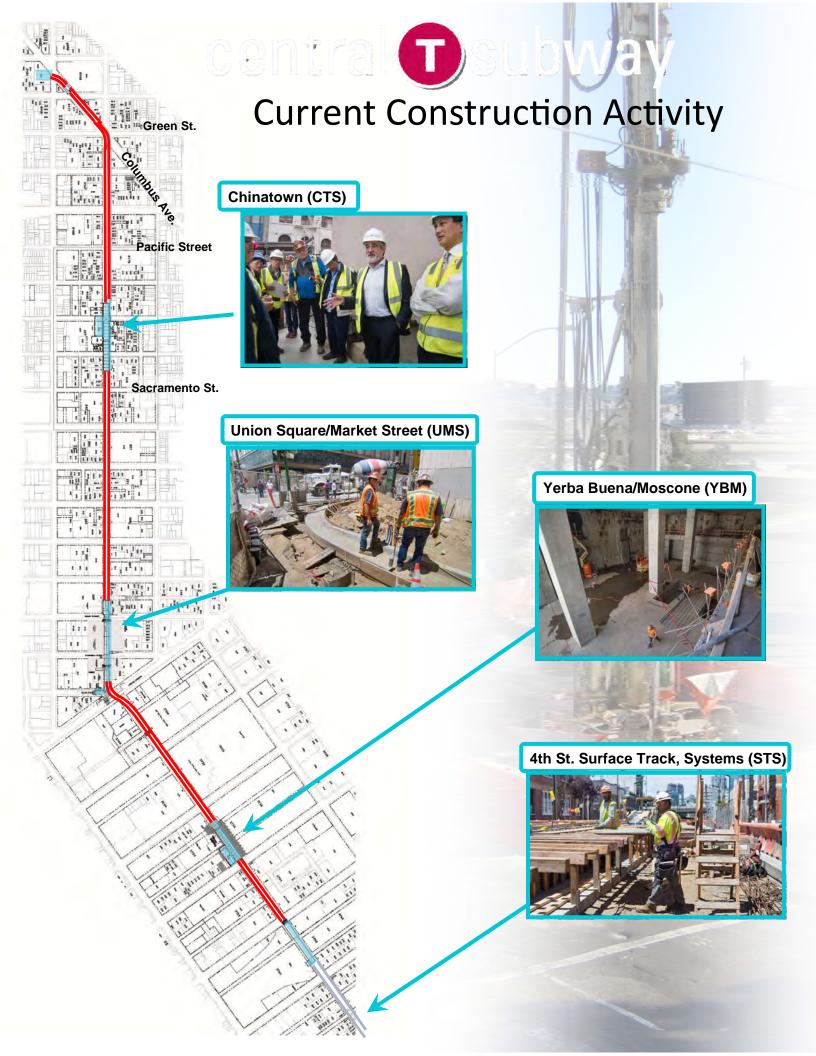

LRV Procurement

SFMTA has initiated a new light rail vehicle procurement to acquire up to 260 vehicles over the next 15 years. The scope includes the design, manufacture, delivery and testing of up to 260 light rail vehicles together with associated services, spare parts, special tools, training and documentation. This includes an initial delivery of 24 cars, scheduled for delivery from 2017 - 2018 to supplement the fleet when the SFMTA's Third Street Phase 2 - Central Subway Project extension opens.

Production of the first 24 cars continues. 7 cars are now in service, with 9 more on property going through the test and commissioning process. The delivery and acceptance process is on schedule to put one vehicle in service per week.

Rebar is installed to reinforce cinderblock walls being added to the interior floors of the Union Square/Market Street Station, creating future rooms for utilities, staff, and maintenance.

CTS

District 3 Supervisor Aaron Peskin speaks to local merchants and community representatives along with Central Subway Program Director Albert Hoe and Safety Manager Jeff Kraus atop the Chinatown Station headhouse.

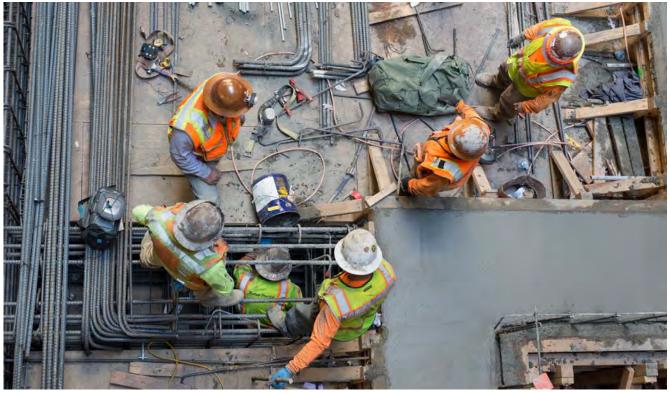

Multiple levels of temporary cross-bracing span the width of the Chinatown Station headhouse as seen from the edge of the main access shaft looking south.

CTS—continued

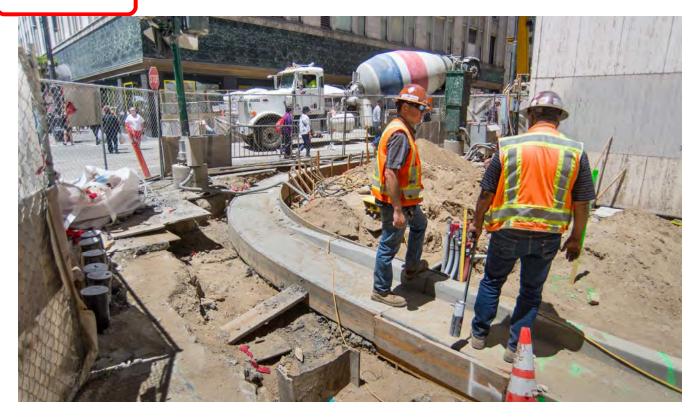

Workers have begun to install sheets of vinyl waterproofing against the east wall and ceiling of the north platform cavern.

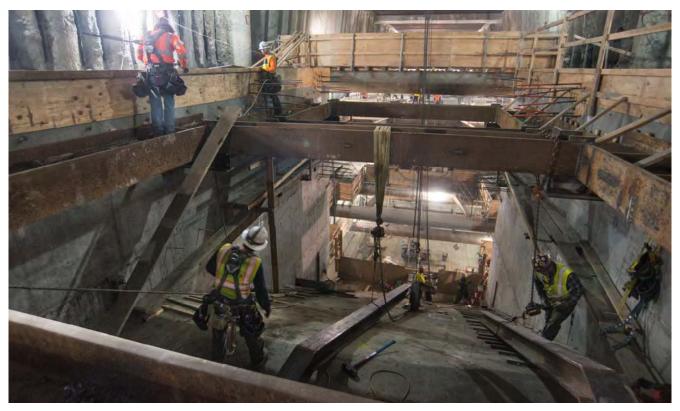

A crew constructs rebar cages which will become part of the platform level floor slab and cross beams inside the Chinatown Station headhouse.

UMS

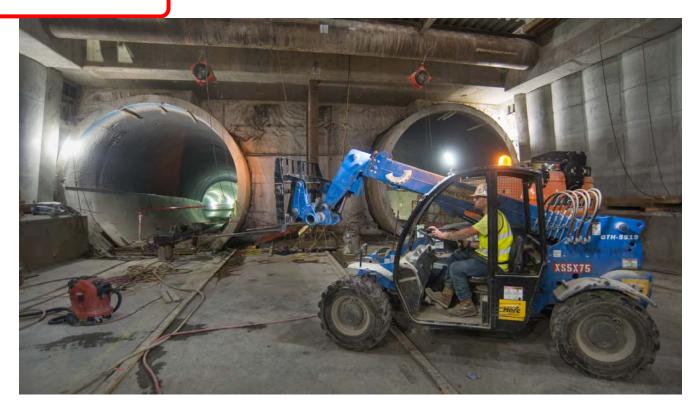

A new curb has been constructed at the northeast corner of Stockton and O'Farrell as part of roadway and sidewalk restoration work, following the completion of emergency egress stairs.

Workers at the south headwall of the Union Square/Market Street Station construct steel framing and concrete forms for an angled cut where future escalators and stairs will lead to the station platform.

