Location: 4th Street at Long Bridge Street

Subject: Bike Share Station

PROPOSAL / REQUEST:
 ESTABLISH – NO STOPPING EXCEPT BICYCLES
 ESTABLISH – BIKE SHARE STATION
 4th Street, east side, from 56 feet to 99 feet north of the northern crosswalk at Long Bridge Street (58-foot bike share station with red zones on either side)
 (Supervisor District 6)

Proposing a Bay Wheels bike share station in the parking lane on the east side of 4th Street, north of Long Bridge Street, adjacent to Gus's Community Market.

Laura Stonehill, laura.stonehill@sfmta.com

BACKGROUND INFORMATION / COMMENTS

Stations with bicycles are 6 feet long and 4 feet tall with a kiosk 7.8 feet tall and map panel at the northern end of the station. Stations are solar powered via a panel system that extends vertically from the kiosk. No excavation is necessary.

- Adjacent to bike lane
- no Muni
- This site has been presented to UCSF and the District 6 supervisor with support.

Proposed bikeshare station on 4th Street near Long Bridge

Neal Patel <nealpatel@lyft.com>
To: BCLEMENTS@gussmarket.com

Mon, Sep 27, 2021 at 10:26 AM

Hi Brian

I spoke with someone on the phone at the Mission Bay store and he said you'd be the best person for me to talk to. I work with Bay Wheels, the local bikeshare operator - you may have seen our shared bikes and bikeshare stations around town. They're very popular for people to get to work and run errands (including getting groceries!) - especially in the downtown, SOMA and Mission Bay neighborhoods.

We work with the SFMTA and we frequently adjust our network of stations based on demand and other considerations. Because of generally high ridership, we are proposing a new station on 4th Street just north of Long Bridge St. This proposed station would convert about 3 on-street parking spots on 4th Street - please see the attached flier for more information.

Please let me know if you have any comments or questions. I dropped this flier off with someone at the store a few weeks ago but haven't heard anything back. Wanted to send by email to make sure the store has received it. This site will also be heard at an upcoming SFMTA Public Hearing in November (another opportunity for input) and I will keep you posted with that information as the date approaches.

Hi Supervisor Haney,

I wanted to let you know that the Bay Wheels team has worked with the SFMTA and UCSF to develop a proposal for a new bikeshare station on 4th St at Gene Friend Way. We've worked with Georgina Arias, TDM manager at UCSF on a proposal that works well with their other circulation needs. We are aiming to bring this to an SFMTA Public Hearing in November and will keep you updated as we move forward and continue our community outreach.

Thanks, and please let me know if you have any questions.

Dear Neal.

Thanks so much for the update. We will make sure Matt has this information.

Very best wishes,

Matthew Mandich

You are very welcome

We are doing additional work in D6 and there are actually several more being proposed. These stations will likely be heard at Nov or Dec MTA Public Hearings - I'll firm up the details before the agendas are set. Please see below for the list of stations and feel free to reach out if you have any questions.

- 4th at Gene Friend Way
- F30-3 Folsom at Main
- J28 - Brannan at 5th
- K27-3 Brannan at Harriet
- I30-3 S Park at 2nd
- K30-2 4th at Long Bridge St

Pursuant to the California Environmental Quality Act (CEQA), the Guidelines of the Secretary for Resources, and San Francisco requirements, this Notice of Exemption is transmitted to you for filing. At the end of the posting period, please return this Notice to the Staff Contact with a notation of the period it was posted.

Attached fee: \$60 filing fee

PROJECT DESCRIPTION:

The San Francisco Municipal Transportation Agency (SFMTA) proposes to implement a city-wide bicycle sharing system in San Francisco as part of the regional Bay Area Bicycle Share (BABS) system described in detail below. The current regional bicycle share system in San Francisco is a pilot project managed by the Bay Area Air Quality Management District (BAAQMD). The regional BABS system will transfer to the Metropolitan Transportation Commission (MTC) for program oversight at the end of 2015. As part of a BABS pilot project initiated on August 29, 2013, the system operator installed approximately 35 bicycle share stations with input from the SFMTA, comprising 350 bicycles within the public right-of-way, located generally in the northeast section of the City. The proposed project would maintain and upgrade the existing 35 pilot bicycle share stations, and expand the BABS system within San Francisco to comprise a total of approximately 450 stations and 4,500 bicycles across the City and County of San Francisco (San Francisco).

DETERMINATION:

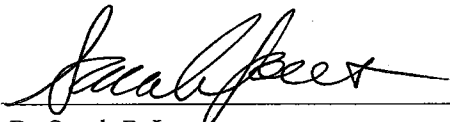

The City and County of San Francisco decided to carry out or approve the project on December 18, 2015. The San Francisco Board of Supervisors (BOS) approved a coordination agreement with the Metropolitan Transportation Commission (MTC), other local partners in the East and South Bay, and the bicycle share operator to carry out the Bay Area Bicycle Share Program, which would be overseen in San Francisco by the San Francisco Municipal Transportation Agency (SFMTA) on December 8, 2015. The agreement was provided to Mayor Lee for his signature and becomes effective upon signing or when ten days have passed. A copy of documents related to this action may be examined at the San Francisco Board of Supervisors, City Hall, 1 Carlton B. Goodlett Place Room 244, San Francisco, CA, 94102 in File Number 151144.

- 1. An Exemption from Environmental Review has been prepared pursuant to the provisions of CEQA under:

- Ministerial (Sec. 21080(b)(1); 15268)
- Declared Emergency (Sec. 21080(b)(3); 15269(a))
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c))
- Categorical Exemption, Class 3, Section 15303
- Statutory Exemption, State code number: _____
- Community Plan Exemption (Sec. 21083.3; 15183)

- 2. This project in its approved form has been determined to be exempt from environmental review because it would result in the installation of up to 450 bicycle sharing stations throughout San Francisco, primarily within the public right-of-way and on some parcels. The proposed individual stations are portable, modular, and would be solar and battery powered, and would thus not involve excavation or utility connections. The bicycle sharing station equipment is small in scale and massing relative to surrounding buildings or sites. Bicycle facilities and infrastructure are common sights within the urban environment. There would be no potential for significant environmental impacts at either a project or cumulative level. Therefore, the proposed project would be exempt from environmental review under Class 3.
