6. Public Comment

PUBLIC COMMENT:

Edward Mason stated that for two months, he has been observing, recording, and reporting expired permits on commuter buses. He has also been reporting commuter shuttles with no permits for more than two months. There are commuter buses boarding mid zone, which causes the second bus to overhang into the crosswalk. This causes a myriad of safety issues. These have been observed and reported and nothing has been done to rectify it.

REGULAR CALENDAR

7. Presentation, discussion, and possible action regarding Twin Peaks Tunnel Mitigation. (Bijan Ahmadzadeh, Deputy Director, Capital Programs and Construction and Sonny Au, Deputy Project Manager, Capital Programs and Construction. Explanatory documents include a slide presentation.)

PUBLIC COMMENT:

Edward Mason asked if there is any vibration that is created by the train going through the subway and if so, does it impact the structure. He asked how the Twin Peaks tunnel would differ from what it was a century ago if it was rebuilt in modern times by the SFMTA in terms of techniques and mitigating timbers rotting due to soil.