UMS—continued

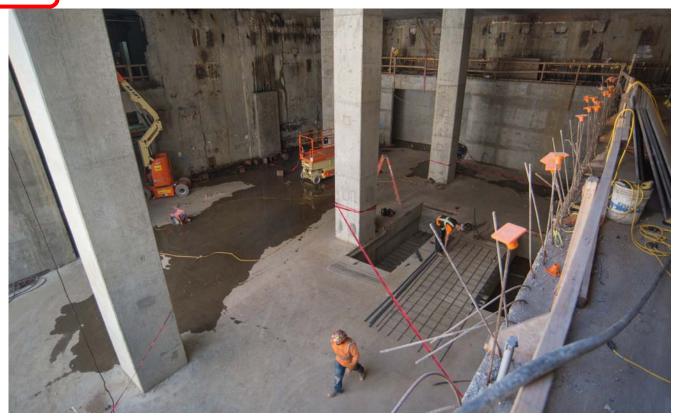

A forklift operator navigates equipment at the south end of the Union Square/Market Station's platform level.

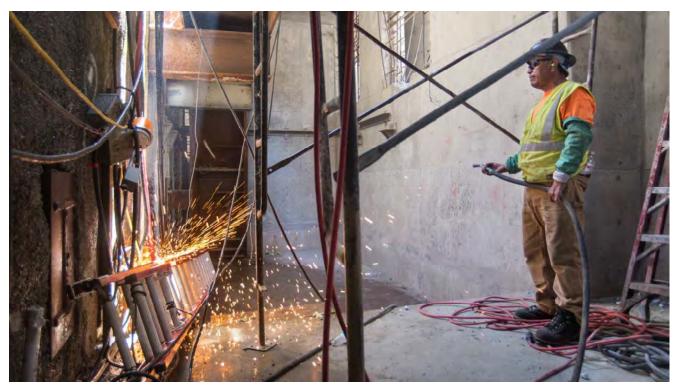

Two open steel hatches mark the final exit of emergency stairways constructed for the upper levels of the Union Square/Market Street Station at O'Farrell.

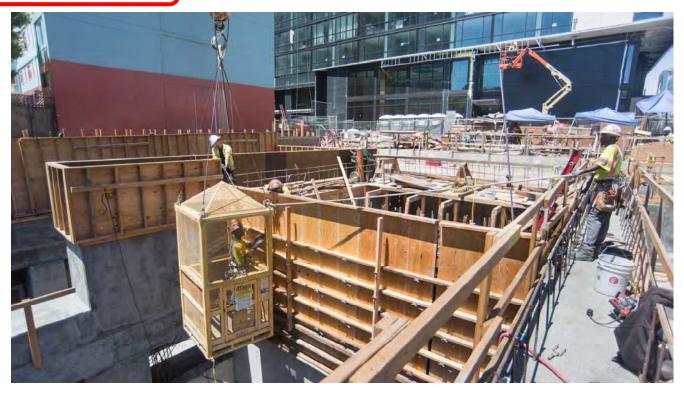

YBM

Looking southeast inside the Yerba Buena/Moscone Station headhouse, the recessed footing for an escalator is being filled in with rebar and later concrete.

A man waits to spray water on sparks falling from an associate cutting temporary reinforcing beams on the east wall of the Yerba Buena/Moscone Station headhouse.

A worker in a man cage constructs concrete forms, while being supported by two associates on the street level roof slab for the Yerba Buena/Moscone Station headhouse.

At the surface staging area on the west side of 4th north of Folsom, a large strut is carefully lowered into place atop a flatbed truck for removal offside.

STS

Carpenters construct formwork for the east side of the 4th and Brannan Station platform.

Looking up 4th Street from Brannan, the initial stages of prep work to construct the 4th and Brannan Station's platform have begun.

STS - continued

Crews have conducted some tunnel and equipment cleanup work near cross-passage five, just south of the Market Street S-curve.

A site attendant finishes locking the access gates at the top of the tunnel portal ramp following the end of the workday.

Appendix A DETAIL COST REPORTS

*July 2018 Notice: The City is in the process of transitioning from FAMIS to Financial System Project (FSP). During the transition, we are unable to provide accurate financial updates. Once FSP is updated and validated, we will reconcile our reports accordingly. We will be projecting current expenditures and anticipate the reconciled updates will be available early next year.

1. PROJECT COST

The Current Cost Estimate (CCE) for the Central Subway Project is **\$1.578 billion** in year of expenditure dollars (\$YOE). This total project cost is shown at the top of Report 7.1, Program Project Budget. This capital cost projection incorporates allocated and unallocated contingencies to cover the risks associated with the project completion.

Total net incurred costs for the project are \$1,232.29 million, a \$7.49 million increase over last month. The cost to date figure reflects expenditures through FAMIS 786 Report (\$1,196.89 million) plus the utilities joint trench Form B Reimbursement payment (\$11.27 million), invoices currently being processed (\$18.89 million) and estimates of outstanding pay requests (\$5.27 million). This incurred amount equals 78.08% of the total project budget of \$1.578 billion.

The current funding level to date is \$1,494.00 and includes Prop K \$13.75 million FY2018/2019 RTIP Fund Exchange appropriated in June 2018. This represents 95% of the total project budget.

2. CONTINGENCY ALLOCATIONS AND USAGE

The current Total Project Contingency is **\$71.18 million**, which is a \$46.18 million favorable balance against the current Minimum Contingency level of \$25 million. The Contingency Drawdown Curve is shown in Report 7.3. Followed by Report 7.4 Contingency Management Trend Report with the Remaining Contingency after Approved Changes Deducted contingency items in column "i".

Both Contract 1252 Tunnel and Contract 1300 Station did not process any contract modifications in this reporting period. Refer to 7.5 approved contract modifications and

3. **BUDGET TRANSFERS**

potential changes.

In this reporting period, one budget transfer in the amount of \$2,263,498 was executed in category SCC 80 for Professional Services to reflect additional costs associated with Contract 1300. The \$2,263,498 was released from category SCC 90 unallocated program contingency for a net budget transfer of \$0; refer to Report 7.6 for details.

4. FORM B

The Utilities Joint Trench Form B Details is listed in the Table A2 below. Total utilities joint trench Form B Reimbursement payment to three construction contracts is \$11.27 million.

TABLE A2: UTILITIES JOINT TRENCH FORM B DETAILS	[A] Mar 2015 BUDGET	[B] EXPENDED TO DATE	Associated Cost Account

Earned Value Analysis and Definitions

SPI is a measure of schedule efficiency on a project. It is the ratio of earned value (EV) to planned value (PV). A SPI equal to or greater than one indicates more work was completed than planned and a value of less than one indicates less work was completed than planned. A value of less than 0.9 is unfavorable.

CPI is a measure of cost efficiency on a project. It is the ratio of earned value (EV) to actual cost value (AC). A CPI equal to or greater than one indicates a cost under run and a value of less than one indicates a cost overrun. A value of less than 0.9 is unfavorable.

The following earning rules are established for each of the phase:

Cost Element Group	Planned Value (Primavera)	Earned Value (Primavera)	Actual Cost (SFMTA Cost Accounting (SAP)
Prelim. Engineering	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor Accruals and Invoices
Final Design	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor Accruals and Invoices
Procurement	Planned Delivery Date	Actual Delivery Date	Time Keeping; Vendor Accruals and Invoices
Real Estate	Expenditure Plan Level of Effort (LOE)	Equals to Planned Value (LOE)	Time Keeping; Vendor/ Material Accruals and Invoices
Construction	Schedule of Work	% Complete* x Budget at Completion (BAC)	Vendor Accruals and Invoices
Sub-Total	Performance Measurement Baseline (PMB)	Total Earned Value	Total Actual Cost
Below the Line	+ Contingency		
Total	Approved Budget		

6. FUNDING SUMMARY

The Funding Available Table below shows the total awarded funds to date vs. the total committed funds from the Project's seven funding sources.

