6. Introduction of New or Unfinished Business by Board Members

Director Heminger requested information regarding the SFMTA's spare ratio for buses.

Director Torres requested information regarding addressing the concerns raised by the Black Employee Alliance.

7. Director's Report (For discussion only)

- Update on Vision Zero
- Ongoing Activities

Chair Heinicke welcomed Jeffrey Tumlin.

Jeffrey Tumlin, Director of Transportation, discussed Vision Zero, the Go-Ex letter, parking meters, Muni art, and his key priorities for the next few months.

PUBLIC COMMENT:

Herbert Weiner discussed the problem of bullying within the SFMTA. Top management has been guilty. This affects service delivery. The SFMTA isn't the only department that has this problem. He expressed his willingness to assist. With respect to sidewalks, there are too many cyclists and scooters which endanger pedestrians and people with disabilities. People who use alternative forms of transportation should play by the rules.

Howard Strassner stated that a great majority of citizens voted for the Transit First policy and hopes that Mr. Tumlin will work on it. On Presidio Drive, the stops were spaced every other block. This was done because we had more buses making more stops. It's okay to compromise for parking here and there but this reason gets in the way too often. He questioned cars that block sidewalks.

Debbi Quick discussed a car that ran a red light. The city won't reach its safety goal without the cooperation of the police department. Car drivers are unbelievably aggressive. It's not appropriate for bikes nor scooters to ride on sidewalks but the police don't do anything about it. Car drivers need to be held to account.

Vice Chair Borden asked staff for information about how we are treating meters that don't accept cash.

Director Eaken asked that the hiring issues be broken down further to distinguish issues that the SFMTA can change versus those that the SFMTA can't control. She would also like to hear staff's analysis when Vision Zero incidents are evaluated to aid the Board in understanding what the issues are.

8. Citizens' Advisory Council Report

No report.

9. Public Comment

Michael Cheney read an email he sent to the Mayor discussing Muni vehicles and their braking capacity. All Siemens light rail vehicles don't have braking capability.

Herbert Weiner stated that if a problem can't be solved, Muni makes it worse. Issues should be made public. Many programs have been rubberstamped. Van Ness and Taraval streets have been wrecked. He asked for more democracy in the planning and input of projects to avoid catastrophe.

Howard Strassner discussed congestion due to transportation network companies. A congestion fee could have been a solution, but red paint could help. More bus bulbs should be used to help stop traffic. He discussed several long-standing problems such as the stop at Presidio and Fulton. It was decided over two years ago to move the stop, but nothing has changed. 19th Ave. was supposed to be fixed but that has dragged on as well.

Christopher Pederson discussed the City's failure to implement the Transit First policy. Doing that will involve some tough battles. The K and M lines are routinely held up at St. Francis Circle to give priority to cars. That impacts the entire Metro system. That intersection needs to be looked at.

Travis Fox, Manager, Performance; Samantha Erickson, Nelson/Nygaard; and Julie Kirschbaum, Director, Transit, presented the item.

PUBLIC COMMENT:

Herbert Weiner stated that he supports the findings, but he would like to see subjective responses. He wanted to know whether walking a longer distance influenced a persons' decision to take transit or drive. He questioned all surveys done by the SFMTA because most don't leave room for comment.

Vice Chair Borden asked that the charts include the goal for each metric.

Chair Heinicke asked staff to report on why ridership in the Metro was down during this period.

Director Rubke requested an appendix that explains each metric in future reports.

RESOLUTION 2200107-006

On motion to approve:

ADOPTED: AYES – Borden, Eaken, Heinicke, Heminger, Rubke, and Torres

ABSENT - Brinkman

13. Presentation and discussion regarding subway performance and a future train control upgrade project. (Explanatory documents include a slide presentation.)

Dan Howard, Manager, Technology Systems, Transit Division, presented the item.

PUBLIC COMMENT:

Howard Strassner discussed his experience with the Metro system. It's crazy to run single car trains in the subway. He suggested in-route coupling which can be done now. The advantage is longer trains. On weekends, the system doesn't have problems because only 30 cars per hour are being run. Nobody runs 40 cars per hour.

14. Presentation and discussion regarding the legal responsibilities of the SFMTA. (Explanatory documents include a slide presentation. Fulfills Charter Section 8A.102 (c) (3) training requirements.)

Susan Cleveland-Knowles, deputy city attorney, presented the item.
