

## HARVEY MILK PLAZA ACCESSIBILITY IMPROVEMENTS

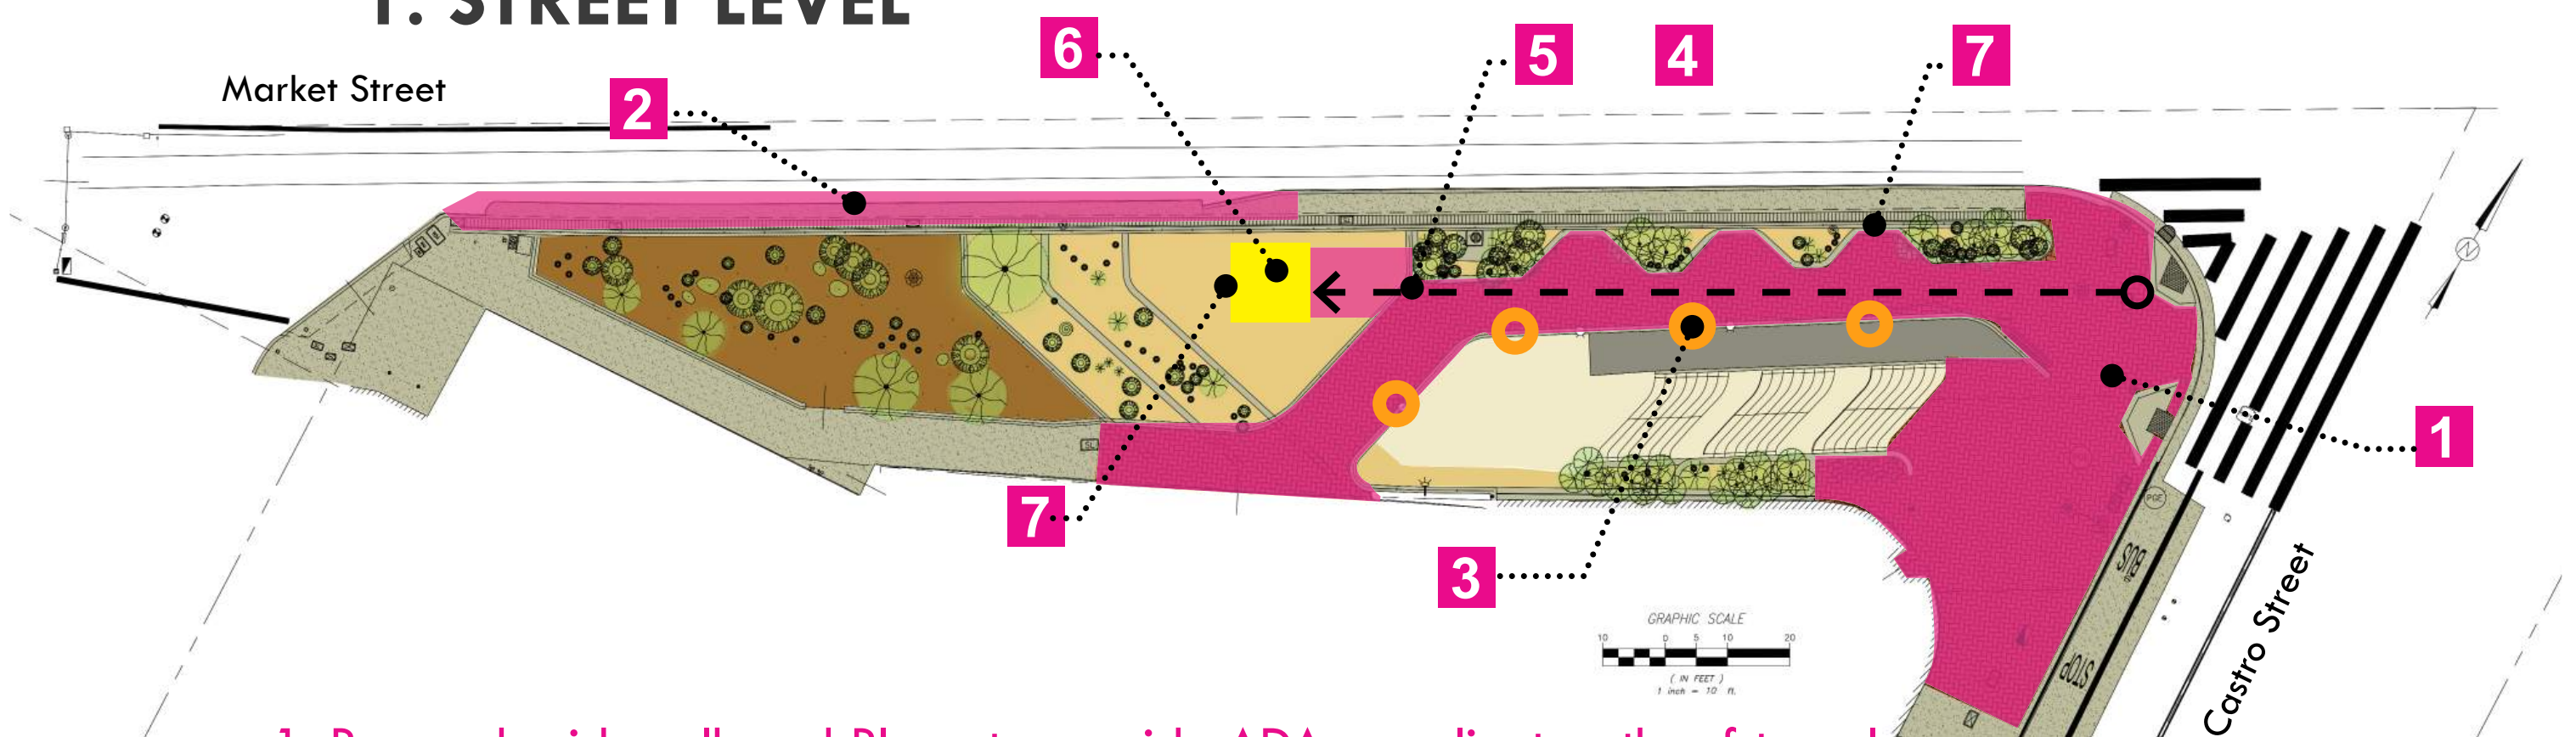

For more information about the project, visit [sfmta.com/castroaccess](http://sfmta.com/castroaccess)

Harvey Milk Plaza lies in the heart of the Castro neighborhood at the intersection of Castro and Market Streets, and adjacent to Castro Muni Station. As a public gathering space, landmark, and transit hub, Harvey Milk Plaza holds a special place in the community.

The proposed accessibility improvements at the Plaza are targeted to address the challenging and non-ADA compliant grading at street-level, and the lack of a three-stop elevator that serves the Muni Station below. The new elevator and accessible paths, along with other much needed improvements such as better lighting and security, will contribute to the goal of providing a safe, user-friendly, and inviting public gathering space in the heart of the Castro community.

