## Rating Definitions

**4**

“4” ratings were given to responses that include robust, unique or innovative approaches demonstrating the highest level of commitment and ability to solving known challenges and concerns, and exceeding the minimum requirements to the highest degree.

**3**

“3” ratings were given to responses that include significantly more detailed approaches demonstrating a higher level of commitment and ability to solving known challenges and concerns, and substantially exceeding the minimum requirements.

**2**

“2” ratings were given to responses that include ordinary or typical, but unexceptional solutions, demonstrating a moderate level of commitment and ability to solving known challenges and concerns and exceeding the minimum requirements.

**1**

“1” ratings were given to responses that include the least compelling solutions, demonstrating the minimum level of commitment and ability to solving known challenges and concerns and meeting the minimum requirements.
