

New Transit Bulbs at Eucalyptus Dr, at Winston Dr and at Holloway Ave

- Transit bulbs reduce delays by eliminating the need for buses to merge in and out of traffic at transit stops.
- Bulbs make it easier for everyone to get on and off the bus by letting the doors line right up with the curb.
- Bulbs provide additional space for transit shelters and people walking along the street or waiting for the bus, and they make crossing the street easier by reducing the distance between curbs.

New Pedestrian Bulbs at Eucalyptus Dr, at Winston Dr and at Holloway Ave

- Improves pedestrian safety by reducing the crossing distance at intersections.
