

SFMTA

Interactive Projects Map

June 7th, 2018

SFMTA CAC
Union Square

What is the Interactive Project Map?

The interactive project map is a new web map integrated with SFMTA.com

- Contains projects which are featured on SFMTA.com.
- Provides a spatial reference to help residents and visitors understand where projects are located.
- Provides a new way to explore work the SFMTA is doing across San Francisco.
- Helps staff share project information with the public.

Citywide Map

Search SFMTA projects by name, mode, neighborhood, supervisor district, or by clicking on the map.

Name Mode Neighborhood District

Pedestrian Projects

MUNI FORWARD 

Pedestrian search results: 45 projects
Results below may also include citywide projects that do not appear on the map, as indicated by a gray header.

16th Street Improvement Project

Description: Improving Muni reliability, travel time, safety and accessibility along 16th Street.

Project mode/type: Accessibility, Muni Forward, Muni, Walk

Project phase: Planned, Current

Partner Agencies: Muni Forward, San Francisco Public Utilities Commission, San Francisco Public Works, Vision Zero SF

More info: [Project web page](#)

17th Street Bicycle Safety Project

Description: Safety and accessibility is a concern on 17th Street between Church and Sanchez due to streetcar tracks, pavement quality and lack of curb ramps. People on bicycles are being injured in falls and people with disabilities are having a difficult time crossing the street. While a number of solutions have been attempted in the past several years to minimize the difficulties posed by the streetcar tracks, crashes are still occurring.

Project mode/type: Accessibility, Bike, Vision Zero, Walk

Project phase: Current

Partner Agencies: Vision Zero SF

More info: [Project web page](#)

Folsom-Howard Streetscape Project

Share this: [Facebook](#) [Twitter](#) [Email](#)

SoMa deserves the same kinds of amenities that other neighborhoods enjoy. The Folsom-Howard Streetscape Project will make SoMa more livable by making it safer and more pleasant to walk, bike, shop and live along Folsom and Howard streets.

Safety is the number one priority of this project. All San Franciscans deserve to be able to get around their neighborhoods safely. Both Folsom and Howard are a part of San Francisco's "High-Injury Network" which is the 12 percent of city streets that account for 70 percent of the San Francisco's severe and fatal traffic crashes.

The Folsom-Howard Streetscape Project will improve safety on these corridors and help the City meet its Vision Zero goal of eliminating traffic fatalities.