Below is a summary of proposed improvements

### 1. STREET LEVEL

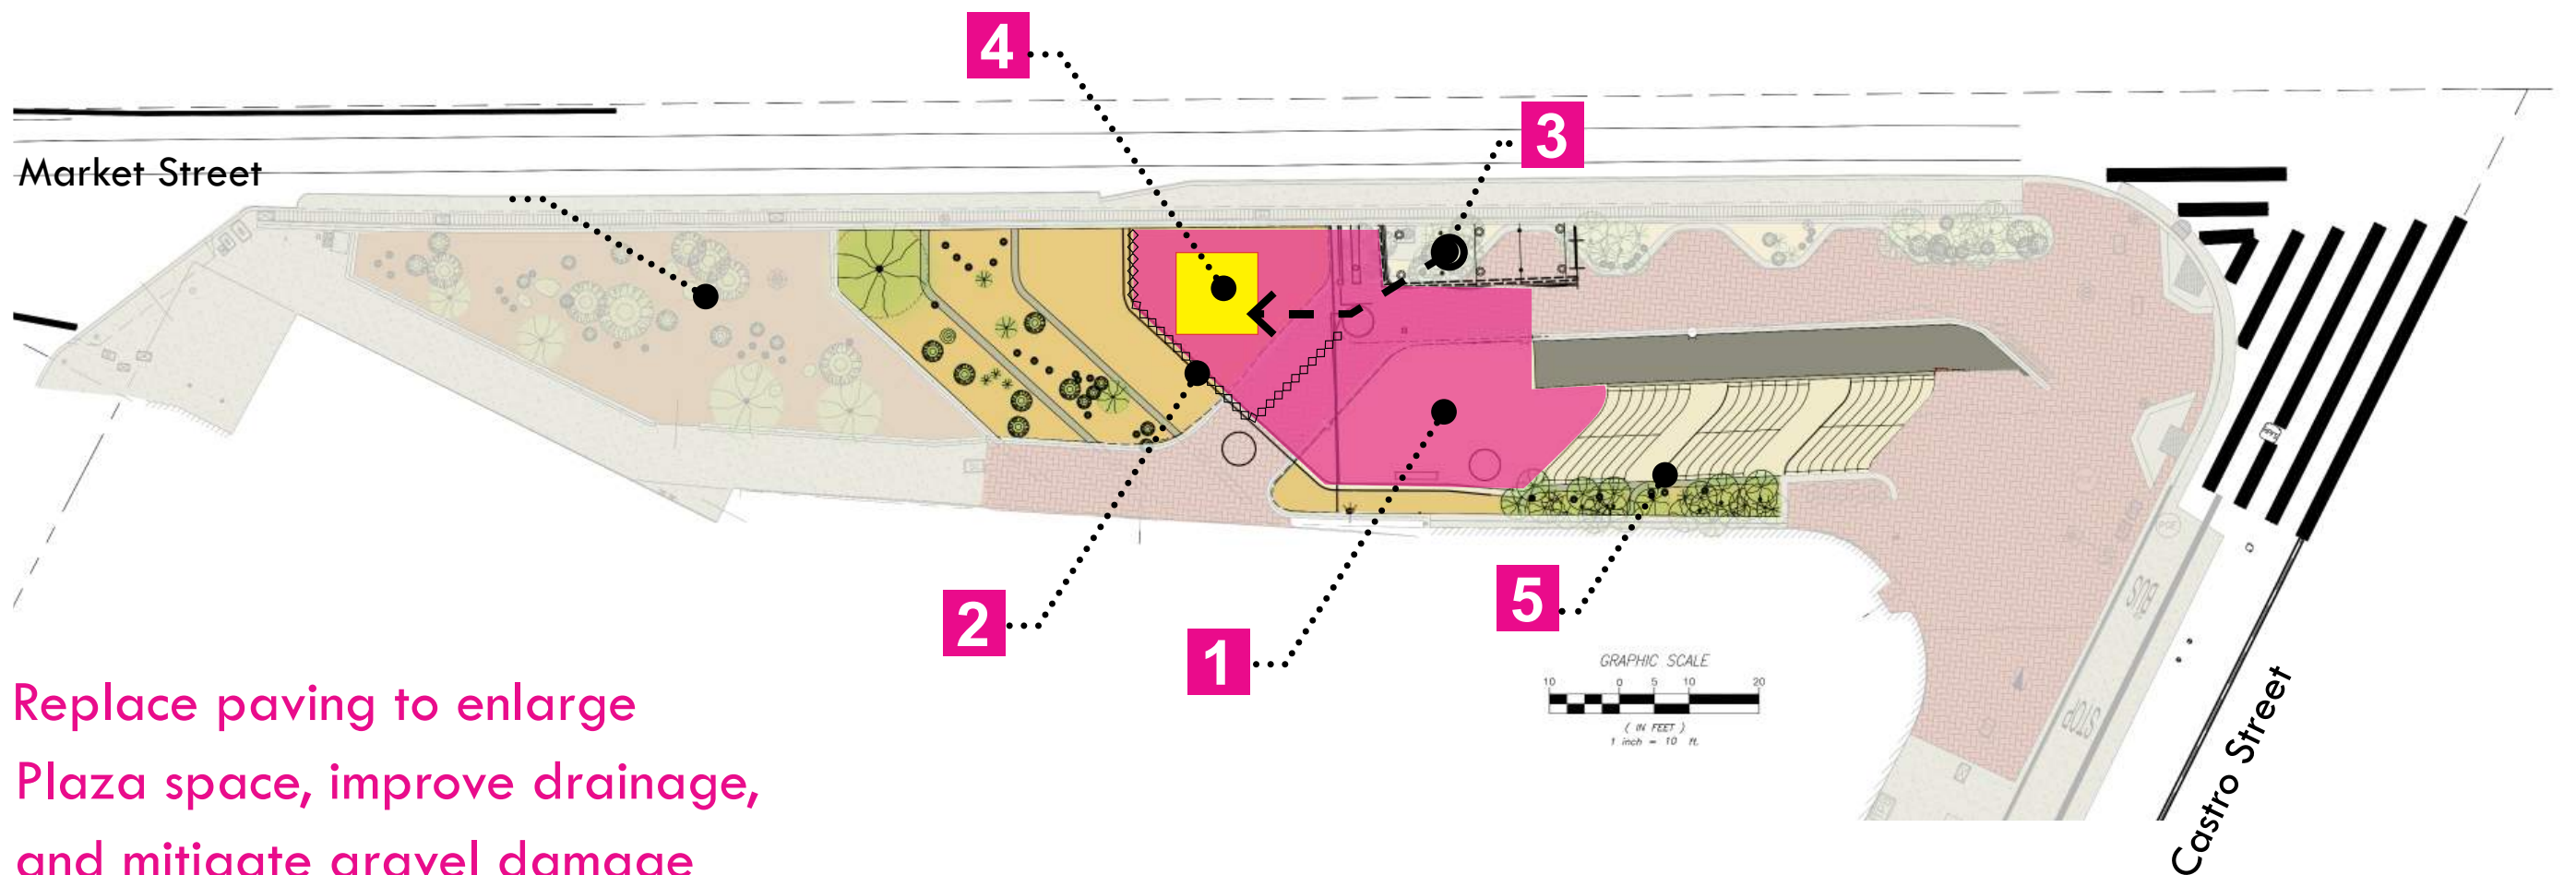

1. Re-grade sidewalk and Plaza to provide ADA compliant paths of travel
2. Widen sidewalk at Market Street bus stop to create a safer pedestrian path
3. Replace existing pedestrian light fixtures along guardrails
4. Provide opportunity to widen the Plaza by removing existing planters
5. Establish a direct and accessible connection from Plaza to elevator entrance
6. Position elevator at an ideal location to integrate with Plaza improvements
7. Provide opportunities for public art that celebrates the legacy of Harvey Milk and history of the community