7.1 F	Program Project Budget
1	The Central Subway Project (CSP) (SFMTA Capital Program CPT 544) is defined in the FTA-SFMTA October 2012 Full Funding Grant Agreement with a budget of \$1.578 billion.
2	The TBM Retrieval Shaft Relocation (SFMTA Capital Program CPT 690) is one of four capital projects that is related to CSP. These projects are reported for background information as needed outside of the main body of the Project Monthly Progress Report.
3	The Chinatown Plaza (CPT 718) is for Chinatown Station enhancement capital project. The project has funding outside of the Central Subway Project. The construction is carried out in Contract 1300 Contract Modifications.
4	CPT 665 is a Real Estate project to relocation in compliance with California regulations for business relocations but outside of the Central Subway Project as defined by the FTA FFGA.
5	CPT 705 is an SFMTA capital improvement between the Agency and community stakeholders outside of the Central Subway Project.
6	Utility company reimbursements (Form B) result in funds received for work carried out on behalf of utilities concurrent to CSP work to achieve efficiencies.
7	PG&E Power Feed reimbursement funds are the refunds from PG&E when completion of Stations construction and switch to permanent power.
8	BART Elevator funds are reimbursements for work carried out on behalf of BART to install BART Powell Street Station elevator.
9	The Tutor Perini - CAD Files funds are the result of payments by the contractor for project documentation not included in the contract.
10	SFPUC Sewer Main funds are reimbursements for work carried out on behalf of San Francisco PUC (includes 10% construction contingency).
11	Traffic Effectiveness Project funded Contract Modification #40 for Culvert, Street & Sidewalk Restoration in North Beach are reimbursements for work carried out in Contract 1252 on behalf of SFMTA SSD.
12	SFPUC 24" Water Main funds are reimbursements for work carried out in Contract 1252 Contract Modification #41 on behalf of San Francisco PUC (includes construction management cost).
13	SFPUC North Beach 24" Water Main Additional Work funds are reimbursements for work carried out in Contract 1252 Contract Modification #48 on behalf of San Francisco PUC (includes construction management cost).
14	CN1300 Contract Modification #6 is funded by Chinatown Plaza (CPT 718) project.
15	Traffic Effectiveness Project funded Contract Modification #51 for support for North Beach Restoration, OCS and Streetlighting which are reimbursements for work carried out in Contract 1252.
16	Public Works' funds are for reimbursements for work carried out on behalf of Public Works MOU for Water Line above YBM Station.
17	SFWD funded Contract Modification #60 for 8' water line at the intersection of Fourth and Jessie Street which are reimbursements for work carried out in Contract 1252.

7.4 (Contingency Management Trend Report
	In Oct 2014 Report, updated Contract 1250 contract cost to segregate contract amount and contract modification amount. Note that
	September 2013 Supplemental Authorized Contingency "column f" did not include completed contract.
18	
	In Oct 2014 Report, updated Contract 1251 contract cost to segregate contract amount and contract modification amount. Note that
	September 2013 Supplemental Authorized Contingency "column f" did not include completed contract.
19	
	Contract 1252 Original Contract Value "column a" and Original Contingency "column f" did not match September 2013 Supplemental
	due to Supplemental were used the revised value to reflect Contract Modifications #3-#18. Reduced Contract 1252 contingency to
	reflect CMod #20 for retrieval shaft relocation cost \$5.15M funded by CPT690, CMod #40 for Culvert, Street & Sidewalk Restoration
	cost \$694,651 funded by Traffic Effectiveness Project (TEP), and CMod #41 for install 24" Water Main in North Beach cost \$328,860
	funded by SFPUC. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated
	contingency. In March 2106 report, reduced Contract 1252 contingency by \$377,435 cost to reflect certification of five CMODS.
	CMod#49, #52 and #53 total \$221,967 are funded by CPS. CMod#51 Support for North Beach Restoration, OCS and Streetlighting
	cost of \$155,468 is being funded by TEP. Released \$155,468 CN1252 allocated contingency to program's unallocated contingency.
	In May 2016 report, reduced Contract 1252 contingency by \$185,913 cost to reflect certification of two CMODS. In July 2016 report,
	increased Contract 1252 contingency by \$15,259 cost to reflect certification of one CMOD. In October 2016 report, increased
	Contract 1252 contingency by \$319,658 to reflect certification of three credit CMODs. In March 2018 report, increased Contract 1252
20	contingency by \$131,715 cost to reflect certification of two CMODS.
20	BART Elevator scope and SFPUC Sewer Main scope is in Contract 1300; effort will be funded by BART. In January 2015 Report,
21	corrected Station Contract value to match awarded amount.
	In March 2016 Report, lowered Contract 1300 Stations CTS contingency by \$75,000 because Contract Modification #6 was funded
22	by Project CPT718. In Nov 2016 report, reversed moving contingency.
23	In December 2017 Report, \$1,060,000 Job Readiness Budget is shown as an approved change in Column "b".
	In December 2017 Report, there is a change in Column "f" and Column "h" to reflect reporting to include CN1250 and CN1251. Prior
24	to this, Column "f" and Column "h" reporting excluded CN1250 and CN1251.
	In April 2015 report, real estate budget stated in RAMP Rev5 is \$36.7M, including \$1M contingency. The cost workbook ROW &
	contingency budget reflects this with \$36,511,799 and \$1,000,000 respectively. Revised cost book ROW budget & contingency to be
	\$37,511,799. The \$4,265,478 Caltrans lease savings is allocated to ROW allocated contingency. In February 2017, released
25	\$5,265,478 from completed phase Real Estate assigned contingency to program unallocated contingency.
25	In Dec 2014 Report, redistributed LRV budget to reflect recent firm bid cost per vehicle (\$3,327,250/unit) from vehicle procurement
	contract award. (SFMTA Board meeting 15JUL14, calendar item #11). Vehicle line item total budget remains unchanged,
	redistributed fund by reducing base amount to \$13,309,000, column "c" and increased allocated contingency column "h", by same
26	amount.
20	In July 2018 Report, increased SCC 80 Professional Services category budget by \$2,263,498 due to additional costs related to
26a	CN1300 stations; cost was transferred from program unallocated contingency.
_0u	portroso statione, ecct was transferred from program unanocated contingency.

27	In Oct 2014 Report, made two corrections: i) revised Professional Services, Original Contract Value "column a" from \$310,518,041 to \$310,618,041, ii) revised Original Cogency. "column f" unallocated contingency from \$3,883,481 to \$3,845,945. In April 2015 report, used \$500K program contingency for CS-175 Bayland Soil Process contract. In August 2015 Report, added \$15M from Contract 1252. In March 2016 Report, the \$155,468 costs funded by other project offset credits added to program's unallocated contingency. In August 2016 Report, used \$15M to UMS contingency and \$5M to CTS contingency. In February 2017, increased \$5,265,478 from real estate contingency to program unallocated contingency and used \$1M for CN1300 Job Readiness Program contract. In July 2018 report, used \$2,263,498 to increase SCC 80 Professional Services category regarding matters related to stations from program unallocated contingency.
	The total Central Subway Project budget of \$1.578 billion, based on the October 2012 FFGA with the FTA, is the primary MPR
28	report reference.
29	Estimate at Completion is shown at Column "e".
30	Estimate at Completion vs. Budget variance is shown at Column "k".
7.5 C	Contract Modification/Trend Log - Contract 1300 Stations
31	Reported all trend cost for Contractor Change Order Requests and Proposed Contract Change and applied probability to forecasted trends. In April 2016 Report, reviewed probability formula and adjusted cost. In May 2017, updated probability formula and adjusted cost.
7.6 E	Budget Revisions: Report Sorted by Construction Packages
32	In Dec 2014 Report, reduced CN1252 allocated contingency by \$28K to execute Contract Modification #46, see Report 7.5 Detail Contingency Usage Report. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2016 report, five contract modifications certified totaling \$377,435 of which \$155,468 is using another source of funding. Released \$155,648 from CN1252 Tunnel assigned contingency to program unallocated contingency. In May 2016 Report, reduced CN1252 allocated contingency by \$186K to execute Contract Modification #54 and #55, see Report 7.5 Detail Contingency Usage Report. In October 2016 Report, increased CN1252 allocated contingency by \$319,658 to execute three contract modifications (#57, #58 and #59), see Report 7.5 Detail Contingency Usage Report. In March 2018 Report, increased CN1252
	allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report.
	allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job
	allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report.
33	allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value.
33	allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job
	allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value.
33	allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value. In April 2015, initiated budget from program unallocated contingencies for CS-175 Bayland Soil Process contract, refer to Note 20.
	allocated contingency by \$131,715 to execute two contract modifications (#61 and #62), see Report 7.5 Detail Contingency Usage Report. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value.

