Today we are going to observe the existing conditions at Sloat and Skyline for people walking, driving, biking, and riding transit. Your observations and input will help inform the upcoming design alternatives analysis as part of this project.

As you travel around the intersection, here are some questions to think about:

- Do I feel safe walking at this location? What if I were biking?
- Is it clear to me where I need to look for approaching vehicles?
- Are the pedestrian and transit facilities in good condition and accessible?
- If I were driving a car right here, would it be clear to me how to proceed through the intersection? What about if I were on a bicycle?
- As a driver, do I have visibility and space to see approaching pedestrians?

Follow the numbered diagram to make your way through the intersection. Begin at the southeast corner of the intersection and travel clockwise around it. Before crossing any travel lanes, check for oncoming vehicles.

Start at station 1 by the crosswalk connecting people walking with Lakeshore Drive.

Do you feel safe crossing here?

Poor < 1 2 3 4 5 > Excellent

Is the sidewalk pavement in good condition?

Poor < 1 2 3 4 5 > Excellent

Describe any other issues you see: _____

Think about the right turn from Skyline/Hwy 35 to Sloat as a driver.

Rate operations & ease of use at this turn:

Poor < 1 2 3 4 5 > Excellent

Are signs clear & easy to navigate?

Poor < 1 2 3 4 5 > Excellent

Describe any other issues you see:

Cross Skyline Boulevard to station 2 by the 23-Monterey Inbound bus stop.

Do you feel safe waiting for the bus here?

Poor < 1 2 3 4 5 > Excellent

Rate the condition of the paved median:

Poor < 1 2 3 4 5 > Excellent

Are the facilities accessible for people with wheelchairs or strollers?

Poor < 1 2 3 4 5 > Excellent

Describe any other issues you see: _____

Go to station 3 in the center median on Sloat.

Rate the condition of the paved median:

Poor < 1 2 3 4 5 > Excellent

Are the facilities accessible for people with wheelchairs or strollers?

Poor < 1 2 3 4 5 > Excellent

Observe the bicycle facilities. Is there a clear path for bicycles turning left to and from Skyline?

Poor < 1 2 3 4 5 > Excellent

Describe any other issues you see: _____

Make the two-stage crossing to station 4 on the north side of Sloat by 39th Avenue.

Rate the condition of the sidewalk:

Poor < 1 2 3 4 5 > Excellent

Are the facilities accessible for people with wheelchairs or strollers?

Poor < 1 2 3 4 5 > Excellent

Describe any other issues you see: _____

Consider the second leg of the crossing you just made across through traffic on Sloat.

Does oncoming traffic approach at a speed that feels comfortable for people walking and biking?

Poor < 1 2 3 4 5 > Excellent

Does oncoming traffic reliably yield?

Poor < 1 2 3 4 5 > Excellent

Describe any other issues you see: _____

Return to the group meeting point at the southwest corner of the intersection. For the entire intersection, rate the following:

Condition of pedestrian facilities:

Poor < 1 2 3 4 5 > Excellent

Comfort of walking near or crossing traffic:

Poor < 1 2 3 4 5 > Excellent

Ease of crossing on foot (time/convenience):

Poor < 1 2 3 4 5 > Excellent

Adequacy of bicycle facilities:

Poor < 1 2 3 4 5 > Excellent

Ease of crossing by bike (time/convenience):

Poor < 1 2 3 4 5 > Excellent

Adequacy of signage for drivers:

Poor < 1 2 3 4 5 > Excellent