**2. MEZZANINE / CONCOURSE LEVEL**

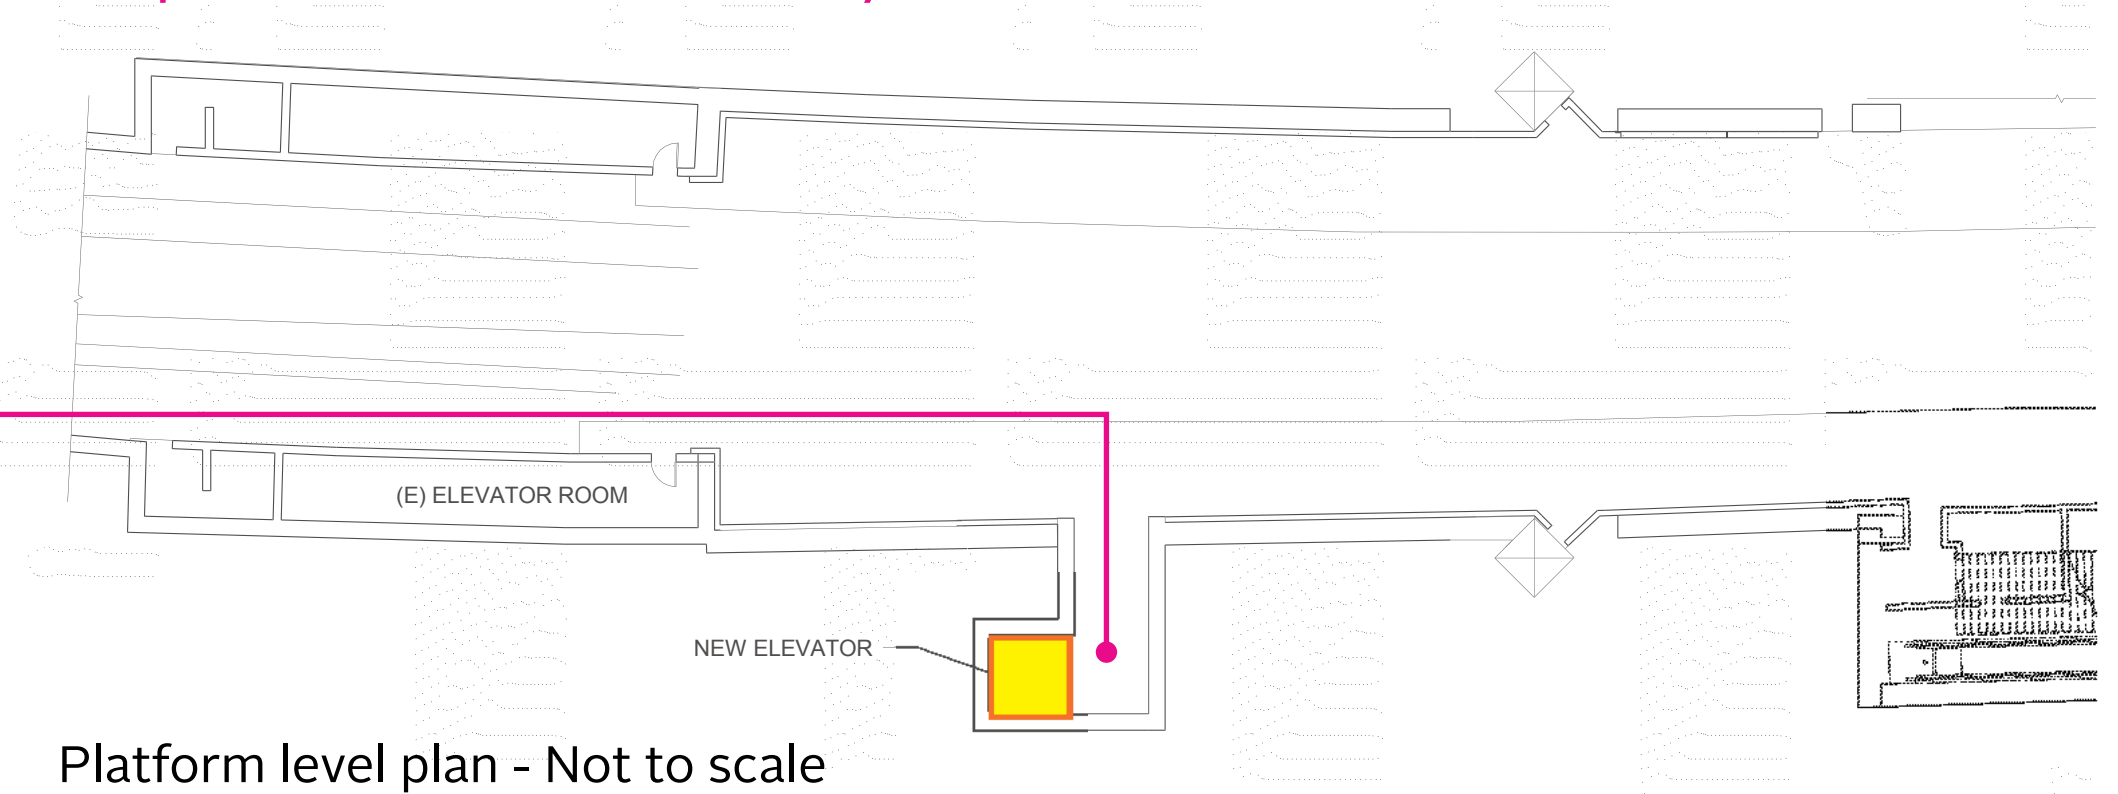

1. Replace paving to enlarge Plaza space, improve drainage, and mitigate gravel damage
2. Improve security fencing to integrate with elevator and to create a safer station
3. Create direct and easy way finding access between elevator and station fare gates
4. Position elevator with minimal impact to Plaza landscape, and no impact to other vertical circulation
5. Provide opportunities for public art that celebrates the legacy of Harvey Milk and history of the community

**3. PLATFORM LEVEL**

Provide direct in-bound platform access from Harvey Milk Plaza

Platform level plan - Not to scale