In Dec 2014 Report, redistributed LRV budget to reflect recent firm bid cost per vehicle (\$3,327,250/unit) from vehicle procurement contract award. (SFMTA Board meeting 15JUL14, calendar item #11). Vehicle line item total budget remains unchanged, redistributed fund by reducing base amount to \$13,309,000 and increased allocated contingency by same amount.

In October 2016 report, 1252 program contingency increased by \$319,658 due to execution of three contract modifications as credit offsets. In November 2016 report, took away \$75,000 funding from program's unallocated contingency and moved to CTS allocated contingency. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value. Also released \$5,265,478 assigned real estate contingency to program unallocated contingency. In June 2017, initiated budget from Contract 1251's contract value (true final administrative close out cost) to program unallocated contingency, a deduction contract modification that lowered CN1251's contract value by \$125,501. In March 2018 report, 1252 program contingency increased by \$131,715 due to execution of two contract modifications as credit offsets. In July 2018, increased SCC category Professional Services in 80.04 Construction Management by \$2,263,498 by reducing program unallocated contingency.

37

In April 2015 report, program contingency decreased by \$500,000. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to program unallocated contingency. In March 2016 report, released \$155,468 from Contract 1252 Tunnel assigned contingency and \$75,000 from Contract 1300 Stations assigned contingency totaling \$230,956. In August 2016, released a total of \$20M unassigned contingency to assigned contingency; \$15M to CN1300 UMS station and \$5M to CTS station. In February 2017 report, initiated budget from program unallocated contingencies for CN1300 Job Readiness Program. CN1300 Job Readiness Program budget was part of CN1300 base value, a deduction contract modification will lower CN1300 contract value. Also released \$5,265,478 assigned real estate contingency to program unallocated contingency. In July 2017, increased program unallocated contingency by \$125,501 due to CN1251's revised contract value. In July 2018, reduced program unallocated contingency by \$2,263,498 to fund additional costs for SCC category Professional Services in 80.04 Construction Managment.

38

7.7 Budget Expenditures by SCC Codes

In March 2017, added new columns for "Supplemental 2013 Budget" and "Remaining Budget". In April, added new column for "Contingency". In May 2017, added new column for "Report Note". In May 2017, breakdown the combined SCC codes 10 to 50 into individual row for 10, 20, 40, 50 categories. Assigned SCC code to all CN1300 potential changes. Contract 1300 Station assigned contingency SCC are 20.01 and 20.03. The budget transfer is using assigned contingency to process contract modifications. In June 2017, adjusted and realigned SCC codes. In July 2018, the budget transfer is using SCC 90 program unallocated contingency to process an increase in budget for category SCC 80.03-90.04 PM For Design & Construction.

7.9 Detail Monthly Expenditure Report

Phase 1 Preliminary Engineering

In February 2017, line item budget was adjusted to line-up expenditures.

Famis cost for Preliminary Engineering (PE) is \$48,210,903.71. Cost Report for Preliminary Engineering (PE) is \$46,542,060. Some Design cost reported in Famis were moved to Design Phase.

Phase	2 Design Phase
41	Famis cost adjustment to transfer Project Management cost from July 2013 to Phase 3 Construction Phase.
	Famis Phase 1 PE Index Code: 357906.CPT5441112 cost is \$10,222,939
42	\$8,949,300 is reported in Cost Report Phase 1 PE and the balance of \$1,273,639 is reported in Phase 2 Design.
	1.2.021.01.080.03 - FD:CTYCO-ARTS COMMISSION [357909ART001.CPT5441227]:
	FAMIS: \$1,425,167
	Cost Report: \$1,425,167 cost is reported in Phase 2 Design, 1.2.021.01.080.03

	Contract 1251 Final cost is \$20,794,582.
65	
	In March 2016, July 2016 and October 2016, contract 1252 modifications budget and actuals have been realigned and adjusted to
	reflect actuals costs.
	In March 2016, July 2016 and October 2016, contract 1252 modifications budget and actuals have been realigned and adjusted to
	reflect actuals costs.
68	Revised Contract 1252 allocated contingency SCC code from 040.08 to 010.07.
	In July 2015 Report, used Contract 1300 Contractor schedule to report budget and actual cost. The Standard Cost Categories
	(SCC) allocation changed from previous reports. In August 2015 Report, adjusted some of Contract 1300 Contractor SCC
	assignment to match most of previous SCC assignment. In March 2016, \$75,000 Cmod#6 subtracted from CN1300 Stations
	contingency (using CPT718 funding) and transferred to Program contingency; this lead to the total CN1300 Station budget being
	lowered.
	Revised Contract 1300/UMS allocated contingency SCC code from 040.08 to 020.03.
	In March 2016 Report, reduced Contract 1252 contingency by \$377,435 cost to reflect certification of five CMODS.
	Revised Contract 1300/CTS allocated contingency SCC code from 040.08 to 020.03.
	Negative Current or Prior Monthly expenditure is due to replenish allowance expenses by approved Contract Modifications.
	Revised Contract 1300/YBM allocated contingency SCC code from 040.08 to 020.03.
	Revised Contract 1300/STS allocated contingency SCC code from 040.08 to 020.01.
	Revised Form B Reimbursements SCC code from 900.01 to 040.02
-	Revised Form B Reimbursements SCC code from 900.01 to 040.02
	Revised Form B Reimbursements SCC code from 900.01 to 040.02
79	Revised Form B Reimbursements SCC code from 900.01 to 040.02
80	Revised Form B Reimbursements SCC code from 900.01 to 040.02
81	Revised Form B Reimbursements SCC code from 900.01 to 040.02
	Revised Form B Reimbursements SCC code from 900.01 to 040.02
83	Revised Form B Reimbursements SCC code from 900.01 to 040.02
	Increase Program contingency \$1,023,508. Refer to Report Notes #11 and #12. In April 2015 report, program contingency
	decreased by \$500,000. Refer to Report Notes #20. In August 2015 report, release \$15M CN1252 Tunnel assigned contingency to
	program unallocated contingency. In March 2016 report, program unallocated contingency increased by \$230,468. In August 2016,
	released \$20M to CN1300 Construction assigned contingency from program unallocated contingency. In February 2017, used
	\$1,060,000 for CN1300 Job Readiness Program from unallocated contingency, refer to Note 30. Also, released \$5,265,478
	assigned real estate contingency to program unallocated contingency, refer to Note 27. In July 2018 report, used \$2,263,498 to fund
	SCC 80 Professional Services category regarding matters related to stations from program unallocated contingency.
84	

Appendix B DETAIL SCHEDULE REPORTS

SCHEDULE HIGHLIGHTS

The Master Project Schedule (MPS) below includes progress through July 2018. The July 2018 Schedule Update submittal from Contract 1300 Contractor was not submitted as the CN1300 Contractor has not provided the updated corrections to their June, through April 2018 Schedule Updates. The Contract 1300 schedule represented in this report is based on the SFMTA July 2018 Schedule Update.

The MPS shows a forecast Revenue Service Date of January 2020.

The controlling critical (longest) path of the MPS runs through the Headhouse Concrete work, followed by Electrical activities, STS Startup & Testing, Commissioning and Pre-Revenue Activities to the Baseline Finish and Revenue Service Date. See Appendix B – Longest Path. The latest schedule shows the longest path running through the Chinatown Station (CTS). Contractor is required to implement a Recovery Schedule to put the Project back on schedule.

Schedule Contingency is fully utilized on the critical path of the MPS, which is below the Minimum Schedule Contingency level of 6 months. A schedule re-evaluation will be performed, utilizing the updated Contract 1300 Schedule. Recovery options are being implemented in key areas as work proceeds. SFMTA continues to meet with Contractor to discuss all schedule concerns and comments. CTS Headhouse concrete invert slab will require additional rebar than originally estimated impacting the schedule. Contract 1300 Schedule shows no change in July with the same forecasted Revenue Service Date of 14 January 2020.

