6. Public Comment:

Edward Mason provided an update of the commuter shuttle bus program in Noe Valley. He stated that there are 100 buses an hour during the peak hours. There are Muni delays and an impact on delivery trucks. There is a Storer bus that has been operating without a permit sticker since November 2019. The Parking Control Officers (PCOs) have been issuing citations but there has been no change in behavior. There have been taxi inspectors. Maybe the administrative penalties will get their attention. There needs to be a review of the entire program. The city just constructed a \$2.2 billion Transbay Terminal that is supposed to be regional.
