

VAN NESS BUS RAPID TRANSIT TREE SELECTION OPEN HOUSE

Join us for an Open House to learn about the tree selection process for Van Ness BRT

We're in the process of finalizing the design of the Van Ness Bus Rapid Transit (BRT) Project, and construction is scheduled to begin at the end of 2015.

The Van Ness BRT project will provide customers more efficient and reliable transit service and improve safety along the corridor while enhancing the urban design. Tree selection is a crucial part of the project design and a major component of the street's identity.

At our Tree Selection Open House, community members will learn about the Van Ness BRT tree selection process, see which tree species were evaluated, and get the latest information about the Van Ness BRT project.

Join staff at any time during the open house to discuss the project and ask questions. If you are unable to attend the Open House, or would like to provide comments, please email us at VanNessBRT@sfmta.com or call us at (415) 701-2446. Learn more about the Van Ness BRT project online at sfmta.com/vannessBRT.

Thursday, January 29, 2015
4:00 p.m. – 7:00 p.m.