Contract 1300 Contractor submitted forty two (42) Schedule Updates from December 2014 to June 2018. SFMTA rejected twenty six (26) Schedule Updates from January 2016 to April 2016 and June 2016 to April 2018 due to multiple and repetitive issues that vary from incorrect working sequences to unrealistic forecasted completion dates to artificially steering the schedule longest path through certain portions of the project. SFMTA approved as noted December 2014 through December 2015, and May 2016 Schedule Updates. Contractor has been directed to develop a Recovery Schedule as required by Contract to mitigate the current forecasted project delay. The 18 month "gap" of missing Schedule Updates at the beginning of the job has interfered with efficient resolution of Contractor's assertions of Unavoidable Delay to the project-wide Substantial Completion date, which is additionally impacting the Contractor's review of options for schedule recovery.

Contract 1300 - WP1253 UMS / WP1254R CTS / WP1255 YBM / WP1256 STS:

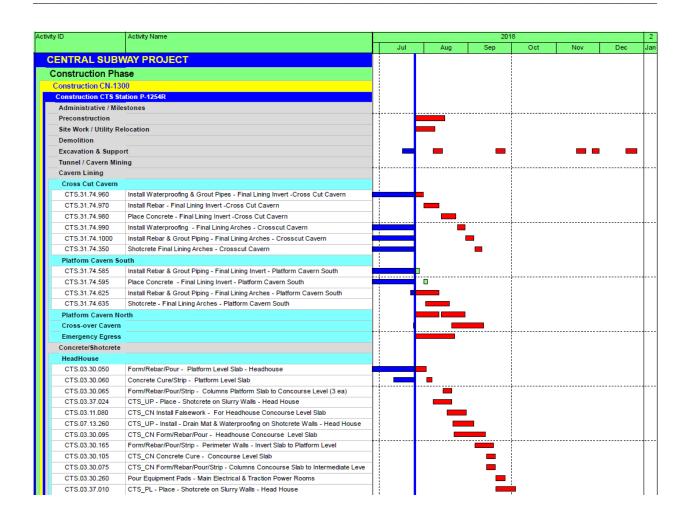

The Contractor, Tutor Perini Corporation's (TPC) baseline schedule is incorporated into the master program schedule. The preliminary SFMTA Contract 1300 July 2018 schedule is used within the July Report. The SFMTA Contract 1300 July 2018 schedule is based on the approved baseline schedule logic with adjustments made for fixing retained logic and lags. The SFMTA will continue to use the SFMTA Contract 1300 schedule update as a forecasting tool going forward until the Contract 1300 Contractor submits an acceptable schedule that addresses all of SFMTA scheduling concerns.

Work Package P-1254R (CTS) has performed the following work this month:

- Completed installing rebar for Crossover Cavern arches
- Continued installing formwork and placing concrete for Crossover Cavern arches
- Completed waterproofing installation at Platform Cavern arches
- Completed installing waterproofing at North Platform Cavern headwall
- Continued installing rebar and formwork for Crosscut Cavern headwall
- Continued waterproofing installation at Crossover Cavern arches
- Continued street work (minor), ongoing monitoring and surveying
- Continued installing rebar, electrical, and plumbing for Platform slab at Headhouse

Work Package P-1254R (CTS) will perform the following work next month:

- Complete concrete placement for Crossover Cavern arches
- Complete rebar installation and concrete placement for South Platform arches
- Complete rebar installation and concrete placement for North Platform arches
- Continue installing rebar and formwork for Crosscut Cavern headwall
- Continue waterproofing installation at Crosscut Cavern arches
- Continue street work (minor), ongoing monitoring and surveying
- Complete installing rebar, electrical, and plumbing for Platform slab at Headhouse
- Complete concrete placement for Headhouse Platform slab
- Begin installing rebar, electrical, and plumbing for Concourse slab at Headhouse
- Begin concrete placement for Concourse Platform slab

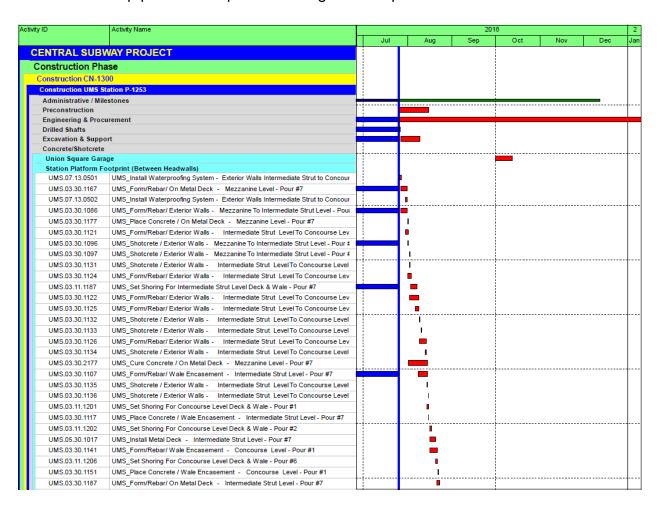

Work Package P-1253 (UMS) has performed the following work this month:

- Platform Station: Completed installation of "Scalloped Walls" at Platform Strut and Platform levels. Completed installation of North Ring Beam.
- Emergency exit stairs 3 and 4: Completed installation of curb, gutter, and sidewalk construction in front of Macy's Men's store
- North Concourse: Continued placing fireproofing for struts and roof beams at Concourse levels. Continued to place fireproofing at Mezzanine level.
- South Concourse: Escalator 7 lowered in the pit
- Ellis Street: Completed sidewalk restoration work at Ellis Street. Continued to restore Ellis and Market Street pavement.

Data Date: July 31, 2018

Work Package P-1253 (UMS) will perform the following work next month:

- Platform Station: Continue to install concrete Wale at Concourse Level.
 Continue removal of temporary struts & wales. Install CMU Walls. Install metal deck at Mezzanine level and Intermediate Strut Level. Continue to install Ring Beam South
- North Concourse: Continue construction of all Stairs and Escalators. Continue to paint intumescent paint at elevator 2&3
- South Concourse: Continue construction for Stairs 5. Commence assembly of escalators 7 and 8. Continue construction of Lower 30" Concrete Strut
- O'Farrell St.: Complete restoration of sidewalk near Emergency exit stairs 3 & 4.
- Ellis Annex: Continue to build out Handicap Ramp at intersection of Market and Stockton Street. Continue to install invert walls and ceiling and electrical room and sump pit. Restore pedestrian signals and poles

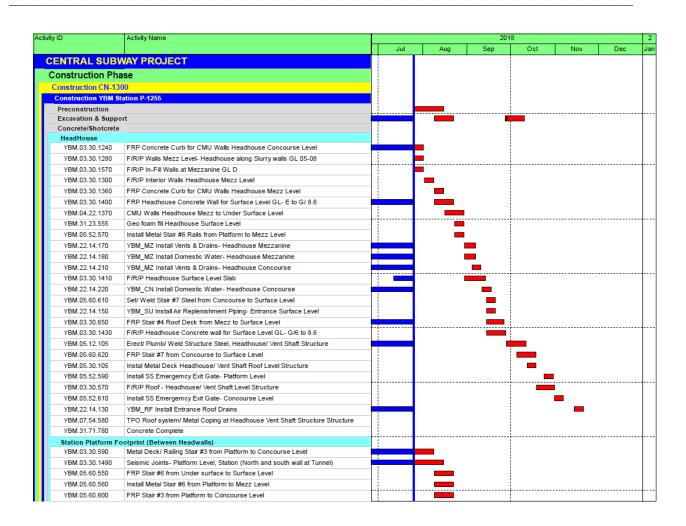

Work Package P-1255 (YBM) has performed the following work this month:

- Continued to replace the force main and AWSS at 4th & Howard
- Continued work related to the installation of PG&E #7 boxes
- Began waterproofing 11 wall
- Began F/R/P of Stair 1
- Began demo of Stair 4 opening
- Began installing surface level deck (Headhouse Surface)
- Poured Headhouse Undersurface walls (Headhouse Undersurface)
- Began installing Headhouse Vent Shaft
- Began removing shoring, struts and walers at Headhouse Mezzanine area
- Began F/R/P of vent shaft beams (Headhouse Mezzanine)
- Began F/R/P of Headhouse Mezzanine walls
- Continued removing shoring, struts and walers at Headhouse Concourse area
- Continued F/R/P of walls in Headhouse Concourse
- Continued electrical work in Headhouse Concourse
- Continued installing ducts in Headhouse Concourse
- Continued sealing leaks in Headhouse Invert

