

San Francisco International Airport

**NOTICE**

February 2, 2017

**To:** All SFO Taxi Operators

**Subject:** Change in International Terminal Pick-up Zone

As a result of the various and ongoing Airport-wide construction projects, it has become necessary to adjust the location of numerous commercial ground transportation drop-off zones and several pick-up zones. These changes impact *all* modes of commercial ground transportation and will vary by Terminal.

As it relates to the Taxi mode of transportation, **Effective at 4:00 a.m. on Wednesday, February 15, 2017**, the Airport will reduce the International Terminal Arrivals Level usable queuing space by 30 feet. This change will have a direct impact on the front end of the queuing line, as indicated on the attached diagram. Curbside Taxi Dispatchers will continue to control the call-up of vehicles, but at a reduced number to accommodate this change.

If you have questions or concerns with this change, please contact Paul Foster at (650) 821-6512.
