

Van Ness BRT Community Advisory Committee**Thursday, November 15, 2018, 6:00 p.m.****One South Van Ness Avenue, 7th Floor, Union Square Conference Room**ORDER OF BUSINESS

1. Meeting called to order at 6:02 p.m.
2. Public comment.
 - a. None heard.
3. Approval of minutes – [October 25](#).
4. Presentation, discussion and possible action regarding update from SFMTA staff.
 - a. Project schedule.
 - i. Bob Lockhart: What percentage completion is the project?
 1. We are at 30% completion.
 - b. Construction update.
 - i. Anne Turner
 1. Asked at VN & Pine, why is only one crew working each night instead of up and down VN?
 - a. Staff has to look more closely into the matter.
 2. There appear to be different types of pipes being used with three different colors. Which color pipe is which utility?
 - a. Clay pipes are for sewer. Black pipes are for the emergency firefighting water system and for water. Large grey ones are probably the concrete manholes. Smaller grey ones are for conduit/electrical work.
 - ii. Bob Bardell
 1. Suggested that the different kinds of piping and equipment could be a topic for Meet the Expert.
 2. When asphalt work happens, will it be temporary coating, or piecemeal work?
 - a. We will pave each section as we go. It might be a temporary asphalt layer now which we would go over later.
 - iii. Martha Knutzen: Can we expect any improvement over the current state of the sidewalk? From Golden Gate to Geary is very rough and continuing to deteriorate. A temporary treatment or something to smooth it out would make it easier to walk, especially for people with limited mobility.
 - c. Outreach update.