Work Package P-1255 (YBM) will perform the following work next month:

- Continue utility work at intersection of 4th & Folsom and 4th & Howard
- Finish installing street lights at 4th and Clementina
- Continue placing PG&E and AT&T utilities in Stair 4 area per PCC 159
- Continue waterproofing 11 wall.
- Begin waterproofing H wall.
- Complete F/R/P of Stair 1
- Complete F/R/P of Stair 3
- Complete F/R/P of Stair 4
- Begin installing Stair 6
- Continue installing Stair 7
- Continue installing Escalators 3 & 4
- Finish installing surface level deck (Headhouse Surface)
- Continue F/R/P of Headhouse Mezzanine walls
- Begin installing Granite Art Work panels (Station Concourse)
- Finish sealing leaks in Headhouse Invert
- Pour topping slab in Headhouse Invert
- Continue F/R/P of seismic joints (Station Platform)

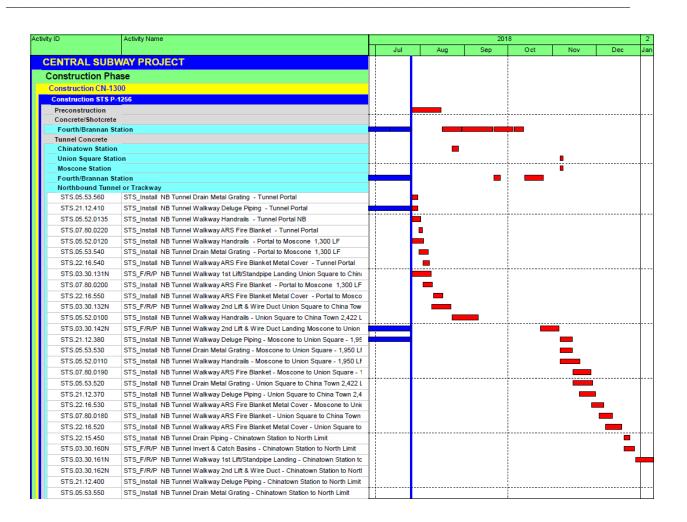

Work Package P-1256 (STS) has performed the following work this month:

- Continued electrical conduit installation inside tunnel
- Continued pulling traction power cables on 4th Street
- Continued installing luminaire arms and luminaires on 4th Street
- Ongoing strut bracket installation in both tubes working South to North
- Tunnel emergency walkway and cable trough installation ongoing in both tubes

Work Package P-1256 (STS) will perform the following work next month:

Continue OCS pole installation

- Continue 4th/Brannan platform
- Continue electrical conduit installation inside tunnel
- Continue pulling traction power cables on 4th Street
- Continue installing luminaire arms and luminaires on 4th Street

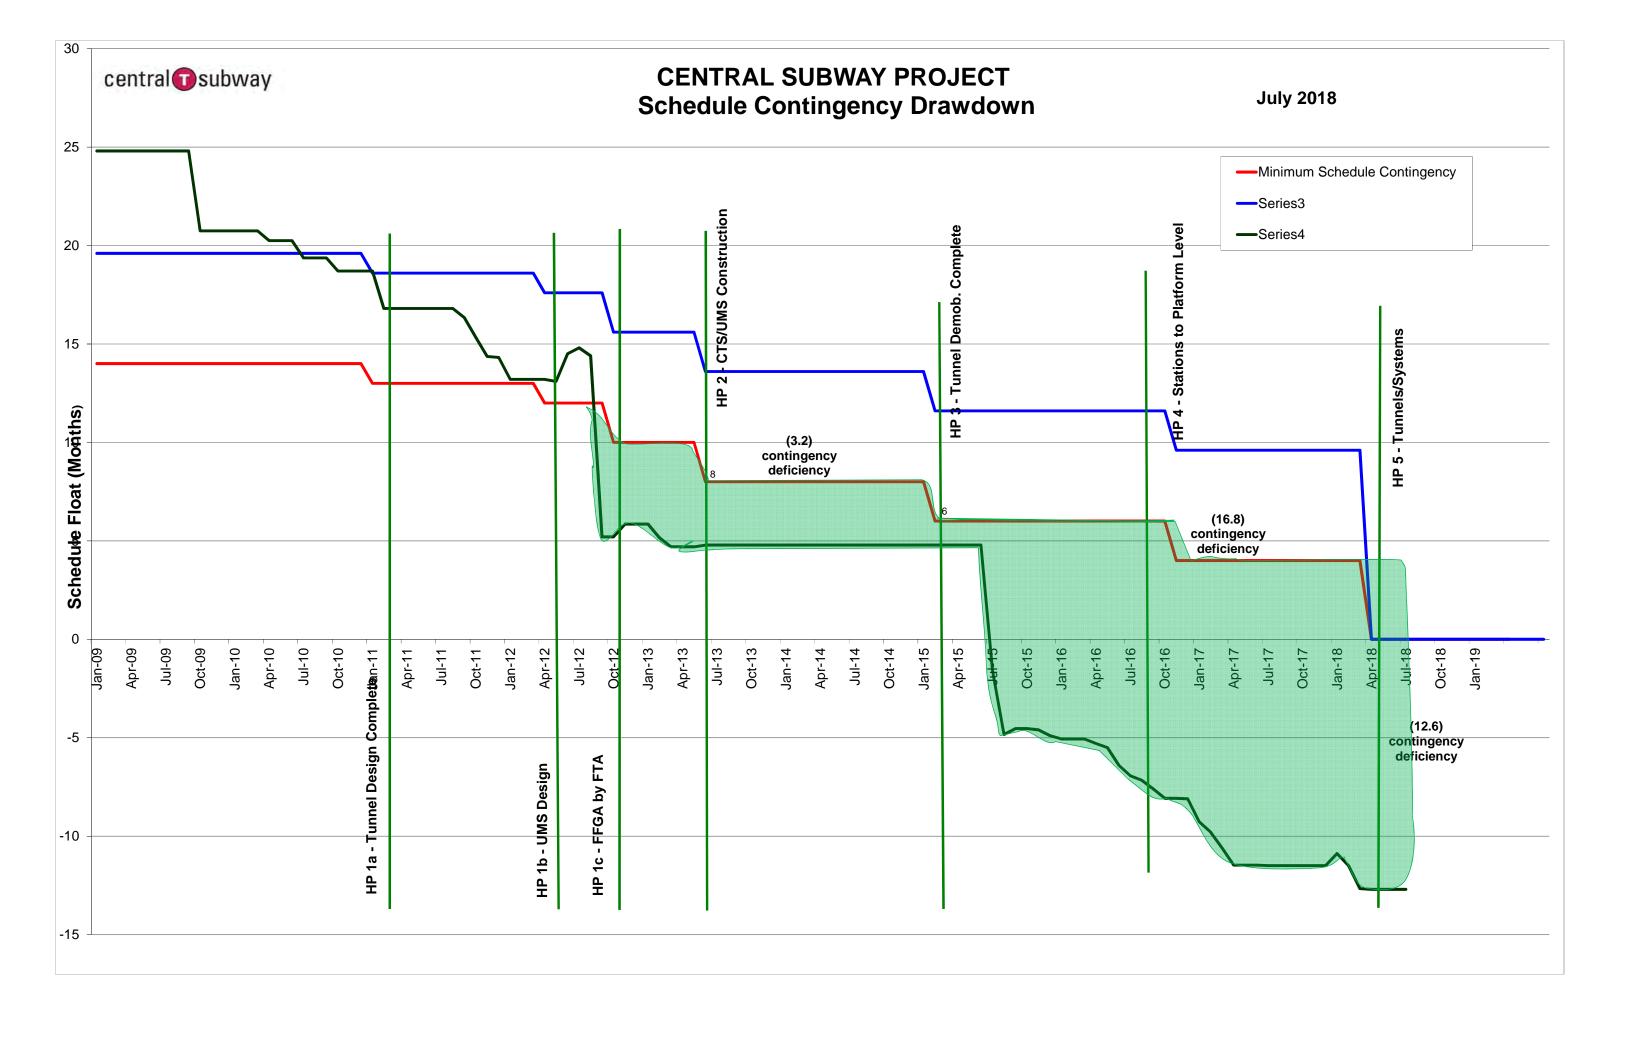

SCHEDULE REVISIONS

The SFMTA Contract 1300 July 2018 schedule update was added this period to the Central Subway Project Master Schedule.

