Violations can result in denial of boarding or removal from Muni and may carry federal penalties. Face coverings like scarves and bandanas do not meet this requirement. Under guidelines issued by the Centers for Disease Control and Prevention, taxi drivers are required to wear a face covering while transporting passengers. For more information, please visit sfmta.com/COVID.

ONGOING: 19th Avenue (CA Route 1) Combined City Project

San Francisco Public Works is leading a multi-agency project to replace aging infrastructure and improve safety along 19th Avenue between Holloway Avenue and Lincoln Way.

Construction work for the first segment of this project along 19th Avenue between Lincoln Way and Noriega Street has begun.

As part of the [19th Avenue Combined City Project](#), the SFMTA will implement transit priority and safety improvements for people walking along the route of the 28 19th Avenue. The improvements will make it safer to walk, remove stops to make transit service more reliable, and enhance customers' experiences—on and off the bus.

To improve safety along 19th Avenue, the SFMTA will: **1)** install pedestrian bulbs at 19 intersections and transit bulbs at 13 intersections; **2)** modify traffic and pedestrian signals to give people who walk more time to cross the street; and **3)** extend the bus zone at one intersection. Installing transit bulbs allow Muni vehicles to stop for passengers without having to pull out of traffic, and pedestrian bulbs increase the visibility at intersections of people who walk.

As part of the project, seven Muni stops were removed on 19th Avenue between Irving Street and Ocean Avenue last October. **The following Muni routes have been affected with the stop removal:**

- **28 19th Avenue**
- **91 3rd Street/19th Avenue Owl**

To find additional information about the transit reliability and pedestrian safety components, visit sfmta.com/28Rapid. For overall project information, visit sfpublicworks.org/19th-Avenue.
