

SFMTA Public Hearing

Park Presidio Lombard Temporary HOV Lanes

Reunión Pública | 三藩市交通局公聽會 | Pampublikong Pagdinig

The SFMTA is seeking a one-year extension of the high-occupancy vehicle (HOV) lanes pilot project along Park Presidio Boulevard and Lombard Street. Initial results have shown benefits for transit riders and carpools from the project. A one-year pilot extension would provide time to complete our evaluation in coordination with Caltrans.

A decision about whether to make the project permanent would be considered later, after completion of the evaluation and environmental review.

SFMTA Online Public Hearing: Wednesday, February 26 - Wednesday, March 12, 2025