Appendix C PROJECT SCOPE AND FUNDING OVERVIEW

Project Overview

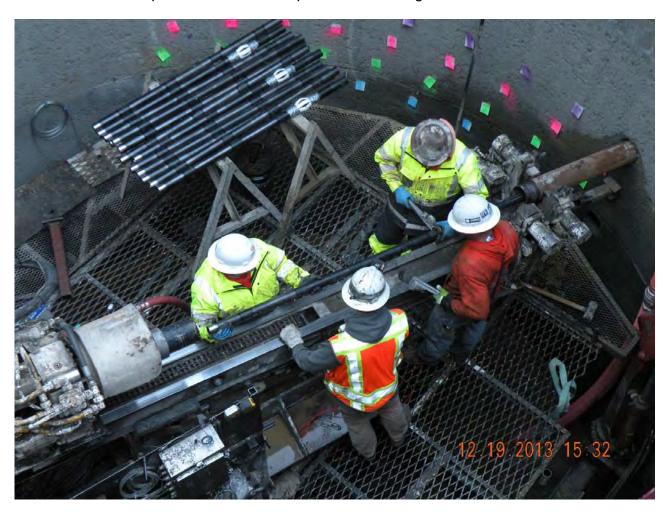

The Central Subway Project will construct a modern, efficient light-rail line that will improve public transit in San Francisco. This new 1.7-mile extension of Muni's T Third Line will provide direct connections to major retail, sporting and cultural venues while efficiently transporting people to jobs, educational opportunities and other amenities throughout the city.

The Central Subway Project is Phase 2 of the San Francisco Municipal Transportation Agency's (SFMTA) Third Street Light Rail Transit Project. Phase 1 of the project constructed a 5.1-mile light rail line along the densely populated 3rd Street corridor. It began revenue service in April 2007, restoring light-rail service to a high transit-ridership area of San Francisco for the first time in 50 years.

The Central Subway Project will extend the T Third Line from the 4th Street Caltrain Station to Chinatown, providing a direct, rapid transit link from the Bayshore and Mission Bay areas to So-Ma, Union Square and downtown.

Four new stations will be built along the 1.7-mile project alignment—an above-ground station at 4th and Brannan streets and three underground stations at Moscone Center, Union Square and Chinatown.

The Central Subway will run through the burgeoning technology and digital-media hub in SoMa, where dozens of companies have taken up residence along the 4th Street corridor. Increased

Project Overview - continued

transit options will attract new employers – the Central Subway makes travel more convenient throughout the corridor and improves connections to downtown, local and regional rail and the Muni bus system.

The Central Subway Project will contribute to San Francisco's economic competitiveness and help secure the city's status of a regional, national and global hub. It will provide a pollution-free transit option that will reduce the environmental impact of transportation in the city, save natural resources, reduce traffic congestion and improve public transit for thousands of San Franciscans.

Funding Overview

The Central Subway Project is funded by the federal government, the State of California, the Metropolitan Transportation Commission, the San Francisco County Transportation Authority (SFCTA) and the City and County of San Francisco.

The majority of funding for the Central Subway Project is expected to be provided by the Federal Transit Administration's (FTA) New Starts program, with a total commitment over the life of the project of \$942.2 million. To date, \$41 million in Department of Transportation Congestion Mitigation and Air Quality Improvement Program funds have been committed and expended.

With the addition in the December 2013 MPR of work to relocate the retrieval site for two tunnel boring machines (TBMs), the SFMTA's baseline budget for the Central Subway Project is \$1.588 billion. In total, about half of the Third Street Light Rail Transit Project's funding is from federal sources, with the remaining half from state and local sources. This is in line with the expectations of the FTA for New Starts-financed programs.

The table below summarizes the local, state and federal fund sources for both phases of the T Third Line including with the addition of the retrieval shaft to the Phase 2 totals.

	T Third (Phase 1)	Central Subway (Phase 2 + Retrieval Shaft Relocation)	Total (Phase 1 + Phase 2 + Retrieval Shaft Relocation)	Percentage of Total
Federal	\$123.380	\$983.225	\$1,106.605	49.5%
State	\$160.700	\$471.100	\$631.800	28.2%
Local	\$364.380	\$133.675	\$498.055	22.3%
Total	\$648.460	\$1,588.000	\$2,236.460	100.0%

All amounts in millions of dollars

The six charts that follow summarize use of fund sources by phase and with the addition of the retrieval shaft relocation additional budget and funding:

 Phase 1 + Phase 2 of the T Third Line federal, state and local funding percentages previous to the addition of the retrieval shaft relocation budget and funding in December 2013.

Funding Overview - continued

- Phase 2 Central Subway Project only total funding source percentages previous to the addition of the retrieval shaft relocation budget and funding.
- Phase 2 Central Subway Project only detail of the six State and Local funding sources previous to the addition of the retrieval shaft relocation.
- The next three charts that follow are the above three data sets above with the retrieval shaft relocation budget and funding added to the overall presentation.

Appendix D COMPLETED CONTRACTS

Moscone Station and Portal Utility Relocation

Contract 1250

Contractor: Synergy Project Management, Inc.

Budget/Expenditures							
Category	Amount						
Original Budget	\$11,227,316						
Expenditures Final	\$11,968,150						
Utility Reimbursements	(\$2,275,419)						
Final Program Cost	\$9,692,731						
Budget Impact (Underrun)	(\$1,534,585)						

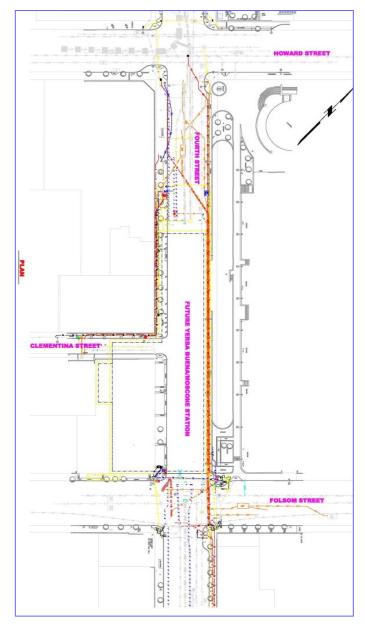

Contract Details	
Contract Awarded:	November 17, 2009
Notice to Proceed:	January 4, 2010
Substantial Completion	n: June 23, 2011
Contract Award Value:	\$ 9,273,939
Modifications Final :	\$ 2,694,211
Final Contract Value:	\$11,968,150

Status

- Work complete
- Project closeout administration and documentation
- Final Completion Date: June 23, 2011

Description

This project relocates utilities within the footprint of the proposed Yerba Buena/Moscone Station and the 4th Street Portal where the tunnel boring machines will descend underground. Also included is installation of building protections and monitoring of buildings adjacent to utility trenches.

Union Square/Market Street Station Utility Relocation

Contract 1251

Contractor: Synergy Project Management, Inc.

Budget/Expenditures	Budget/Expenditures							
Category	Amount							
Original Budget	\$22,199,847							
Expenditures Final	\$20,699,081							
Utility Reimbursements	(7,413,510)							
Final Program Costs	\$13,176,169							
Budget Impact (Underrun)	(\$9,023,678)							

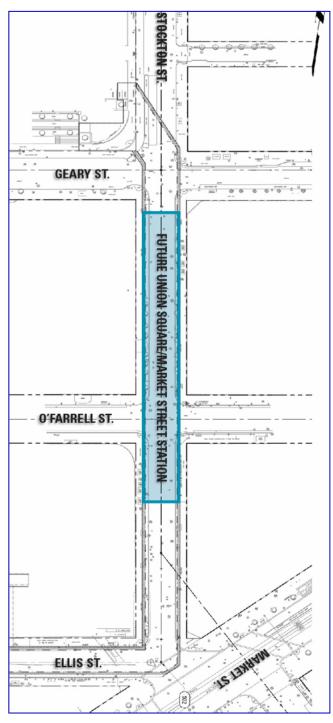

Contract Details	
Contract Awarded:	December 7, 2010
Notice to Proceed:	January 12, 2011
Substantial Completion:	August 16, 2012
Contract Award Value:	\$16,832,550
Modifications Final:	\$3,836,531
Final Contract Value:	\$20,669,081

Status

- Final completion on October 15, 2012
- Completed punch list work
- Project Final Acceptance on November 15, 2013
- Completed final construction contract administrative closeout in June 2017

Description

This project relocates utilities for the Union Square/Market Street Station and temporarily reroutes existing trolley coach lines around the construction.

