BAYVIEW

COMMUNITY-BASED TRANSPORTATION PLAN

SFMTA.COM

WHAT IS THE BAYVIEW COMMUNITY-BASED TRANSPORTATION PLAN?

- Focused only on transportation improvements with an emphasis on improving walking, biking, and taking transit
- Empowers residents and community groups to identify transportation priorities and select solutions that reflect community values
- Brings together the many plans & projects done in the Bayview over the years to get a better picture of what has been asked for, what has been planned, and what has been delivered to the community
- Plan is focused on delivering on-the-ground projects to residents within one to five years

WHY THE BAYVIEW?

- The Bayview, one of San Francisco's historically African American neighborhoods, is a culturally rich and resilient community. About 22% of San Francisco's African American community lives in the Bayview.
- The Bayview has been historically under-served and under-invested;
 the need for investment that reflects community values is much higher.
- The Bayview's current transportation options limit residents' access to employment, education, and social opportunities outside of the neighborhood – especially for youth, seniors & residents of public housing.
- Empower the Bayview neighborhood SFMTA wants to ensure the existing Bayview community can grow and thrive in a future that includes new activity, development, and residents along the San Francisco waterfront.

COMMUNITY OUTREACH AND IMPLEMENTATION

This project includes a robust community engagement strategy led by the San Francisco Municipal Transportation Authority (SFMTA). The SFMTA plans to collaborate with District 10 Supervisor Malia Cohen's office and multiple community-based organizations across the Bayview. We are committed to raising up the voices of everyone in the community, especially those most reliant on transit and those most vulnerable to its changes.

Every outreach event will include active collaboration with community members on identifying their priorities, values, and preferences. At the end of each community outreach phase, the project team will present the results and how community input has informed all recommendations. The final plan will be presented to the Bayview community before being adopted by the SFMTA Board to ensure it reflects community values and priorities.
