## INNER SUNSET CURB MANAGEMENT PROJECT Business and Merchant Loading Survey

The Inner Sunset has a vibrant commercial core with a diverse set of restaurants, shops, bars and services. The Inner Sunset is also a transit hub, with the N-Judah and seven bus routes passing through the area. A major streetscape improvement project that has been under construction for several years is wrapping up in Fall 2019, and as it draws to a close, the SFMTA is seeking input on how to allocate curb space to different uses. These include loading zones, general metered parking, short-term parking and more.

The information gathered through this survey will help inform recommendations for parking and loading in the area bounded by Lincoln Way, Judah Street, and 5th and 12th Avenues. The recommendations will focus on improving safety, reducing transit delay and congestion, and supporting business vitality. For questions, please contact Alex Jonlin at [Alexander.Jonlin@sfmta.com](mailto:Alexander.Jonlin@sfmta.com). Thank you for devoting your time to completing this survey.

### ABOUT YOU AND YOUR BUSINESS

Your Name	Address					
Contact Phone	Email					
Business Name	Business Type					
What is your relationship to this business? (Owner, manager, employee, etc)						
Would you like to receive email updates about this project?	Yes	No				
1. My business usually does its loading:						
Multiple times a day	Daily	Several times a week				
Weekly	Less than Weekly					
2. My business usually does its loading on (mark all that apply):						
Mon	Tues	Wed	Thur	Fri	Sat	Sun