Central Subway Pagoda Palace Demolition

Contract 1277 Contractor: MH Construction

Work Description

Demolish and clear the former Pagoda Theater for use the site to recover the tunnel boring machines when tunnels are completed in 2015. Locate and supply contractor facilities and installations. Obtain permits and approvals and coordinate work with City agencies and utility companies. Furnish and install signs and distribute notices to the local community prior to commencing with construction, cleanup and remove of debris from the site.

- Contract funded by SFMTA Operating funds
- Work was substantially completed September 24, 2013
- Completed administrative closeout in June 2016

Budget/Expenditures						
Category	Amount					
Current Budget	\$648,976					
Expenditures to Date	\$648,976					

Contract Details	
Contract Awarded:	June 12, 2013
Notice to Proceed:	July 15, 2013
Substantial Completion:	Sept. 24, 2013
Contract Award Value:	\$498,995
Modifications to Date:	\$149,981
Current Contract Value:	\$648,976

Central Subway Tunneling

Contract 1252 Contractor: Barnard Impregilo Healy Joint Venture

Description of Work

1.5-mile twin bore tunnels from Hwy I-80 to North Beach using two tunnel boring machines (TBMs). Contractor procurement and installation of the TBMs; construction of the TBM launch box and retrieval shaft excavation support; Yerba Buena/Moscone Station and Union Square/Market Street Station end walls; tunnel excavation and installation of precast segmental lining, the 4th Street portal transition to the surface and cross passages. Throughout, settlement monitoring and protection of existing utilities, buildings and BART tunnels.

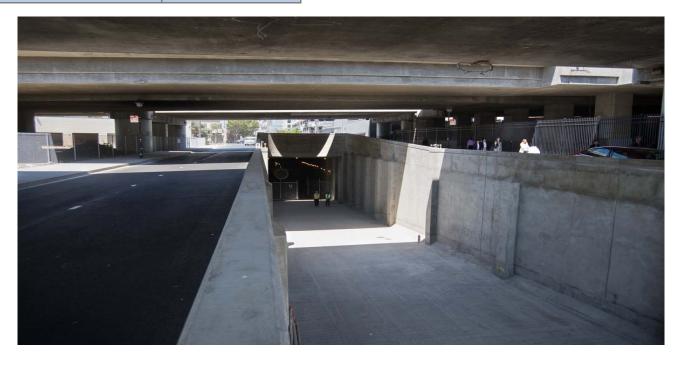

Status

Final Completion Date: May 15, 2015

Administrative closeout in progress

Budget/Expenditures					
Category	Amount				
Current Budget	\$235,913,500				
Other Project Budget	\$5,150,000				
Other Offset Credits	\$1,312,101				
Expenditures to Date	\$233,589,322				

Contract Details							
Contract Awarded:	June 28, 2011						
Notice to Proceed 1:	January 27, 2012						
Notice to Proceed 2:	March 14, 2012						
Partial NTP 3:	April 12, 2012						
Notice to Proceed 3:	October 15, 2012						
Substantial Completion:	April 13, 2015						
Contract Award Value:	\$233,584,015						
Modifications to Date:	\$7,825,155						
Current Contract Value:	\$241,409,170						

Appendix E SBE PARTICIPATION

Quarterly Report

Current Report: April 2018 - June 2018

PROGRAM SUPPORT CONTRACTS - SBE PARTICIPATION

Appendix E presents the Central Subway Program Small Business Enterprise or SBE goals and the actual SBE participation achieved to date – as of June 30, 2018.¹

CS Program SBE Summary Table for Professional Services and Construction Contracts

The summary compares the dollar value of the Base Contracts, the SBE Contract Goals, the percent and dollar value expended to date and the SBE actual participation to date.

Appendix E - Monthly Progress Report - Reported Quarterly in 2018

SBE Summary Table Notes and Sources:

a) Column A is the base contract amount awarded. Column B is the Agency SBE goal percent for each contract awarded.

The SFMTA SBE Contract Goals are also on the Central Subway web site under the listing of on-going contracts – see "Closed and Awarded Contracts" at this link: http://centralsubwaysf.com/content/closed-and-awarded-contracts

b) Column C shows each contract's current amount expended to date (estimated) including accruals. Column D is the actual SBE percent level of each contract based on payments to date. Column E is the expected SBE dollar amount when the contract amount is completed and the SFMTA SBE goal achieved using this calculation: Columns A * B = Column E, the SBE Expected \$ Amount.

¹ An SBE is a for-profit, small business concern with a three (3) year average gross revenue not exceeding \$14 million or \$12 million, depending on the scope of work to be performed, that is certified under any of the following programs: the State of California's Small Business Program with the Department of General Services ("State Program"), the City and County of San Francisco's LBE Program ("City Program"), or the California Unified Certification Program ("Federal DBE program").

Column F is the actual SBE dollar amount out of the total contract expenditure to date: Columns C * D = Column F, the SBE Expended \$ Amount.

The source of the SBE Actual percent to date and dollar amounts are Progress Payment Applications and Contractor's monthly submittals that may include the current estimated accruals. The BIH SBE percent is from the contractor's progress payment #40, Form 6.

- c) Column G, the Contractor's SBE Goal in the submitted bid, is background information that is not calculated in the table. The table source of the Contractor's SBE Goals is from the SFMTA Contract Compliance Office. A Contractor's SBE goal in the bid is one source used by SFMTA Contract Compliance to assess and propose the Agency's SBE goal for a contract.
- d) The three constructions contracts shown in **bold type**, **1250**, **1251 and 1277**, with gray background, are completed contracts. Little to no changes will be shown in future reports.
- e) The SBE Hill International Actual to Date SBE participation is 30.0% for the overall SFMTA contract. The Hill International data is for the Central Subway Task 1 portion of the Hill International contract to provide SFMTA Project Controls services and systems.
- f) The SBE SFMTA goal for Contract 1300 Tutor-Perini is 20% SBE with a provision of 50% for trucking.
 - The 1300 Tutor-Perini SBE percent Actual is based on the SBE data provided in Progress Payment #54, June 2018, SFMTA SBE FORM No. 6.
- g) The SBE SFMTA goal for Contract 1277 MH Construction was based on an SBE set-aside.

SBE Participation Details

The two tables that follow present the Central Subway's professional services and construction contract amounts, expenditures and SBE levels with additional details.

Active Professional Services Contracts - SBE Participation Details

	As of:	6/30/2018
Contract:	Project Management and Construction management	
Contract No.	CS-149 Central Subway Partne	ership*
Status:	On-going	
	Base Contract Value	\$85,139,092
	Approved Change Orders	-0-
	Current Contract Value	\$85,139,092
	Expended to Date (est.)	\$67,013,727
	% Expended	78.7%
	SBE SFMTA Goal	30.0%
	SBE Participation	32.4%

Contract:	Project Controls Cost and Schedule Support	
Contract No.	CS 156 Hill International Task 1*	
Status:	On-going	
	Base Contract Value	\$17,112,873
	Approved Change Orders	-0-
	Current Contract Value	\$17,112,873

Photos on the next page:

In June 2018, the yellow waterproofing and blue gasket stripes line the length of the Chinatown track crossover cavern. At Union Square/Market Street Station, construction of the station platform continues. At Yerba Buena/Moscone Station, the southern portion of the headhouse roof slab was recently poured. Finally, a view from the tunnel emergency walkway inside the southbound tunnel at STS station.
